

# **Systemwide and Campus Enrollment**

# **Section 1**

## Introduction

Student enrollment at the California State University is summarized by two measures: headcount and full-time equivalent student (FTES). Headcount enrollment refers to the number of students participating in academic programs at the CSU. An FTES enrollment, on the other hand, is a measure of the number of instructional units associated with a given headcount enrollment. Term FTES enrollment is defined as 15 units attempted in a single semester or quarter whereas annual FTES is defined as 30 semester or 45 quarter units attempted in a year. Since students often take fewer than 15 units per term, headcount enrollment generally exceeds FTES in any given term or annual period. For example, the corresponding term FTES enrollment for 100 students each taking 12 units is 80 FTES (i.e.,  $(100 \times 12) \div 15$ ).

Tables in this section describe the distribution of headcount enrollment across the 22-campus CSU system by academic terms (fall, winter, spring, and summer) and by student levels (lower division, upper division, and postbaccalaureate students). Corresponding FTES enrollments are reported to indicate the volume of instructional activity.

In addition to term-by-term tabulations, this section also contains descriptions of annualized enrollment. Average yearly enrollment and annual FTES are calculated for the academic year (i.e., fall, winter, and spring terms) and the college year (i.e., the academic year terms plus the summer quarter for the campuses with year-round calendars). In 1991-1992, the procedures used to calculate average term enrollments and annual FTES for the college year were made equivalent; both academic year enrollments and FTES are augmented by one-third of summer quarter activity to produce an equivalent college year enrollment and annual FTES for year-round campuses.

Enrollments are reported as of the census date of each term. The census date is defined as the fifteenth day of instruction for quarter system campuses and the twentieth day of instruction for semester campuses; the actual reporting date varies based upon the campus calendars. Unless otherwise specified, International Programs, the CSU Statewide Nursing Program, Summer Arts, and CalStateTEACH are not included in the enrollment data.

### Historical Trends in College Year Enrollments

As shown in the first two tables of this section, the CSU college year enrollment peaked in 1990-1991 with an average term enrollment of 376,741 and annual FTES of 278,502. Between 1990-1991 and 1994-1995, college year enrollment declined about 14 percent to 324,385. In historical terms, this was the largest decline for the CSU campuses since World

War II. In 2000-2001, the CSU college year enrollment grew to 376,262, an increase of over 3 percent compared to the previous year.

Recent growth in college year enrollment was accompanied by an increase in student workload. Average annual semester equivalent units per student rose from 23.07 in 1994-1995 to 23.41 in 2000-2001. The annual growth in FTES (3.1 percent) equaled the growth in headcounts; FTES rose from 281,782 in 1999-2000 to 290,554 in 2000-2001.

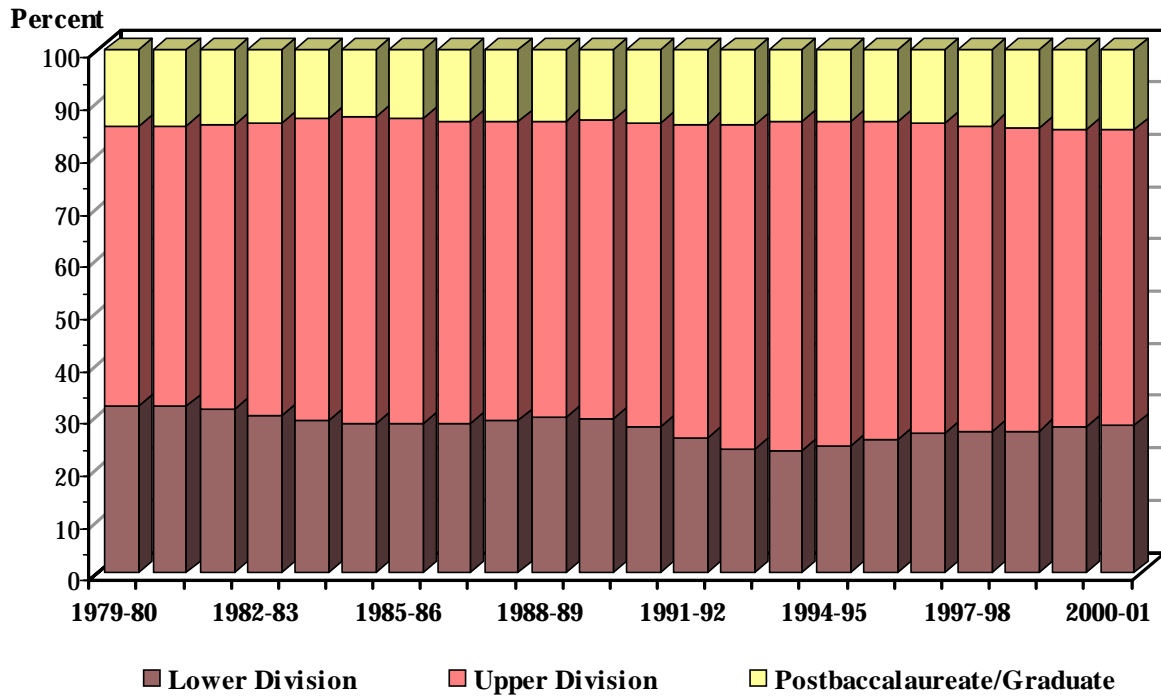

### Academic Year Enrollment by Student Level

Average term headcount enrollment of lower division students reached a high of 92,087 in 1989-1990 but declined to 65,846 in 1993-1994. For the first time in ten years, the lower division enrollment surpassed the 1989-1990 level and set a new high of 92,979 in academic year 2000-2001.

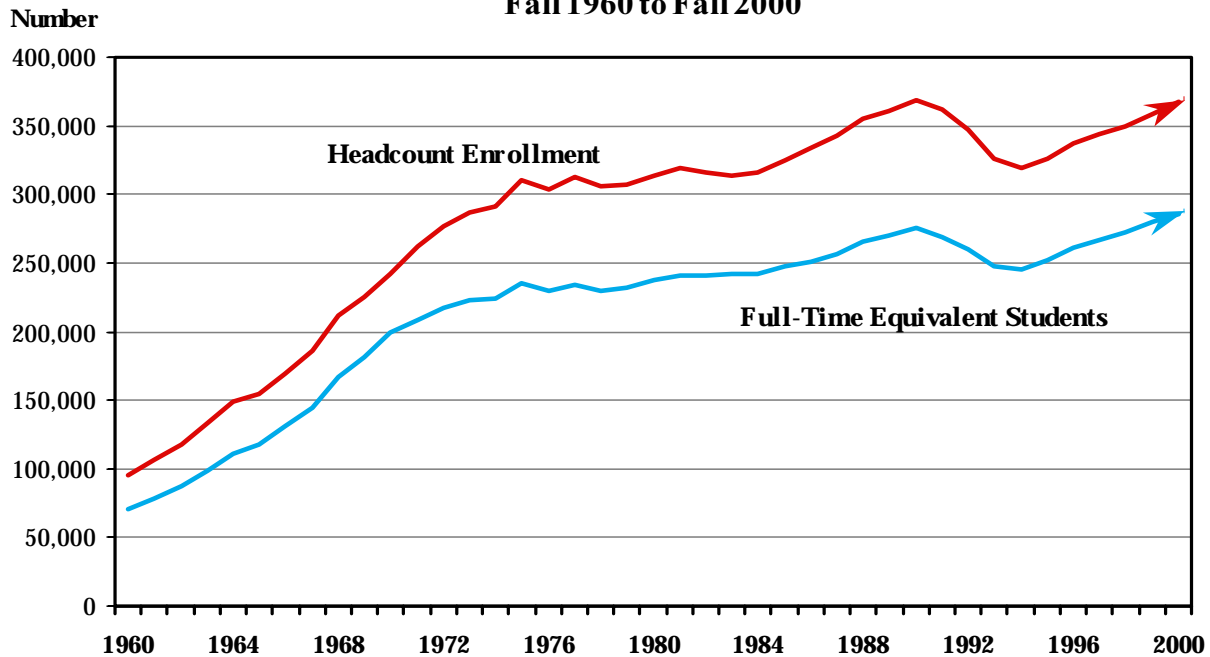

Lower division enrollment, as a proportion of total enrollment, has varied since 1980. In 1980-1981, about 28 percent of CSU academic year average term enrollment and over 32 percent of academic year annual FTES were accounted for by lower division students. In 1993-1994, lower division students accounted for only 20.8 percent of academic year average term enrollment and 23.3 percent of academic year annual FTES. In 2000-2001, however, the percentage of lower division students climbed to 25.7 percent of academic year enrollment—a ten-year high. Lower division FTES also grew, accounting for 28.6 percent of academic year annual FTES—another ten-year high!

The declines in lower division enrollments from 1980-1981 to 1998-1999 were accompanied by corresponding increases in academic year upper division enrollment and relatively stable postbaccalaureate attendance. Upper division comprised 50.4 percent of the average term enrollment (155,093 students) and 53.5 percent of annual FTES (124,514 students) in 1980-1981. After 1980, upper division enrollments began to increase in absolute terms and as a proportion of all enrollment. In 1993-1994, upper division students peaked at 59.7 percent of average term enrollment (188,886 students) and 62.9 percent of annual FTES (151,515 students). While upper division enrollment increased to 193,377 in 2000-2001, it declined as a percentage of average term enrollment (down to 53.4 percent). Similarly, upper division FTES grew to 159,175 in 2000-2001 but represented a decline to 56.3 percent of annual FTES. Since 1980-1981, postbaccalaureates have made up about 20 percent of average term enrollment and between 13 and 14 percent of annual FTES. In 2000-2001, postbaccalaureates were 21 percent of average term enrollment and 15.1 percent of annual FTES.

Note: All FTE figures have been rounded to the nearest whole number.  
 Maritime Academy FTE included in above figures as of 1994-1995 (no data available prior).  
 \*Annualized FTE totals (AY and CY) include International Programs as of 1980-1981; Summer Arts and the CSU Statewide Nursing Program as of 1988-1989; and CalStateTEACH as of 1999-2000.  
 \*\*The 1983-1984 CY FTE total was adjusted to account for winter terms at CSU Dominguez Hills and Humboldt State.  
 \*\*\*The fall 2000 figure reflects final fall data used in college year reporting.

Note: Annualized enrollment (AY and CY) and all FTE figures have been rounded to the nearest whole number.

These statistics do not include enrollment and FTE for Summer Arts, the CSU Statewide Nursing Program, and International Programs.

\*The data reported for 1956-1957 was for the Bakersfield Residence Center administered by CSU Fresno. Beginning with the fall 1970 term, the data is for CSU Bakersfield.

\*\*The fall 2000 figure reflects final fall data used in college year reporting.

Note: Annualized enrollment (AY and CY) and all FTE figures have been rounded to the nearest whole number.

These statistics do not include enrollment and FTE for Summer Arts, Statewide Nursing Program, and International Programs.

\*From 1957-1958 through 1958-1959, the Santa Ana Residence Center was under the administration of CSU Long Beach. CSU Fullerton began instruction in fall 1959. The Santa Ana figures are reported here for convenience and continuity.

Note: Annualized enrollment (AY and CY) and all FTE figures have been rounded to the nearest whole number. These statistics do not include enrollment and FTE for Summer Arts, Statewide Nursing Program, and International Programs. \*From 1956-1957 through 1960-1961, the Santa Rosa Residence Center was under the administration of San Francisco State; Sonoma State began instruction in Fall 1961. The Santa Rosa figures are reported here for convenience and continuity.

Note: Annualized enrollment (AY and CY) and all FTE figures have been rounded to the nearest whole number. FTE figures for 1999-2000 have been revised to reflect a standard of 15 term units attempted per student for that college year instead of 16.5 units. Figures for "Enrollment by Term" and "FTE by Term" are not available prior to 2000-2001.
