Subject: **Admission Exception Allocations, 2005-2006 and 2006-2007**

Trustee policy provides for a limited number of undergraduate admission exceptions to regular admission criteria. Exception admissions under this policy are commonly referred to as “special admits.” Two sections of Title 5, Article 6, California Code of Regulations, incorporate the policy:

Section 40900 General Exceptions
Section 40901 Exceptions for Applicants to Special Compensatory Programs

Article 6 states that an applicant not otherwise eligible for admission either as a first-time freshman applicant or as a transfer applicant with fewer than 60 semester units may be admitted provided that the number of applicants enrolled in each category does not exceed four percent of all undergraduate students enrolled for the first time during the previous year not including those students enrolled under the provision of the Article.

There is continuing concern about the extent to which special admission students contribute to increasing enrollment demand and the need for CSU to provide precollegiate instruction. Further, the CSU cannot exceed the total eight percent permitted by Title 5 under Article 6. Therefore, campuses now exercising enrollment controls and those anticipating the need to manage enrollment are encouraged to carefully reexamine the extent to which special admission applicants are accommodated.

CSU Enrollment Reporting System data filed with the Division of Analytic Studies indicate new undergraduate enrollments in 2004-05 totaled 103,484 of which 1,386 enrolled under provisions of Section 40900 and 1,324 enrolled under provisions of Section 40901. The systemwide total of 2,710 individuals enrolled as exceptions is within the allocation for 2004-05.

Students admitted under Section 40901 are limited to disadvantaged applicants, as defined, for whom special compensatory assistance is available. Section 40900 allocations may be used for disadvantaged applicants, but Section 40901 allocations may be used only to admit disadvantaged students. Therefore, the general administrative control for the campus should be that the students enrolled under Section 40900 not exceed the number enrolled under Section 40901 and that the total enrollments of Sections 40900 and 40901 not exceed the total allocation.

Attachments to this memorandum provide data on the extent to which campuses utilized 2004-05 admission exception allocations and display campus allocations for 2005-06. Attachment A provides systemwide data, and Attachment B provides data for your campus. Recognizing enrollment trends and campus efforts to limit the use of special admission, the special admit allocations are generally less than the number generated for the system or individual campuses. A campus that has special needs that may not be accommodated within the allocation should bring that to the attention of Chancellor's Student Academic Support staff as quickly as possible.

We have included in the attachments a preliminary allocation for 2006-07 for campus planning purposes. We have estimated the 2006-07 allocations based upon campus and system trends in undergraduate enrollment and previous exceptional admission activity. If you find that an adjustment is necessary, please bring that to our attention as early as possible. Final allocations for 2006-07 will be provided in fall 2006.

Questions about admission exception allocations should be addressed to Dr. James Blackburn, Associate Director, Enrollment Management Services, Academic Affairs, Student Academic Support at (562) 951-4726 or jblackburn@calstate.edu.
