   C. Moratorium on program review (Faculty Affairs working on this resolution)

5. **Administrative Reports:**
   5.2 Christine Hanson reported on the following items:
      A. CEL Programs can’t supplant general fund programs. Students are served through the CEL option so state does not have to augment funding. The Chancellor does not want to change 802 and 802 related issues (fee policy) were discussed
      B. Chris Hanson will provide the URL regarding discontinuance policies to Jim and the committee
      C. Lumina Grant Proposal was discussed. This is $500,000/year for 5 years to support existing programs to facilitate graduation efforts across campuses. The focus of this work is on facilitation.
      D. Special Sessions were discussed. All campuses have special sessions except for SDSU. An exclusive move of remediation to special sessions is not allowed at this time. A discussion of fee structure for summer was also held
      E. 802- there is no fluid movement from programs and the suggestion was made to look carefully at the policy re-summer school
      F. DNP legislation is in suspense with hearings in October scheduled to get support for the legislation. The proposed legislation is now considered to be too expensive at a proposed one million dollars

5.3 Jeri Echeverria reported on the following items:
   A. Information on budget cuts will be presented at the upcoming plenary session. There are 6 open positions remaining in the Chancellor’s Office from a total of 12 vacancies.
   B. The Board Of Trustees called for Early Start Program initiation. Early Start (remediation in math and English) begins before students step onto CSU campuses. Executive Vice-Chancellor Echeveria is exploring areas such as CEL, faculty, and has put together a task force to explore this option. The charge of the task force is to design a reasonable plan and vet ideas that come forward. Options and a time line will be included in a report due in March, 2010 with the understanding that the plan needs to be presented but not
implemented at that time. This should be considered on the AA agenda at future meetings. Clarification regarding Early Start Programs was provided. Early start means that the remediation process is started but does not mean implementation or the conclusion of remediation.
