LEGISLATIVE COUNSEL'S DIGEST

SB 160, as amended, Cedillo. Student financial aid: eligibility: California Dream Act.

(1) Existing law requires that a person, other than a nonimmigrant alien, as defined, who has attended high school in California for 3 or more years, who has graduated from a California high school or attained the equivalent thereof, who has registered at or attends an accredited institution of higher education in California not earlier than the fall semester or quarter of the 2001–02 academic year, and who, if he or she is an alien without lawful immigration status, has filed a prescribed affidavit, is exempt from paying nonresident tuition at the California Community Colleges and the California State University.

This bill would enact the California Dream Act. The bill would require that a person who has attended and graduated from secondary school, rather than high school, in California would be exempt from paying nonresident tuition at the California Community Colleges and the California State University. Under the bill, persons attending and

graduating from California technical schools and adult schools, as well as high schools, would be included within the scope of this provision.

(2) The Donahoe Higher Education Act sets forth, among other things, the missions and functions of California's public and independent segments of higher education, and their respective institutions of higher education. Provisions of the act apply to the University of California only to the extent that the Regents of the University of California, by appropriate resolution, act to make a provision applicable.

This bill would add to the Donahoe Higher Education Act a provision which would require the Trustees of the California State University and the Board of Governors of the California Community Colleges, and would request the Regents of the University of California, to establish procedures and forms that enable persons who are exempt from paying nonresident tuition under the provision described above, or who meet equivalent requirements adopted by the regents, to apply for, and participate in, all student aid programs administered by these segments ~~to the full extent permitted by federal law.~~ *The bill would declare that this provision is a state law within the meaning of a federal statute requiring that a state may only provide an alien who is not lawfully present in the United States with eligibility for a state or local public benefit through the enactment of a state law affirmatively providing for that eligibility.* This provision would apply to the University of California only if the regents, by appropriate resolution, act to make it applicable.

This bill would also provide that persons meeting these requirements, or who meet equivalent requirements adopted by the regents, are eligible to apply for, and participate in, any student financial aid program administered by the State of California ~~to the full extent permitted by federal law.~~ *The bill would declare that this provision is a state law within the meaning of a federal statute requiring that a state may only provide an alien who is not lawfully present in the United States with eligibility for a state or local public benefit through the enactment of a state law affirmatively providing for that eligibility.*

(3) Existing law establishes the California Community Colleges under the administration of the Board of Governors of the California Community Colleges. Existing law authorizes the establishment of community college districts under the administration of community college governing boards, and authorizes these districts to provide instruction, for prescribed fees, at community college campuses throughout the state. Existing law authorizes the waiver of these fees

for, among others, students who are eligible under income standards established by the board of governors.

This bill would require community college districts to waive the fees of persons who are exempt from nonresident tuition under the provision described in (1) above, and who otherwise qualify for a waiver under this provision, under regulations and procedures adopted by the board of governors. Because the bill would impose new duties on community college districts with respect to determining eligibility for fee waivers, the bill would constitute a state-mandated local program.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: yes.
