Central Plant Optimization and Demand Side Management Strategies

Thursday, March 23, 2006
8:30 a.m. – 3:30 p.m.
CSU San Bernardino

This session is intended for executive deans, plant directors and energy coordinators, and facility plant staff.

This course is designed to bring together capital planning, design, and construction project managers with facility operation personnel to promote integrated facility and system design. Case studies will be presented showing how plant optimization can reduce HVAC capacity requirements for new facilities or major renovations.

Register online at: www.calstate.edu/CPDC/Trg2006.shtml

The registration deadline is Friday, March 10, 2006. The fee for this program is $85. If you are unable to attend, there will be a $15 cancellation fee. There will be no refunds after March 16.

Payment must be made before the event; no payment will be taken the day of training. If paying by check, please make checks payable to the CSU Facilities Management Institute and mail to:

The CSU Facilities Management Institute (FMI) is the CSU’s administrative framework for its planning, design and construction training program. The Office of Capital Planning, Design and Construction manages the program. The CSU FMI is only available to CSU personnel and related auxiliary staff as its training programs deal with business practices that are pertinent to the CSU.
