Re: Final Peer Review, Utility Extension, and Sewer Realignment Projects, Creative Arts Center, Phase 1A, San Francisco State University

Dear Mr. McCormick:

Telesis Engineers has completed its assessment of the plans for the Phase 1A Utility Extension and Sewer Realignment Projects. We have reviewed the final design drawings for the project and find that there are not open, unresolved questions from the peer review comments in my memorandum of Wednesday, June 16, 2010.

The project meets the CSU Seismic Policy requirements and is deemed appropriate for construction. The plans have been stamped as approved.

Sincerely yours,

Charles C. Thiel Jr., Ph.D.
