Subject: "Trade Rate Letters" – DELEGATION OF AUTHORITY

Chapter III, Section 8 (b) of the Standing Orders of the Board of Trustees, authorizes the Chancellor to determine trade rate salary ranges for "casual employment" classifications. Casual employment classifications are identified in the Excluded (E99) section of the CSU Salary Schedule and reflect job categories most comparable to Skilled Crafts (Unit 6) bargaining unit classifications. In accordance with the Standing Orders, "in establishing a trade rate salary range, the Chancellor shall confer with and take into account the findings of state, county, municipal and other official public bodies engaged in determining the prevailing rate in connection with the awarding of contracts for public works, and shall consider such other sources of pertinent information as may be available."

The Chancellor's Office has prepared and distributed "trade rate letters" to requesting campuses hiring casual employment workers, authorizing wage and benefit rates payable for a given casual employment classification over a specified timeframe. Wage and benefit payment determinations are made in accordance with general prevailing wage rates established by the Department of Industrial Relations, Division of Labor Statistics and Research. Typically, these determinations vary by county, and campuses hiring casual employment workers must abide by the general prevailing rates established for their respective county. **Campuses are now being delegated authority to authorize these wage and benefit rates within the guidelines established by the Chancellor's Office.**

When trade rate Standing Orders were established¹, collective bargaining did not exist within the CSU system. The intent of the Standing Orders was to provide campuses flexibility to hire temporary workers to perform work on construction or maintenance projects that could not be accomplished by the “regular college staff” due to existing workloads. It was recognized that use of casual employees was appropriate during periods when campus resources for a specific trade or craft were not readily available.

Today campuses must use discretion to ensure collective bargaining agreements are not compromised when using workers hired under “casual employment” authority. Casual employment use is to be authorized only after it has been determined there are no comparable skills in the campus’ existing pool of resources available and qualified to perform the required work. **Campus presidents and/or their designees must determine the authority responsible for administering this activity at their respective campus.**

The following attachments will provide campuses information needed to prepare trade rate letters for use at their respective campuses.

TRADE RATE GUIDELINES and PAYROLL PROCESSING INSTRUCTIONS

Appointment Processing:

1. Trade Rate workers are appointed via "A52" appointment transaction for the duration of each assignment. A separate personnel/payroll transaction (PPT) is required for each appointment and separation. The following data elements must be keyed as indicated below for all trade rate appointments:
 - Salary Per (Item 310) = "H".
 - Anniversary date (Item 330) = "NONE".
 - Probationary Period Code (Item 430) = "N" (none).
 - Timebase (Item 405) = "INT" (intermittent).
 - Retirement System Account Code (Item 505) = "NM" (nonmembers covered by medicare tax).
2. Trade rate workers may have up to four concurrent salary rates. To indicate multiple salary rates, a positive entry is required in Multiple Hourly Rate (Item 955/A,B,C,D), PPT Line G item. An entry is required in all four items, even if entry is 00.00.
3. To change from one to four multiple hourly rates, process a "MHR" transaction and enter all rates that are still valid.
4. Payment is by positive attendance via PIP transaction. Payments are semi-monthly (see Payroll Procedures Manual [PPM] Section B009, Salary Type 6 is Hourly Rate-Trade Rate).
5. Overtime is processed as Overtime Pay – Special Earnings ID "OTR". Refer to PPM Section G028 (cont. 1) for instructions.
6. Upon separation, process a S31 transaction. Refer to Item 955 for workers with multiple hourly rates. If a worker has more than one rate of pay indicated in Time to Be Paid Item 606, it is no longer necessary to enter "NON" for inactive salary rates upon separation (the system will no longer allow an alpha entry with "NON").

If an employee has only one rate of pay, enter time worked for the pay period (if a worker separates at the end of the month, only show the time worked for the 2nd half). Enter alpha code in the Days column and the time in the Hours column. If no time was worked, enter "NON" in the hours column only – do not enter an alpha code.

HR 2000-18 ATTACHMENT A

If a worker was paid at more than one rate, enter the alpha code and hours for each rate in Item 606. If the employee has four rates of pay but was only paid at two rates, enter the alpha codes and corresponding hours for the active salary rates.

Benefit and Trust Fund Payments:

1. Trade rate hires typically require the employer to make benefit contributions to a respective trust fund. Benefit contributions generally include funds for health and welfare, pension, vacation, holiday, dues and training, or as specified in the trade rate letter. Campuses are responsible for ensuring that private trust fund remittances are made appropriately in behalf of the respective fund.
2. Benefit trust funds paid to private trusts are paid by invoice through the accounting process. Campuses must ensure that benefit payments are made appropriately and timely. Participating campuses may be subject to review/audit by private trusts.
3. In the event that any benefits provided are unable to be paid to a trust fund, or in the event the employee is not a member of the governing union, the amount shall be paid directly to the employee as indicated after income tax has been withheld by the SCO.
4. Refer to PPM Section H610 for Benefit Trust Fund processing instructions.

General Information:

1. Trade rate employees are ineligible to earn vacation, sick leave and holiday benefits. Additionally, trade rate appointees are not qualified for participation in PERS, UCDC, or DPA-PST retirement programs currently available as a result of CSU employment.
2. Trade Rate appointees are entitled to other conditions of employment as specified in the general prevailing wage rate determinations and the (Local) contract, and typically may include provisions such as holiday pay and travel and subsistence pay. Campuses should be fully knowledgeable of the conditions of employment for a respective trade rate classification.
3. Campuses should not sign agreements with any Union Hall for casual worker utilization and should pay only in accordance with the wages, benefits and other conditions of employment authorized by general prevailing wage determinations for their respective county.
4. Local union halls are typically listed in your geographic area "yellow page" telephone directory under "Labor Organizations."
