

## Appendix A

### Middle School Mathematics Service-Learning Collaborative Starting Points

1. List and elaborate upon three or four adjectives or phrases that describe how you feel about your up-coming experience in a Middle School Math class.

2. What do you think will be the most difficult challenge you will face?

3. What do you think will be the easiest part?

4. What do you expect to learn from this experience?

5. What are your career goals, at the moment?
