

Schedule of Events, Friday, Feb. 2, 2007 8a-1p

8-9a: Trustee and staff visitors will meet with President Koester, VP Hellenbrand, VP Piper, Faculty President Matos, and selected faculty, administrators and students for an overview of the day and a briefing on some of the issues. While this meeting is going on, all other campus community participants will be gathering for coffee and to determine which of the domain conversation breakout sessions they want to attend.

9:15-11:15: breakout sessions centered around domains (between 4 and 6 groups).

11:30-1p: reconvene in main room for breakout session reports and general conversation about the direction of the document from CSUN's perspective.

All of the day's activities are scheduled in the Oviatt Library, either in the garden level presentation room or in other conference rooms in the building.

Themes and Subsets: We have identified nearly a dozen themes that are meaningful to CSUN and are likely to be incorporated in the conversations. We will be addressing all of the identified domains in the breakout sessions. For each domain we have begun to examine/list what we do currently, where we are thinking of going in the future and what we think needs to come from the CSU system.
