MEMORANDUM

Coded: AA-2008-29

Date: August 13, 2008

To: CSU Directors of Financial Aid

From: Allison G. Jones 
Assistant Vice Chancellor

Subject: Final 2007-08 Financial Aid Database Report

Campuses are requested to submit their final financial aid database report by September 19, 2008. As in prior years, this report will be used to determine State University Grant (SUG) campus allocations. The financial aid database report is also used for other reporting requirements such as the Institution Prices and Student Financial Aid (IPSFA) survey from the National Center for Education Statistics (NCES) of the U.S. Department of Education and for responding to requests from the Governor and the legislature.

Technical information on submission of the final 2007-08 financial aid database is included in Attachments A, and B. The record layout has been modified from prior years in order to accommodate the reporting of the Education Doctorate Grant as well as the Cal Grant Fee amount. While, unnecessary fields have been flagged for later removal, the database file should include the full range of data as identified in Attachment B.

Please compile and transfer by September 19, 2008 the database file to your campus financial aid account on the Chancellor's Office server, coweusftp101.calstate.edu. Questions regarding this report may be directed to Simon Jaud, Assistant Director of Student Financial Aid, Academic Affairs, Student Academic Support. Dr. Jaud may be reached at (562) 951-4730 or sjaud@calstate.edu.

Procedures for 2007-08 Final Financial Aid Database Report

Record Layout

For 2007-08, the record layout (see Attachment B) has been expanded to accommodate the reporting of the Education Doctorate Grant as well as the Cal Grant Fee amount. Moreover, unnecessary fields have been flagged for removal once Banner/SIS+ campuses are done transitioning to CMS in the coming years. Information about data elements can be found in the 2007-08 FADB dictionary sent to campuses earlier this year and available upon request.

Data elements that are particularly critical for SUG allocation purposes are the "Financial Aid Status Code," the "9-Month EFC," the "Cal Grant Code," and the "Cal Grant Amount." Campuses must be careful to report the *actual* amounts that a student received under each aid program rather than the estimated or scheduled awards. In reporting amounts for Stafford Subsidized and Unsubsidized Loans and PLUS amounts, campuses are to report the full amount borrowed including fees.

For students who were not enrolled/did not receive aid for the full academic year, campuses should report the actual or pro-rated student budget, parent contribution and student contribution that correspond to the actual award period. Similarly, campuses should *not* report 11- or 12-month budgets and contributions unless the student was actually enrolled and received aid for the summer as well as the academic year.

Campuses unable to modify their programs for the new reporting record format may submit a supplemental file containing the additional data elements. Such file should include student social security numbers and the corresponding data element amounts *in the exact order in which they appear in the record layout*. Campuses intending to pursue this option should e-mail Simon Jaud at sjaud@calstate.edu to establish what will be provided in the supplemental file.

File Structure, name and location

The record layout has two components, FAREC1 and FAREC2, and campuses must report both these record types on separate lines for each student. Moreover, student records must be sorted by social security number and then record type (i.e., student A FAREC1, student A FAREC2, student B FAREC1, student B FAREC2, etc.).

Campuses must transfer their report in their respective account on [coweusftp101.calstate.edu](ftp://coweusftp101.calstate.edu) by September 19, 2008. The data file must be named `fad.prod.trn08fcc` (see table below), where *cc* represents the campus code, *all in lower case*. Once the file has been transferred, campuses should notify Simon Jaud through e-mail.

Campuses are responsible for maintaining secure passwords for their accounts. Passwords on [coweusftp101.calstate.edu](ftp://coweusftp101.calstate.edu) accounts expire after 70 days, so the authorized user on each campus must schedule updates of the password. Please ensure that your password is current prior to attempting to transfer files.

2007-08 FINANCIAL AID FILE - USER ID AND FILE NAME

| Campus | Code | User ID | Data File Name |

Identification of Records Subject to State Need Analysis Modifications

AA-2005-02 advised campus financial aid administrators regarding implementation of the California Domestic Partner Rights and Responsibilities Act of 2003 ("the Act") and provisions related to determining eligibility for state and institutional student financial aid programs. For purposes of the financial aid database report, campuses are to report data element values used in determining eligibility according to the federal methodology. In order to ensure that the records of students with adjustments are not rejected during the edit process, financial aid administrators will need to identify records that are subject to the adjustments based on the provisions of the Act. Campuses are to provide an additional file (in Excel or Word) that includes the student identifier of financial aid recipients for whom adjustments have been made on the basis of the Act. This file should be transferred to the campus account on coweusftp101.calstate.edu with the name p2007.rdfcc.ext where cc represents the campus code and ext represents the appropriate extension to identify the type of file, e.g., xls or doc.
