

Code: AA-2010-31

MEMORANDUM

Date: January 4, 2011

To: Provosts/Vice Presidents, Academic Affairs

From: Ephraim P. Smith 
Executive Vice Chancellor and Chief Academic Officer

Subject: **REQUEST FOR TRUSTEES REPORTS: Academic Plans, Program Review, Bachelor's Units Required, Accreditation Updates, Total Program Counts**

This memorandum serves as the formal annual call for academic planning and program review reports that will inform the March 22-23, 2011 Board of Trustees agenda item on Academic Planning and Program Review. On December 21, 2010 an informal version of this request was distributed by the Office of Academic Programs and Policy to associate provosts and associate vice presidents of Academic Affairs.

We are asking that **by February 1, 2011**, campuses send to Academic Program Planning (APP@calstate.edu) *electronic Microsoft Word versions (not pdf documents)* of reports on the following items:

- I. Proposed updates to campus Academic Plans (specifying any online programs)
- II. Summary of assessments of student learning and improvement actions taken
- III. Summary of total units required for baccalaureate degrees
- IV. Summary of WASC comprehensive or educational effectiveness visits (results and recommendations)
- V. List of accredited units or programs
- VI. Total number of degree programs offered

Instructions for preparing this year's updates are provided in this memorandum.

I. Proposed Updates to Campus Academic Plans

How are this year's plans to be organized and submitted?

By **February 1, 2011**, please send updates of your campus academic plans, covering the years 2011-2012 through 2015-2016, to Dr. Christine Mallon at APP@calstate.edu. Campuses that anticipate significant building or facilities renovation in the coming decade may submit a plan extending up to 2020-2021, as may any campus needing to plan beyond spring 2016. Questions may be addressed to Chris Mallon at (562) 951-4672 or cmallon@calstate.edu.

1. **Updated Academic Plan Table:** An electronic version of the 2010-2011 campus academic plan will be sent electronically to each campus Office of Academic Affairs. Please indicate proposed updates (and any corrections) by using the **“Track Tools”** feature in Microsoft Word, and return it to APP@calstate.edu with the rest of the campus report. *Please identify each online program projection. Projected implementation dates should not be changed, even if the programs will not be implemented by the year first projected. Projections are only modified after they have been on the academic plan for five years.*
2. **Summaries:** Please provide a very brief overview, explaining the proposed changes to the campus academic plan.

Which types of program updates and summaries are to be included?

Projected New Programs

This annual update will include projections to implement new baccalaureate programs and graduate programs. *Please identify each online program projection.* Subprograms: minors, options, concentrations, and special emphases are not reported. Projected programs—those for which the campus seeks authorization to develop an implementation proposal—must meet Trustee and system policy and California Education Code. More information on *“Trustee and System Academic Planning Policies”* is provided as Attachment B to this memo.

A. Projected Bachelor's Degree Programs

Please note that projected bachelor's degrees should be general, characterized by breadth, and as enduring as possible in content and title. Graduate programs are more appropriately specialized. (Also see http://www.calstate.edu/APP/documents/Breadth_EPR85_13.pdf).

B. Projected Graduate Degree Programs

Master's degree programs should be projected only when the sponsoring department is well established and has achieved a level of quality that has been affirmed by a program review or in subjects for which national accreditation, including review by a visiting team, is available.

Further requirements of new graduate programs include that:

1. they include at least 5 full-time faculty with the appropriate terminal degree,
2. the programs have enrollment sufficient to support offering at least four graduate-level courses each year,
3. evidence is provided that the department can support the level of research required of a graduate program, and
4. 70% of the student's program will include graduate-level coursework.

(Also see http://www.calstate.edu/APP/documents/Graduate_Level_EPR_82_39.pdf and http://www.calstate.edu/APP/documents/AAP_91_04_Recommendations_Graduate_Education.pdf.)

When reporting new degree program projections on the academic plan

In addition to the table update, please include a *very* brief summary for each proposed new projection on the academic plan. Summaries should include the following elements, which are the criteria by which proposed changes to the Academic Master Plan are evaluated:

1. Is this an online program?
2. A brief summary of the purpose and characteristics of the proposed degree program. (New bachelor's degrees should be as enduring as possible in content and title. Breadth is the hallmark of bachelor's degrees, and more narrow specialization occurs at the graduate level.)
3. How the program fits into the campus mission and strategic plan
4. Whether the program is offered through state support or special sessions
5. Anticipated student demand
6. Workforce demands and employment opportunities for graduates
7. Other relevant societal needs
8. An assessment of the required resources and a campus commitment to allocating those resources
9. And, as applicable:
 - a. If the projection is a pilot program, also list the academic years during which the program will operate in pilot status.
 - b. If the projected program is now offered as an option, concentration, or emphasis, provide a brief rationale for elevation to a full degree program.
 - c. For new degree programs that are not already offered in the CSU, please provide a compelling rationale explaining how the proposed subject area constitutes a coherent, integrated degree program that has potential value to students and meets CSU requirements for an academic program at the undergraduate or graduate level.

C. Delayed Projected Programs

In July 1997 a revision of program review processes specified that delayed implementation proposals would be automatically removed from the master plan if they were not submitted within five years of the originally projected implementation date. Campuses wishing to retain a delayed projection on the master plan may request that the program remain on the

campus list of programs. “Foundational” liberal arts and science undergraduate programs (listed later in this memo) are exempt from this timeline and may remain on the plan indefinitely.

D. Modified Programs

Programs that change title or degree designation, and elevations to full degree programs from options, concentrations, or emphases should be reported in this update. Also include programs that plan to change support mode: from state support to self support or from self support to state support. (See http://www.calstate.edu/app/program_modification.shtml)

E. Fast-Track Programs

The fast-track process combines the program projection and implementation-proposal review phases (rather than allowing at least a one-year lag time between projection approval and submission of the implementation proposal). Fast-track consideration is available for a program that meets all of the following criteria:

1. It can be offered at a high level of quality by the campus within the existing resource base, or there is a demonstrated capacity to fund the program on a self-support basis.
2. The program is not subject to specialized accreditation by an agency that is a member of the Association of Specialized and Professional Accreditors, or it is currently offered as an option or concentration that is already recognized and accredited by an appropriate specialized accrediting agency.
3. The program can be adequately housed without a major capital outlay project.
4. It is consistent with all existing state and federal law and Trustee policy.
5. The program is a bachelor’s or master’s degree program.
6. It has been subject to a thorough campus review and approval process.

(See <http://www.calstate.edu/app/documents/fasttrackprocedures.pdf>)

F. Pilot Programs and Pilot Conversions

Campuses may offer a limited number of new programs on a pilot basis for five years without a full review from the Chancellor’s Office prior to implementation, if the program meets the Fast-Track criteria above and if notification procedures are followed. (See <http://www.calstate.edu/app/documents/pilotprocedures.pdf>) Proposals to change pilot programs to regular status should also be reported.

(See http://www.calstate.edu/app/documents/program_modification/pilot_conversion.pdf)

G. Discontinued full degree programs

1. Please indicate whether enrollment has been suspended or if the program has been permanently discontinued. (See http://www.calstate.edu/app/documents/program_modification/Program_Discontinuation.pdf)

2. If a discontinuation is reported to us for the first time, please confirm that all campus and system-level policies regarding discontinuation have been followed.

II. Summary of assessments of student learning and improvement actions taken

Trustee policy requires each campus to review every academic program on a regular basis. For each academic program for which a review was completed in 2008-2009, please provide **by February 1, 2011** a brief summary (no more than two or three pages per campus), reporting:

1. Results of the assessment of student learning outcomes, the significance of the results, and the implications of the results for modification of program requirements, standards, or operations.
2. Changes in program requirements enacted or recommended as the result of assessment findings.

If your campus has undertaken an extraordinary program review activity and wishes it to be mentioned in the agenda item on academic planning and program review, please inform Dr. Christine Mallon (cmallon@calstate.edu) **by February 1, 2011**.

III. Summary of total units required for baccalaureate degrees

In July 2000, the Board amended Title 5 of the *California Code of Regulations* to establish 120 semester units as the minimum that a campus may require for the awarding of a baccalaureate degree. The Title 5 change also obliges campuses to maintain a monitoring system to ensure that justification is provided for all program requirements that extend the baccalaureate unit requirement beyond 120 units. The agenda item noted, "It is understood that baccalaureate unit requirements are to be reviewed on campuses by the faculty in the course of regularly scheduled program reviews."

Trustees have asked that a progress report be incorporated in the annual agenda item on academic planning and program review. We ask that each campus count and report for all of its degree programs **by February 1, 2011**, the number of degree programs that fall into each of the following three categories:

1. **Programs at 120/180 units:** Degree programs now requiring 120 semester units (180 quarter units) for the baccalaureate degree.
2. **Programs that reduced units but not to 120/180:** Degree programs (degree, title, number of units previously required, and number of units currently required) for which the total units required for a baccalaureate degree were reviewed and reduced, but not to 120 semester units (180 quarter units). Please include a brief reason for the programs not being reduced completely to 120 units required. For example, list "professional certification requirements" or use one of the provided footnotes.

3. **Programs that did not reduce units:** Degree programs (degree, title, number of units previously required, and number of units currently required) for which the total units required for a baccalaureate degree exceed 120 semester units (180 quarter units) and have not been reduced. Please include a brief explanation of the reason(s) for not reducing units. For example, list “professional certification requirements” or use one of the provided footnotes.

For your convenience, a “120 Units” reporting template is provided as Attachment A. Please submit completed forms to APP@calstate.edu by **February 1, 2011**.

IV. *Summary of WASC comprehensive or educational effectiveness visits (results and recommendations)*

In fulfillment of Trustee policy, if since the last report to the trustees a WASC team visited the campus for a comprehensive or educational effectiveness review, e-mail to APP@calstate.edu by **February 1, 2011**, a brief summary of the major results and recommendations emerging from the visit. The summary should be approved by the President.

If the campus has not already done so, please send a copy of the self-study, the complete report of the visiting team, and the letter from WASC affirming or reaffirming accreditation.

V. *List of accredited units and programs. Please also list the date that accreditation was first granted, as well as period of current accreditation.*

VI. *Total Number of degree programs offered, by level: baccalaureate, master’s and doctoral degrees.*

If there are questions about the reports requested, please contact Dr. Christine Mallon, State University Dean, Academic Program Planning at (562) 951-4672 or cmallon@calstate.edu. A list of relevant CSU Academic Planning policies and procedures is provided in Attachment B. Thank you, in advance, for your assistance in providing updated material for these three areas in the March 2011 agenda item.

Attachment B
Trustee and System Academic Planning Policies

The following Trustee Guidelines regarding program development have guided CSU planning since the 1960s. In addition, program development in some areas (e.g. engineering), is limited or guided by Title 5, system-level policy, or persuasive CPEC assessments of state need.

Subject: from *State University Administrative Manual* - Section VII

9100.1

1. Approved Academic Master Plan

The Board of Trustees (BOT) has adopted planning policies designed to promote orderly curricular development, guide the distribution of programs in the system and facilitate the progress of each campus in fulfilling the mission of the CSU as expressed in the statewide master plan for higher education. These policies, first published in the *1963 Master Plan for the California State Colleges*, are still in effect and are summarized below:

- Curricula are to reflect the needs of students and of the state.
- The foundation program for each campus in the system consists of the liberal arts and sciences, business administration, and education. (The board specified subject areas that were to be regarded as the "Broad Foundation Program.")
- Programs in applied fields and professions other than those listed above are to be allocated within the system on the basis of (1) needs of the state, (2) needs of the campus service area and (3) identification of employment opportunities.
- "All campuses cannot be all things to all people." Curricula in the applied fields and professions are therefore to be located in a systemwide pattern that will achieve an equitable and educationally sound distribution of programs throughout the state.
- Although many campuses may wish to offer the same programs, the trustees exercise great selectivity in final approval of new curricula.
- Specialized, high-cost programs are to be allocated on the basis of review and study of the individual subject area. Approved Campus Physical Master Plans
Subsequent policies adopted by the board include the following:
 - Degree programs are to be broadly based and of high academic quality.
 - Unnecessary proliferation of degrees and terminologies is to be avoided.
 - A formal review of existing curricula is to be conducted by each campus as part of the overall planning process.
 - The Academic Master Plans serve as the basis for campus master planning of facilities.
 - The ability to accommodate the latest instructional technology will be included in the planning for construction of all new and renovated instructional buildings.
