To: IR Directors & APDB Coordinators

Date: July 6, 2011

From: Philip Garcia

Cheryl Kwiatkowski 
Director, Reporting and Analytics

Subject: 2011-12 Enrollment Reporting Schedule

This memorandum provides you with detailed information on the 2011-2012 Enrollment Reporting Schedule for applications, student and course enrollments, degrees, and credential recommendations. We depend on timely and accurate data transmissions to meet our state and federal reporting requirements. In addition, systemwide emphasis on enrollment planning and managing enrollments to 2011-2012 FTES targets will require that campuses continue to provide the Chancellor's Office with ERSA preliminary files on a monthly basis.

Philip Garcia, Senior Director of Analytic Studies, 562-951-4764 (pgarcia@calstate.edu), has overall responsibility for the collection and processing of ERS data. Enrollment Reporting Procedures

Order of ERS processing to the web-based system

- ERSS files should be in “Campus Completed” status in order to run the edits on ERSO files and cross reference the information between ERSS and ERSO files.
- Primary Degree file and Multi-Major file should be uploaded at the same time to run the edits on Multi-Major file. Sequence of uploading the Primary Degree and Multi-major file does not matter. Notify CO only when both Primary Degree and Multiple-Major file are catastrophic error free.

Now that all ERS and APDB files are transmitted via web-based system, the practice of transmitting Certification Forms has been dropped.

Preliminary Term Reports

Budget uncertainties regarding CY 2011-2012 and thereafter necessitates that the Chancellor's Office continue the practice of more frequent ERS and APDB file transmissions.

Preliminary ERSS term files now have been added to the enrollment reporting schedule (see attachment). Preliminary ERSS data files, due one week after the institutional census date, will enable the Chancellor's Office to respond to internal and external requests for better information about developing enrollments.

We are again asking for preliminary APDB term files and preliminary previous-term ERSD files. The ERSA, preliminary ERSS, and preliminary previous-term ERSD files enable the CSU to provide indicators on new student enrollment yield from admissions compared with previous years, changes in degree completion compared with last like terms, the extent to which students who haven't completed programs are being retained, trends in unit load for various categories of students, and trends with the "senior bulge."

The following provides summary detail about all the preliminary term files.

- Preliminary term ERSS files for summer 2011, fall 2011, winter 2012, and spring 2012 (see attachment). These files should document the "census" opening day enrollment.
- Preliminary term APDB files for fall 2011 and spring 2012 (see attachment). Institutions should be prepared to transmit these files to document "census" opening day enrollment, at least, in regular course sections and instructional FTEF.
- Preliminary term ERSD files for summer 2011, fall 2011 and winter 2012 (see attachment). Here summer files will be sent one week after fall census date -- beginning the 3rd week in September (semester campuses) or the 2nd or 3rd week in October (quarter campuses); fall files for quarter campuses will be sent beginning late January to early February 2012; fall files for semester campuses will be sent beginning the last week in February to the first week in March 2012; winter files for quarter campuses will be sent in the last week in April 2012.

Monthly ERSA Reports

Budget uncertainties regarding CY 2011-2012 and thereafter after necessitates that the Chancellor's Office continue the practice of more frequent ERSA file transmissions. In-progress monthly ERSA files for fall 2011, winter 2012, spring 2012 and fall 2012 will be requested, again. Every month, each campus will transmit an ERSA file to the Chancellor's Office for fall 2011 through fall 2012 applicants. For CMS campuses, these monthly files can be extracted from a campus non-production environment. The extract represents a current copy of production. This will allow Campus IDs to be generated for submission purposes without unnecessarily creating Campus IDs for applicants in production environments. The Campus IDs reported from the non-production environments will not be used in any comparison against final ERSA files. The files should represent all applicant records on hand at the time of the submission. The files, of course, can contain unedited values. On the first working day of every month, Analytic Studies will capture a copy of each file and create a system-wide file. **These monthly campus submissions begin in August 2011; the last submission date is in June 2012 (see table B).**
