

## **CAMPUS EFFORTS TO INCREASE CAPACITY**

While enrollment pressures continue, concerns from the public and the legislature regarding campus impactation also continue to be raised. To assist the Chancellor's Office and campuses to respond to these concerns, it would be helpful to understand the work being done at the individual campuses to increase capacity. As part of your impactation request, please provide a comprehensive narrative regarding your campus efforts to manage enrollments. The narrative may include information on the following:

### **Course Demand/Bottleneck Analysis**

- Reduction in high-unit majors
- Course planning software
- Course demand analysis and class schedule optimization

### **Distance Learning and Technology**

- Technology solutions such as hybrid courses, virtual labs, etc.
- Expansion of distance learning and CSU Fully Online
- Efforts to increase student enrollment in CSU Fully Online

### **Flexible Scheduling**

- Improvements in space allocation of large and small classrooms based on actual enrollments
- Classroom transformation – development of larger learning spaces
- Year-round operations, state and/or self-support
- Off-site Centers

### **Advising Initiatives (including e-Advising) to support timely graduation**

- Early Start efforts to reduce remediation
- Implementation of degree audits and planning tools
- Four year and two year road map implementation and student use.
- Super Senior interventions
- Early alert systems
- Course transformation to improve success in high fail courses
- Other advising enhancements as appropriate

### **Miscellaneous Best Practices**

- Reduction/elimination of exceptional admits
- Other areas relevant to your campus
