NetCentric Services. Best practices driven evaluation and remediation services to your organization's budget and timelines.

Best practices driven evaluation and remediation services performed by accessibility experts

NetCentric's professional services are designed to provide extraordinary value in the areas of accessibility consulting and evaluation, web accessibility design, PDF accessibility and training.

Using our market leading CommonLook tools for PDF and HTML, NetCentric accessibility experts provide the industry's most comprehensive, best practices driven evaluation and remediation services currently available. Our team is focused on ensuring organizations have the vision, skills and tools to meet the accessibility objectives on an ongoing basis.

NetCentric offers comprehensive testing for a number of standards including federal Government section 508, W3C WCAG and others. NetCentric's accessibility experts quickly and accurately pinpoint areas of non-compliance in HTML and PDF content to address challenging accessibility issues such as tables, forms, images, tagging or multi-column text.

The managed compliance service enables organizations to subcontract the verification and remediation of HTML and PDF holdings for one flat fee. NetCentric's accessibility experts do the legwork while detailed web-based reports provide IT and management with intelligence on the organization's compliance status. Managed compliance services ensure organizations meet accessibility objectives while taking the guesswork out of budgeting for accessibility.
