

**AB 1295**  
**CCC-CCSU Nursing Degree Pathways**  
**Challenges and Proposed Solutions**

<u>Challenges</u>	<u>Possible Solutions</u>	<u>Responsibility</u>	<u>Started</u>	<u>Completed</u>
<b>1 Funding</b>	-Grant seeking	CCC and CSU		
<b>2a Territoriality and competition</b>	-AB 1295 establishes where content is taught, no duplication	CCC and CSU	√	
<b>2b Levels and rigor</b>	-AB 1295 establishes where content is taught, no duplication	CCC and CSU	√	
<b>3 Different student populations &amp; needs (recent vs. past ADN grads)</b>	-Focus initially on current ADN-BSN transfer	CSU-CCC	√	
<b>4 Lack of clarity on policies facilitating or limiting this project</b>	-Identify salient policies	CSU	√	
<b>5 Advising @ CC to prepare for BSN completion</b>	-Create academic "Roadmaps" -Advise students to take GE and American Institutions that will double count -Advise students to take nursing and GE requirements that will double count	CCC		
<b>6a CSU curricular concerns</b>				
-120 units for BSN (Required: 36 in major, 18 units within major must be upper-division courses, per Title 5 40501)	-CSU EO 1036 Awarding credit for prior learning	CSU	√	
- nursing content	-Provide lists of common test-out/waiver options	CSU	√	
-upper-division GE	-Title 5 40404 Allows comprehensive exams for American Institutions requirements	CSU	√	
-upper-division nursing after transfer	-Title 5 40408 Allows credit by exam	CSU	√	
-any remaining lower-division GE requirements	-Establish CSU competency standards to evaluate ADN grads (allow passing NCLEX to waive courses or award credits)	CSU		
-any campus-specific non-GE graduation requirements				
<b>6b</b> -Only integrated chemistry accepted as prerequisite	-Accept "chemistry course required in any college nursing program" as satisfying CSU integrated chemistry nursing prerequisite	CSUs and CO		
<b>6c</b> -Senior preceptorship	-"Bridge" or "transition" course, 3-8 units	CSU		
<b>7a CCC curricular concerns</b>				
<b>7b</b> -ADN requirements > 70 credit limit for transfer to CSU	-CSUs apply EO 1036-Baccalaureate Credit Awarded for External Examinations, Experiential Learning, and Instruction in Non-	CSUs	√	

**AB 1295**  
**CCC-CCSU Nursing Degree Pathways**  
**Challenges and Proposed Solutions**

	Collegiate Settings -CCC audit requirements to limit only to BRN licensure requirements & CC GE requirements	CCCs and CO
<b>7c</b>	-Is nursing content taught beyond what is required for licensure? -Inventory CCC programs for content over BRN requirements for licensure	CCCs and CO
<b>7d</b>	-Different GE requirements for each community college ADN program (While each CSU has its own GE requirements, the CSU has one uniform set of GE requirements for CCC transfer students.) -For ADN students, establish one uniform pattern of GE requirements that will fulfill lower-division CSU GE-Breadth requirements.	CCC CO
