

## About ePortfolios:

The ePortfolio Teaching Commons provides support and resources to the CSU ePortfolio project which is a community of members including faculty, staff, and administrators who share a common interest in enhancing the quality of teaching and learning through the use of ePortfolios.

An ePortfolio also known as an electronic portfolio or digital portfolio is a cohesive, powerful and well-designed collection of electronic documents that demonstrate skills, education, professional development and their benefits to a selected audience. powerful applications and tools that support faculty and students in their teaching and learning processes.

## Resources for the Effective Implementation of ePortfolios

The Teaching Commons: ePortfolio provides a number of resources to guide the effective implementation of any ePortfolio tool. Categories of support include:

Getting Started – provides authoritative advice on how best to begin your exploration of ePortfolios.  
Investigation – enables you to readily define your requirements while considering your end-user needs.

Implementation – Guides your planning process to ensure a successful implementation.

Accreditation – provides insight into the various ways ePortfolios have helped the accreditation process where appropriate.

The Teaching Commons ePortfolio is directly linked to the MERLOT ePortfolio collection which provides faculty, staff, and administrators free online resources to support effective use of ePortfolios.

### Benefits of Teaching Commons ePortfolio:
