

About World Images:

World Images, a website with free images for educational use in teaching and research also provides training, cataloguing, distributing and using digital images. The internationally recognized WorldImages database provides access to the California State University IMAGE Project. It contains over 65,000 images, is global in coverage and includes all areas of visual imagery.

About World Images Accessibility:

WorldImages is accessible anywhere and, as its images are copyright cleared, may be freely used for non-profit educational purposes. The

images can be located using many search techniques, and for your convenience, they are organized into over 650 portfolios which are then organized into subject groupings.

Free Digital Images for Teachers

Like text, images are primary sources that help us understand the past and the global present, but they must be made easily accessible. WorldImages provides free digital images for use in providing a global education to students in the Humanities, Arts and Social Sciences, as well as providing resources to prospective teachers.

Benefits of World Images:

- Provides access to shared, free, copyright-controlled digital images used in teaching art history and related disciplines in the humanities and social sciences
- Locate and download appropriate images and information to enable faculty to share resources
- Access available to K-12 as well as to post-secondary institutions and can be used for multicultural teaching and research by faculty and students
