Certify the Final Environmental Impact Report and Approve the Campus Master Plan Revision with Enrollment Ceiling Increase at California State University, Bakersfield (RCPBG 09-07-19)

Trustee Linscheid moved the item; there was a second.

The Board of Trustees approved the following resolution:

**RESOLVED**, By the Board of Trustees of the California State University, that:

1. The Final EIR for the California State University, Bakersfield Campus Master Plan has been prepared to address the potential significant environmental impacts, mitigation measures, and project alternatives, comments and responses to comments associated with the proposed master plan revision, pursuant to the requirements of the California Environmental Quality Act, the CEQA Guidelines, and CSU CEQA procedures.

2. The Final EIR addresses the proposed increased enrollment and master plan revision, and all discretionary actions relating to the project, as identified in the Project Refinements, Section 2 of the Final EIR.

3. This resolution is adopted pursuant to the requirements of Section 21081 of the Public Resources Code and Section 15091 of Title 14 of the California Code of Regulations (CEQA Guidelines), which require that the Board of Trustees make findings prior to the approval of a project along with a statement of facts supporting each finding.
4. This board hereby adopts the Findings of Fact supporting the certification of the Final EIR, that are hereby incorporated by reference, and the related mitigation measures identified in the Mitigation Monitoring Program for Agenda Item 7 of the September 18-19, 2007 meeting of the Board of Trustees’ Committee on Campus Planning, Buildings and Grounds, which identifies specific impacts of the proposed project and related mitigation measures, which are hereby incorporated by reference.

5. The board has adopted the Findings of Fact that include specific overriding considerations that outweigh certain remaining unavoidable significant impacts to air quality and traffic. These impacts are mitigated to the extent feasible with the adopted mitigation measures, however even with the mitigation measures they remain significant and unavoidable.

6. Prior to the certification of the Final EIR, the Board of Trustees has reviewed and considered the above-mentioned Final EIR, and finds that the Final EIR reflects the independent judgment of the Board of Trustees. The board hereby certifies the Final EIR for the proposed Project as complete and adequate in that the Final EIR addresses all significant environmental impacts of the proposed Project and fully complies with the requirements of CEQA and the CEQA Guidelines. For the purpose of CEQA and the CEQA Guidelines, the administrative record of proceedings for the project is comprised of the following:

   A. The Draft EIR for the California State University, Bakersfield 2007 Master Plan Revision;
   B. The Final EIR, including comments received on the Draft EIR and Final EIR, and responses to comments;
   C. The proceedings before the Board of Trustees relating to the subject Project, including testimony and documentary evidence introduced at such proceedings; and
   D. All attachments, documents incorporated, and references made in the documents as specified in items (A) through (C) above.

7. It may be necessary, consistent with the State Supreme Court Decision in City of Marina v. CSU, for CSU to pursue future mitigation funding from the legislature to meet its CEQA fair-share mitigation obligations. The Chancellor is therefore directed to request from the governor and the legislature, through the annual state budget process, the funds necessary to support costs as determined by the trustees necessary to fulfill the mitigation requirements of the CEQA.

8. Because this Board cannot guarantee that the future request to the legislature for the necessary mitigation funding will be approved, or that the local
agencies will fund the measures that are their responsibility, this Board finds that the impacts whose funding is uncertain remain significant and unavoidable, and that they are necessarily outweighed by the Statement of Overriding Considerations adopted by this Board.

9. In the event these impacts are not funded, the chancellor is directed to proceed with implementation of the Campus Master Plan Revision and Enrollment Ceiling Increase for California State University, Bakersfield, 2007.

10. The above information is on file with The California State University, Office of the Chancellor, Capital Planning, Design and Construction, 401 Golden Shore, Long Beach, California 90802-4210 and at the offices of the Vice President for Business and Administrative Services, California State University, Bakersfield, 9001 Stockdale Highway, 38 ADM, Bakersfield, California, 93311-1022.

11. The board hereby certifies the Final EIR for the California State University, Bakersfield Master Plan Revision and enrollment ceiling increase dated September 2007 as complete and in compliance with CEQA.

12. The mitigation measures identified in the Mitigation Monitoring and Reporting Program are hereby adopted and shall be monitored and reported in accordance with the Mitigation Monitoring Program for Agenda Item 7 of the September 18-19, 2007 meeting of the Board of Trustees’ Committee on Campus Planning, Buildings and Grounds, which meets the requirements of CEQA (Public Resources Code, Section 21081.6).

13. The project will benefit the California State University.

14. The California State University, Bakersfield 2007 Master Plan Revision dated September 2007 is approved at a master plan enrollment ceiling of 18,000 FTE.

15. The chancellor or his designee is requested under the Delegation of Authority by the Board of Trustees to file the Notice of Determination for the project.
