March 27, 2000  
**B 00-03**

**To:** Chief Financial Officers  
**From:** John R. Richards  
Director of the Budget  
**Subject:** 2000/01 Governor's Budget Allocations

The following allocations are provided to assist campus planning for the 2000/01 fiscal year. These allocations are based on CSU appropriations included in the governor's January budget proposal. They also reflect permanent base budget adjustments that are required in the 2000/01 fiscal year.

The 2000/01 Governor's Budget allocations reflect the following changes in CSU funding:

**Base Budget Adjustments**

Retirement Reduction	\$ -104,155,000
State Budget Adjustments	10,427,000
Phase II Campus CMS Assessment ( <i>nets to zero</i> )	-5,000,000
1998/99 Teacher Preparation Enrollment ( <i>nets to \$3,156,000</i> )	12,456,000
1999/2000 EOP Grants Increase ( <i>nets to zero</i> )	3,400,000
CalStateTeach and CSU Expenditure Adjustments	871,000
<b>Total 2000/01 Base Budget Adjustments</b>	<b>\$ -89,701,000</b>

**2000/01 State Revenue Increases**

General Fund Increase for General Operations	\$ 119,076,000
General Fund Increase for Enrollment Growth	73,110,000
General Fund Increase for Long-Term Need	20,813,000
General Fund Increase for CSU Budget Requests	380,000
General Fund Increase for Governor's Teaching Initiatives	12,500,000
State University Fee Revenue Increase	17,837,000
<b>Total 2000/01 Revenue Increase</b>	<b>\$ 243,716,000</b>

If you have any questions regarding campus Governor's Budget allocations, please contact Budget Office staff at (562) 951-4560.

**2000/01 Base Budget Adjustments**

Systemwide Provisions		13,427,000	525,000	(9,300,000)		5,000,000	9,652,000
<b>Total</b>	<b>(\$104,155,000)</b>	<b>\$10,427,000</b>	<b>\$871,000</b>	<b>\$3,156,000</b>	<b>\$0</b>	<b>\$0</b>	<b>(\$89,701,000)</b>

## Retirement Reduction

In accordance with Department of Finance Budget Letter 99-31, CSU contributions to the employee retirement system were reduced by \$104,155,000. The savings from these reductions revert to the state and are not available for 2000/01 expenditures or budget increases. Campus budgets are permanently reduced on the basis of their prorata share of CSU's adjustment of actual retirement expenditures for 1998/99 to reflect the lower 1999/2000 retirement costs.

## Governor's Budget Adjustments and CSU Budget Adjustments

CSU base budget funding was increased by \$14.3 million for lease bond payments and dental annuitant benefits. Funding was also reduced by \$3.9 million to remove one-time appropriations included in the 1999/2000 Budget Act. CSU budget adjustments have been made to increase expenditures for 1999/2000 CalStateTeach enrollment (230 FTES) and systemwide revenue estimates. These adjustments do not affect campus budget allocations.

## 1998/99 Teacher Preparation Enrollment

Campuses will receive permanent funding for achieving and sustaining 1998/99 teacher preparation enrollment targets totaling 1,821 FTES. Campuses will receive General Fund increases equivalent to the one-time appropriations received in 1999/2000 (see B 99-03, Attachment D) and have been budgeted for projected fee related revenue totaling \$3,156,000. It is assumed campuses provided financial aid as needed in achieving teacher preparation enrollment targets, therefore no financial aid set-aside has been subtracted from the enrollment revenue projection.

## 1999/2000 EOP Grants Increase

Campuses will receive a permanent allocation of the one-time funding received in 1999/2000 to increase the amount of General Fund support available for Educational Opportunity Program grants. Campuses will receive General Fund increases equivalent to amounts provided in the memorandum from David Spence and Richard West to vice presidents dated 8/16/99. Funds provided for the EOP grant program cannot be used for other purposes.

## Phase II CMS Technology Assessment

This \$5 million assessment is the second phase of the \$10 million campus contribution to the CSU Integrated Technology Strategy and is assessed at the same amount included in campus 1999/2000 budget allocations (see B 99-03, Attachment B). These funds will be used to support the Collaborative Management System.

## Potential Additional Campus Assessments in 2000/01 Final Budget Allocations

Campuses are advised that there may be additional assessments included in the Final Budget allocation letter to cover costs for systemwide services. It is anticipated that these costs will range between \$1 and \$3 million systemwide.

## 2000/01 CSU Support Budget Increases

### Sources of Funds

CSU Operations and Enrollment Growth		
Higher Education Partnership Agreement		\$139,889,000
4% General Operating Increase	83,250,000	
1% General Operating Increase GB Augmentation	20,813,000	
1% Long-Term Budget Core Needs	20,813,000	
General Fund Fee Increase Buyout	15,013,000	
Enrollment Growth		90,947,000
CSU Projected Enrollment Growth (4.5%) - General Fund	73,110,000	
Enrollment Growth Net Available Revenue	17,837,000	
<b>Subtotal, CSU Operations and Enrollment Growth Revenue</b>		<b>\$230,836,000</b>
Revenue Above Partnership Agreement		
Campus Operations/Faculty Salary Support		12,880,000
<b>Total, Sources of Funds</b>		<b>\$243,716,000</b>

### Utilization of Funds

<b>Mandatory Costs</b>		\$27,822,000
Employee Benefits	8,507,700	
New Space	6,414,300	
1999/2000 General Employee Compensation Increase	3,600,000	
1999/2000 Faculty Collective Bargaining Agreement	6,800,000	
1999/2000 Full-Year Service-based Comp. Increases	2,500,000	
<b>Enrollment - 4.5% Increase; 12,577 FTE Students</b>		85,571,000
Marginal Cost for Instruction	81,254,000	
State University Grant Increase	4,317,000	
<b>Compensation (5% pool effective July 1, 2000)</b>		94,340,000
<b>Monterey Bay</b>		2,290,000
<b>Long-Term Budget Need</b>		20,813,000
Technology	15,000,000	
Libraries	3,000,000	
Deferred Plant Maintenance	2,813,000	
<b>Subtotal, CSU Operations and Enrollment Growth</b>		<b>\$230,836,000</b>
<b>State Investments:</b>		
CALTEACH Recruitment	9,000,000	
Governor's Teacher Fellowships	3,500,000	
Campus Start-Up Costs - CSU, Channel Islands	0	
Off-Campus Center Support - Coachella Valley	380,000	
CPEC Faculty Salary Lag Adj., 2% comp. pool increase	0	
Total, Campus Operations/Faculty Salary Support		12,880,000
<b>Total, 2000/01 Proposed Expenditure Increase</b>		<b>\$243,716,000</b>

The 2000/01 Governor's Budget allocations reflect increases in CSU state General Fund and State University Fee revenue shown in the table above. The budget plan for campus allocations differs slightly from the aggregate budget information distributed in January because costs have been revised to include the entire \$104 million reduction in CSU retirement contributions (the savings were originally estimated to be \$54.9 million). The savings from the retirement rate reduction were returned to the state and are not available for CSU budget expenditures. The campus allocation plan also includes revised estimates of State University Fee revenue based on the campus distribution of full-time equivalent enrollment growth.

\* Includes Monterey Bay and Coachella Valley fixed costs supplements, long-term need for technology and libraries, and the governor's teaching initiatives.

## 2000/01 Governor's Budget Campus Allocations

Campus allocations are provided for the following budget year expenditure increases based on the 2000/01 Governor's Budget request submitted to the legislature in January 2000. Campuses may use these preliminary allocations to plan for the 2000/01 fiscal year and to begin preparations for their 2000/01 budget submissions that will be due in August 2000.

<b>Mandatory Costs</b>				
<b>Campus</b>	<b>Prior Year Compensation Agreements</b>		<b>Health and Dental Benefits</b>	<b>New Space</b>
	<b>4% Pool</b>	<b>Faculty</b>		
Bakersfield	\$65,000	\$126,000	\$129,900	
Chico	170,000	327,000	353,100	40,000
Dominguez Hills	103,000	199,000	194,300

## Prior Year Compensation Agreements

The Governor's Budget allocation contains two items representing continuing costs from the 1998/99 and 1999/2000 employee collective bargaining agreements.

The first stems from the 1999/2000 general compensation pool. An allocation of \$3,588,000 (which was provided as a nonpermanent budget allocation for compensation in the 1999/2000 Final Budget allocation) is now being made permanent. The allocation is made because the 1999/2000 Final Budget did not contain sufficient appropriations from the state to fund the 4 percent compensation pool used to negotiate employee compensation increases. State appropriations for compensation increases funded a 3.8 percent compensation pool, resulting in the differential need of \$3.6 million.

The 2000/01 Governor's Budget also includes a second item relating to 1998/99 and 1999/2000 faculty collective bargaining agreements. The 1998/99 faculty agreement cost approximately \$6.4 million more than was budgeted for the faculty compensation pool. This increase affected the faculty base and increased the following year's faculty compensation pool by approximately \$400,000 — resulting in a total funding gap of \$6,796,000 for faculty compensation. Campuses provided funding for this gap in 1999/2000 on a one-time basis to fully implement the faculty collective bargaining agreements.

The 2000/01 Governor's Budget provides a permanent General Fund allocation of \$3.6 million to campuses to cover the 4 percent general compensation increase and the \$6.8 million funding shortfall for faculty compensation agreements. Campus allocations match the amounts shown for these items in B 99-03, Attachment D, and are based on 1997/98 salaries and wages reported expenditures used in the 1999/2000 Final Budget allocation process.

## Health and Dental Benefits

Health rates increased by 5 percent and dental rates by 11 percent over 1999 rates in January 2000. The Governor's Budget funds the full-year cost of these increases for the 2000/01 fiscal year. Campus allocations for these costs are based on their prorata share of health and dental benefits recipients.

## New Space

New space totaling \$6.4 million represents the net change in campus maintained facilities space that is funded at \$6.45 per square foot. The net change reflects new space associated with the opening of newly constructed or renovated buildings and previously maintained space that has been eliminated or closed pending renovation or following the opening of newly constructed space. A detailed list of funded new space is provided in the *2000/01 Support Budget Documentation* book, which is available at the CSU Budget Office web site: <http://www.calstate.edu/tier3/budget/index.html>

## 1999/2000 Full-Year Service-based Compensation Increases

As has been standard budget practice, allocations for the full-year cost of 1999/2000 service-based compensation increases are included in the campus allocations for 2000/01 compensation increases.

## Enrollment

Campus enrollment allocations are based on the marginal cost formula for full-time equivalent student (FTES) growth. Based on the Governor's Budget, which includes the full \$104 million reduction in CSU retirement costs, the marginal cost for enrollment growth is \$6,800 per FTES. Of this amount, \$346 per FTES is set-aside for student financial aid and funds increases in the CSU State University Grant pool and mandatory State University Fee waivers. The remaining \$6,454 per FTES is allocated for general instructional costs and for instructional equipment (at \$127 per FTES) based on the marginal cost formula. This split in the enrollment allocation is made to help identify funds that have been allocated to campuses for technology-related purposes. Enrollment funds may be expended as determined by the campus to address all enrollment needs across CSU budget programs to achieve FTES enrollment targets.

Funds for CalStateTeach are provided at the full marginal cost of \$6,800 per FTES and include total projected revenue from 100 FTES enrollment growth since financial aid funding is not provided from the State University Grant pool.

In addition to the enrollment growth funding allocations identified in the table below, an enrollment supplement for CSU Monterey Bay (\$2.3 million) is provided in the 2000/01 budget as a special provision for fixed costs at the campus. Also, a \$380,000 fixed cost supplement is provided for academic support activities at the CSU San Bernardino off-campus center in Coachella Valley.

The CSU enrollment target for 1999/2000 is 279,403 FTES, which includes 1,821 FTES in teacher preparation programs that have not been permanently allocated to campuses. The 2000/01 enrollment target permanently allocates this enrollment and provides for 4.5 percent enrollment growth — an additional 12,577 FTES.

Budgeted Revenue

CSU State University Fee revenue calculations are based on estimated headcount enrollment for undergraduate, graduate, and postbaccalaureate students for the academic year and summer/winter terms based on regular (greater than 6 units per term) and limited (6 units or fewer per term) fee rates. Estimates of headcount enrollment are derived from the most current actual college year enrollment data. The budgeted State University Fee revenue increase (permanent Teacher Preparation revenue plus 2000/01 Enrollment Growth revenue) includes budgeted regular and limited mandatory and campus discretionary fee waivers. One-third of the gross projected revenue increase is set aside for financial aid, a portion of which is used to fund the total remaining need for mandatory waivers counted but not funded between 1992/93 and 1997/98. Campuses are permitted to adjust CSU revenue estimates for reporting purposes to reflect campus-specific details that are not related to the state budget request. These adjustments **do not** affect the campus General Fund allocation.

<b>Total</b>	<b>\$4,317,000</b>

CSU fee policy requires that one third of State University Fee revenue from enrollment growth and fee rate increases be made available for student financial aid. Marginal cost revenue growth associated with a 4.5% increase in CSU budgeted enrollments provides approximately \$4.3 million to increase the CSU State University Grant (SUG) program. Allocations to campuses are based on their prorata share of total need in accordance with the policies recommended by the Financial Aid Advisory Council (FAAC). Also reflecting the FAAC's recommendations, the preliminary SUG allocations for campuses distributes approximately 90 percent of the funding estimated to be available for 2000/01. The Final Budget allocation letter that will be distributed upon the signing of the 2000/01 budget will include the final allocation of all available State University Grant funds to campuses based on 1999/2000 SUG eligibility data provided by the campuses. Detailed information regarding the determination of campus share of need can be found on page 13. Questions concerning campus grant allocations should be directed to Mary Robinson at (562) 951-4737.

The remaining portion of student fee revenue from enrollment growth in 2000/01 will be used to fund mandatory fee waivers. Mandatory fee waivers have been defined as Alan Pattee and Cal Veteran waivers provided to the dependents of disabled California veterans and public safety and fire suppression personnel killed in the line of duty. Funding allocated to campuses in 2000/01 completely funds CSU mandatory waiver growth between 1992/93 and 1997/98. Campuses retain authority to provide discretionary State University Fee waivers in accordance with Board of Trustees' policy guidelines; however, no adjustment is made in CSU revenue projections based on the number of discretionary waivers provided by campuses.

A discussion of mandatory waiver funding and budget policy for future growth in waivers follows on page 14.

## CSU Funded Mandatory State University Fee Waivers

When budget redesign was implemented for the 1993/94 fiscal year, there was no provision made for the increased cost of state mandated fee waivers for dependents of California veterans or public safety and fire suppression personnel killed in the line of duty. The state previously provided funding to cover the cost of these waivers as a special offset to revenue, but the budget redesign process did not provide an effective mechanism for capturing these state-mandated costs. Efforts to seek state funding specifically for mandatory fees waivers have proven unsuccessful. The Budget Office was charged with developing a process to restore recognition of the cost of mandatory fee waivers in the annual budget process.

Following several meetings with campus representatives, recommendations were made to:

- 1) identify the costs of mandatory fee waivers provided in fiscal year 1997/98 compared with the last funded total provided in fiscal year 1992/93;
- 2) use duplicate degree waivers to address unfunded mandatory waiver need (the Duplicate Degree tuition program ended in fiscal year 1996/97 but campus mandatory waivers were not reduced to reflect the end of the waiver requirement); and,
- 3) once fully funded, campus mandatory fee waivers would be adjusted annually during the CSU revenue projection process to redirect surplus and fund need as appropriate.

These recommendations were presented to chief financial officers during the 1999/2000 budget allocation process. A final report on the mandatory fee waiver process will be discussed with chief financial officers prior to its formal implementation for 2001/02 budget development.

Channel Islands	118,000
Summer Arts	
Systemwide Provisions	
<b>Total</b>	<b>\$96,840,000</b>

The 2000/01 compensation allocations total \$96.8 million. These allocations are based on each campus' percentage share of the total salaries and wages expended in 1998/99. The total allocation of \$96.8 million provides a pool of funds to finance currently anticipated compensation increases for the 2000/01 fiscal year. This pool of funds includes \$2.5 million to fund full-year costs of the 1999/2000 employee service-based salary increases plus an average 5 percent compensation increase or \$94.3 million for faculty and staff. The increase includes funds for salary-related benefit costs (retirement, OASDI, and Medicare). The average 5% pool will be used to negotiate employee compensation increases through the collective bargaining process in 2000/01.

Long-Term Budget Core Needs

The higher education financial partnership includes a specific provision for long-term budget core needs that are to be addressed with an annual appropriation equivalent to 1 percent of CSU General Fund support received in the year immediately preceding the budget year. CSU will use a portion of the 2000/01 appropriation of funds to finance the second phase of its \$25 million ongoing operating support commitment to the Integrated Technology Strategy. The state provided \$10 million in the 1999/2000 Budget Act with the understanding that the remaining \$15 million would be included in the 2000/01 budget. Of the remainder, CSU will use \$3 million to support the electronic journal core collection and the implementation and maintenance cost for Pharos, the Unified Information Access System that offers students a common process for searching library materials, a catalog of resources of all CSU libraries, and resource sharing. The technology and libraries funding will be managed centrally.

Campuses have been allocated the remaining \$2.8 million of the 2000/01 long-term core need appropriation to reduce deferred maintenance backlogs. Campuses are expected to use these funds exclusively for outstanding deferred maintenance projects that have contributed to the CSU backlog, which currently exceeds \$340 million. It is also anticipated that campuses will continue to dedicate sufficient resources towards ongoing maintenance (scheduled maintenance and special repair) in the 2000/01 fiscal year to avoid any further increase in the total deferred backlog. Campus final budget submissions provided in August will be analyzed to identify any significant shifts in funding for ongoing and deferred maintenance.

## Governor's Budget Initiatives

The governor has provided funding for several initiatives in the CSU support budget to assist state efforts to increase the number of qualified teachers in California. A \$25 million K-12 initiative for training K-12 teachers in the use of technology in the classroom will be provided through a Department of Education appropriation. CSU has issued a Request for Proposal to campus deans to determine the first wave of programs that will receive funding to administer training. It is anticipated that CSU will serve 25,000 teachers during the course of the three-year training program, which includes a one week intensive training session followed by 120 hours of follow-up and refresh instruction. Questions concerning this funding should be directed to Bill Wilson, Sr. Director for Teacher Education and K-18 Programs, at (562) 951-4750 .

Funding has been appropriated directly to CSU for implementation of a \$20 million teaching fellowship program that will be phased in over three years to increase the number of qualified teachers serving in low-performing schools. These fellowships will be provided to highly qualified prospective teachers who commit to teach in low-performing schools for four consecutive years after they obtain their credentials. For the first phase, \$3.5 million has been appropriated to CSU to cover implementation costs and the first six months of the \$20,000 annual stipends.

In addition, the 2000/01 Governor's Budget provides \$9 million for CalTeach in-state and out-of-state teacher recruitment. This funding supports the media campaign and recruitment activities administered through the CSU Institute for Education Reform.

## 2000/01 Campus Governor's Budget Allocation - Summary
