Subject: 2001/02 Final Budget Allocations

The following allocations are provided for the 2001/02 fiscal year. These allocations are based on CSU General Fund appropriations included in the 2001 Budget Act, Chapter 106; Statutes of 2001. They reflect base budget adjustments that are required in the 2001/02 fiscal year, new funding provided for 2001/02 operations and program growth, and the CSU projection of State University Fee revenue. Campus 2001/02 employer paid retirement contributions for PERS increases effective July 1, 2001 are not included in the final budget allocation letter. Campus 2001/02 retirement adjustments are anticipated mid-fiscal year upon notification from the Department of Finance.

The 2001/02 Final Budget reflects the following changes in CSU funding:

2001/02 CSU Revenue Increases

CSU Higher Education Partnership Resources – General Operations	\$ 63,351,000
CSU Higher Education Partnership Resources – 3 Percent Enrollment Growth	55,714,000
CSU Higher Education Partnership Resources – Long-Term Need	0
CSU Higher Education Partnership Resources – Annuitant Dental Benefits	2,092,000
State Marginal Cost Funding for YRO Summer Enrollment Conversion	12,376,000
State General Fund Increase for CSU Funding Requests	19,787,000
Governor’s Academic Preparation Initiatives	23,500,000
State General Fund Adjustments for CalTeach and CPEC Eligibility Study	528,000
One-time Appropriation for natural Gas and Campus Programs	<u>18,856,000</u>
Total General Fund Increase	\$197,204,000
CSU Projection of State University Fee Revenue Increase	<u>26,424,000</u>
Total, All Funds	\$222,628,000

The 2001/02 Final Budget allocations include the following base budget adjustments:

Reduction in Funds Required for PERS Retirement Contributions	\$-26,297,000
Reduction in Funds Required for Lease Bond Payments	\$-2,786,000
One-time 2000/01 Appropriations	\$-31,710,000
Reduction in Funds for Agriculture Applied Research	\$-1,000,000
Campus Assessment for CSU Financial Audits (Net Change is \$0)	\$-1,000,000
CSU Adjustments for Special Campus Initiatives (Net Change is \$0)	+415,000
CSU Adjustment for State Budget Reporting (Net Change is \$0)	\$+207

If you have questions concerning 2001/02 Final Budget allocations, please contact Rodney Rideau or any of the Budget Office staff at (562) 951-4560.

**2001/02 Final Budget Allocations
B 01-04**

The 2001/02 Final Budget includes a \$61,793,000 reduction in CSU base budget General Fund support and a \$196,204,000 General Fund increase for new program and operations support at CSU. In addition, projected State University Fee revenue of \$26,424,000 associated with a 3 percent increase in FTES enrollments and converting 5,115 FTES from self-support to state-supported summer year round operations has also been used to fund budget year increases at CSU. The following information details the allocation plan for these 2001/02 fiscal year resources.

Budget allocations for 2001/02 are displayed as adjustments to the 2000/01 Final Budget submissions prepared in response to Budget Office memorandum B 00-04. The table above indicates changes to General Fund appropriations and State University Fee revenue only because these are the only fund sources used in the CSU budget plan for 2001/02 (see shaded column heading). Budget adjustments for other reported fees and income in 2001/02, as well as modification of the CSU State University Fee revenue projection presented in this document, should be made by the campuses; however campus adjustments will not change the level of state General Fund support identified in this memorandum.

Base Budget Adjustments

The Final Budget includes three CSU General Fund reductions: a \$26,297,000 reduction to recognize the lower cost of CSU employer contributions to the PERS retirement fund, a \$2,786,000 reduction to reflect the lower state cost requirement for CSU lease bond payments, and a \$31,710,000 reduction to remove one-time funding appropriated in the 2000/01 budget. The retirement reduction has been allocated in accordance with the budgeted retirement costs campuses identified in their 2000/01 Final Budget submissions.

In addition to these state budget adjustments, the table below identifies three CSU adjustments to base budgets.

State Budget Reporting Adjustment

The state funds CSU in thousands of dollars, which typically necessitates several accounting adjustments in systemwide allocations. To facilitate the state reporting requirements and to simplify the CSU budget allocation process, CSU budget allocations will be identified in thousands of dollars only. An adjustment has been made to align all campus and CSU system office budgets to the required reporting standard.

Special Initiatives

In addition to the adjustment made for reduced lease bond payment costs, base adjustments have been made at two campuses to reflect a Chancellor's Office budget agreement with CSU Bakersfield and a trustees' professor adjustment at CSU Fresno. A reduction has also been made at the Fresno campus to recognize the \$1,000,000 reduction in funds available for Agriculture applied research.

**2001/02 Final Budget Allocations
B 01-04**

Trustees' Audit Assessment

At their January meeting, the Board of Trustees approved campus assessments to fund two new auditor positions and the construction audit contract. The total campus assessment for CSU financial audits is \$1,000,000 and has been prorated among the campuses on the basis of their percentage share of 2000/01 General Fund appropriations.

CSU Budget Plan Increases

The CSU Budget Plan for 2001/02 identifies \$222,628,000 in expenditure increases that will finance with \$196,204,000 in new state General Fund support and \$26,424,000 in projected State University Fee revenue. Campus revenue estimates have been adjusted to reflect increases in mandatory fee waivers. This adjustment does not reduce campus Final Budget allocations or general expenditure increases identified in the CSU 2001/02 budget plan.

Health Benefit rates, as provided by Government Code, rose 10 percent in January 2001. The full-year cost implication for 2001/02 is \$11.2 million, which has been allocated to campuses based on their prorated percentage share of total CSU expenditures for health benefits in 1999/2000. In addition, the Final Budget funds the increased cost of annuitant dental benefits (\$2.1 million) based on the number of annuitants eligible for benefits in 2001/02. These funds are managed centrally by the Chancellor's Office and paid directly to the PERS retirement system.

Campuses will open 790,745 square feet of new custodial building space in 2001/02. A total of \$5.1 million will be allocated to the 14 campuses at \$6.45 per square foot. Questions concerning custodial square footage should be directed to Vi San Juan at (562) 951-4106.

CSU will use \$615,000 to facilitate the purchase of property insurance to insure all CSU property, state and non-state, in the same manner as bond-financed facilities. Campus costs for insurance premiums that carry a \$100,000 deductible for each covered incident will be offset with the \$615,000 CSU appropriation. Projected premium costs for participating campuses after the \$615,000 offset are identified on **Attachment A** of this memorandum. If you have questions concerning the property insurance allocations, contact Charlene Minnick, Director of Risk Management, at (562) 951-4580.

B 01-04

Long-Term Budget Need (\$11.6 million)

The higher education partnership provides a one percent increase in CSU General Fund appropriations to address critical, long-term need. Budget areas for support in 2001/02 included implementation costs associated with the Integrated Technology Strategy (ITS), acquisitions and electronic technology support for the Libraries, and continued reduction in the CSU deferred maintenance backlog. The Final Budget eliminates the one percent increase (\$23 million) that would have been provided for long-term need. CSU used other partnership resources provided for the budget year to address continuing costs associated with the ITS telecommunications infrastructure build out.

Compensation, Enrollment and Special Initiatives (\$193.1 million)

The Final Budget provides \$193,074,000 in expenditure increases for CSU compensation increases; conversion of summer self-support matriculated enrollment to state-supported, year round operations FTES; new, targeted FTES enrollment growth of 3 percent; and, special initiatives for K-12 academic preparation, investment in CSU applied research activities, CSU Channel Islands and the increased cost of natural gas.

2001/02 Final Budget Allocations
B 01-04

* Compensation (\$42.2 million)

The Final Budget provides \$40.8 million for a compensation pool equivalent to a 2 percent increase in CSU Salaries and Wages budgeted for fiscal year 2000/01. This amount also includes the cost of salary-related benefits. The full-year cost of service-based salary increases provided in 2000/01 (\$1.4 million) has also been included in the compensation allocation. The allocation of 2001/02 compensation funding is based on campuses' prorated percentage share of reported Salaries and Wages General Fund expenditures in 1999/2000.

* Enrollment (\$36.5 million for YRO; \$62.5 million for 3% FTES growth; \$5.4 million for financial aid)

The Final Budget provides General Fund (\$12.4 million) and State University Fee revenue support (\$5.4 million) to fund state-supported YRO summer enrollment conversion at 4 campuses and a 3 percent increase over CSU's targeted 2000/01 FTES enrollment level. CSU will also use \$7.6 million in systemwide base budget General Fund resources to provide full marginal cost support for the summer YRO enrollment conversion for the four campuses included in the 2001 Final Budget and \$11.3 million to provide full-marginal cost funding to accelerate YRO enrollment conversions at 6 additional campuses, with associated projected State University Fee revenue of \$3.6 million. Total planned YRO enrollment conversion at CSU will total 5,115 FTES in 2001/02 at a cost of \$36.5 million. In addition, approximately \$2 million has been set-aside for student financial assistance at the converting campuses in 2001/02. This one-time dedication of CSU grant funding will be incorporated into the systemwide State University Grant pool for the 2002/03 and subsequent fiscal years.

Total Marginal Cost funding for 2001/02 is \$7,519 per FTES. Campuses have been allocated \$7,133 per FTES to convert 5,115 FTES currently in self-support summer extension courses to state-supported courses. These students have been identified as matriculated during the academic year at campuses that do not currently have state-supported summer terms. The remaining funds will be allocated to campuses that are converting eligible FTES in previous self-support summer courses for State University Grant (SUG) appropriations, based on student financial need, during the first year of conversion. In subsequent years, these SUG allocations will be incorporated in the systemwide pool of funds available for distribution on the basis of campuses' prorated percentage share of total SUG-eligible need. The SUG allocations for summer YRO enrollment conversion are consistent with the policy recommendation of the Financial Aid Advisory Council (FAAC).

State University Grants (\$386 per FTES allocated on the basis of student need)	1,974,000
Campuses' 2001/02 Budget Plan Expenditure Increases	<u>1,844,000</u>
<i>Total Allocation of Funds</i>	\$40,304,000

Campuses have also been allocated \$7,133 per FTES to increase aggregate CSU enrollment by 8,759 FTES over 2000/01 funded enrollment targets (a 3 percent increase). An additional \$386 per FTES will be used to increase the systemwide pool of funds available for SUG financial aid. The SUG pool is increased annually by one-third of the marginal cost revenue estimated for enrollment growth. The increased grant funding from 3 percent enrollment growth has been allocated to campuses based in part on an analysis of actual 2000/01 SUG eligibility data provided by the campuses. Attachment C shows 2001/02 SUG allocations by campus for new 3 percent enrollment growth. Questions concerning SUG allocations should be directed to Mary Robinson at (562) 951-4737.

B 01-04**

* Special Initiatives (\$64.4 million)

The Final Budget includes \$62.3 million for six special initiatives: \$6 million to fund expansion of the Governor’s Education Technology Professional Development program, \$17.5 million to fully fund the Governor’s Teaching Fellowships program, \$3 million to complete fixed cost start-up funding at CSU Channel Islands, \$18.6 million to fund the one-time increased cost of 2000/01 natural gas rates and \$15.5 million permanent funding to offset gas rate increases in 2001/02, \$1.2 million for marine studies applied research and Central Valley economic development activities, and \$528,000 to replace GOALS 2000 federal funds previously available for CalTeach and to fund CSU costs associated with the California Postsecondary Education Commission’s higher education eligibility study. The majority of these funds will be managed centrally; however allocation of the \$15 million included in the Final Budget to permanently increase funding to offset natural gas costs has been allocated to campuses based on their 2000/01 gas therms usage and projected rates.

Additionally, \$1.9 million in system funds are being held in reserve for increases in state-mandated fee waivers for eligible dependents of California veterans and any surviving child of a deceased law enforcement or fire suppression employee of a public agency. State-mandated waivers are funded on the basis of the incremental annual change in the total number of state-mandated waivers provided by campuses. Two initiatives totaling \$300,000 for CSUPERB research initiative in Pasadena and an exhibit of labor art at CSU San Francisco were also funded on a one-time basis by the legislature and approved by the governor in the Final Budget, as well as a \$114,000 permanent increase for the Judicial Fellows program administered by the Center for California Studies at CSU Sacramento. A minor financial adjustment also was made in systemwide resources to fully fund CSU budget year increases. One-time allocations from Systemwide Provisions that will be presented to campuses by separate allocation order are shown on **Attachment B**.

Enrollment

CSU budget plan enrollment targets for 2001/02 are shown on the table at the right. Questions related to campus YRO enrollment should be directed to Lenore Rozner at (562) 951-4550. Questions concerning campus 3 percent enrollment growth should be directed to Marsha Hirano-Nakanishi at (562) 951-4767.

Fee Revenue

The CSU projection of fee revenue for YRO enrollment conversions and 3 percent aggregate growth is shown on the table below. CSU enrollment estimates are based on headcounts calculated on the basis of campuses most recent past year FTES/Headcount enrollment experience by classification and fee-paying status of students. Adjustments for state mandated waiver increases are made after the FTES-to-Headcount calculation and associated revenue increases have been determined. Campuses are authorized to change the CSU projection of revenue for planning purposes and when making their final budget submissions; however, campus adjustments to CSU revenue estimates will not affect campus General Fund allocations. Questions concerning FTES-to-Headcount conversions and CSU revenue projections should be directed to Chris Canfield at (562) 951-4558.
