Nine Principles of Community Based Projects
From Community Based Participatory Research for Health,

1. Recognize community as unit of identity
2. Utilize community assets
3. Create equitable partnerships
4. Develop co-learning and capacity
5. Balance research and action
6. Focus on local solutions in general context
7. Encourage systems development thru iteration
8. Disseminate in various forms for differing audiences
9. Realize that community partnerships are long term!
