

IMMERSE YOURSELF

CSU MARINE BIOLOGY SEMESTER FALL 2009

**Come spend 15 weeks
on Catalina Island
studying marine biology
at the Wrigley Marine
Science Center!**

The CSU Marine Biology Semester program is accepting applications for fall 2009. The program runs August 31 to December 11, 2009, and is offered by the CSU Ocean Studies Institute.*

This is an outstanding opportunity for all third- and fourth-year marine science, biology and life science majors to get hands-on experience at a world-class field station with fully equipped laboratories, daily access to marine habitats, and one-on-one interaction with CSU faculty.

Courses include:

- Marine Invertebrate Zoology (4 units)
- Marine Ichthyology (4 units)
- Marine Ecological Processes (4 units)
- Independent directed research (3 units)

APPLY NOW!

The application deadline is **June 15, 2009**.
