SAMPLE FORMS
CONTRACT GENERAL CONDITIONS FOR
CONSTRUCTION MANAGER AT RISK WITH GUARANTEED MAXIMUM PRICE PROJECTS

1.00 - DEFINITIONS

Acceptance – When the Project has been completed in all respects in accordance with the Plans and Specifications, and the Contract has been otherwise fully performed by the CM, to the full satisfaction of the Trustees, the Trustees will accept the Project as complete.

Actual Direct Construction Cost – All costs necessary to complete the Project, as proposed by the CM at the time of award, excluding the CM site management fee, the CM Contingency, and the CM overhead and profit.

Addendum - A document that modifies or supersedes portions of the Contract Documents, which is produced by the Architect, approved by the Trustees, and issued to the Construction Manager at Risk, prior to the agreement on the Guaranteed Maximum Price.

Agreement - A form that is executed by both the CM and the Trustees, that provides the Work will be done in accordance with the Contract Documents, which collectively represent the entire agreement between the Trustees and the CM, including Guaranteed Maximum Price, and which supersede any prior negotiations, representations, or agreements, either written or oral. See Contract Documents.

Allowance – Allowances are allocations of the Contract Amount to portions of the Work that could not be specified sufficiently for competitive bidding.

Architect - The person or organization, including the authorized representatives thereof, commissioned by the Trustees for the design of the Project. For projects on which an engineer or landscape architect is commissioned instead of an architect, the term “Architect” shall mean the design professional so commissioned for the Project.

Bid Date - the date fixed for submission of technical and cost proposals.

Bidder – Any person or business entity acting directly or through an authorized representative who submits a technical and cost proposal for the Work, in response to a Request for Proposals. See Proposer.

Budgeted Direct Construction Cost – The budgeted total cost of the Work, excluding the CM site management fee, the CM contingency, and the CM overhead and profit.

Business Day – Calendar day excluding Saturdays, Sundays, national holidays and state holidays; same as Working Day.

Campus - The campus of the California State University system on which the Project is located.

Capital Planning, Design and Construction - Department within Business and Finance, a division in the Office of the Chancellor of the California State University, responsible for all major capital outlay projects.

Change Order - A written agreement entered into after the award of the Contract that alters or amends the executed Contract.

CM Contingency – CM Contingency funds are budgeted funds to cover the cost of unforeseen factors related to the Work that arise after a construction contract is awarded, such as an ambiguity in the Construction Documents. Eligible uses of the CM Contingency are specified in the Request for Proposals.

Construction Administrator - The person delegated by the Trustees to manage the construction phase of the Project, and authorized to approve changes to the Contract.

Construction Documents – The Contract General Conditions, Plans, Specifications, and Addenda related to the bidding and construction of the Project.

Construction Inspector - The Inspector on the Project site who receives technical direction from the Architect and administrative direction from the Construction Administrator.

Construction Manager (CM) – The person or entity that has entered into this Agreement with the Trustees. Same as Contractor.

Construction Schedule – The CM’s time use plan for completing the Work within the Contract Time.

Contract - The Contract Documents which collectively represent the entire agreement between the Trustees and the Contractor, and which supersede any prior negotiations, representations, or agreements either written or oral.

Contract Amount – The amount of compensation stated in the Agreement for the performance of the Work, as adjusted by Change Order.

Contractor - The person or business entity that has entered into this Agreement with the Trustees. Same as Construction Manager (CM).

Contract Time – The period of time, set out in Calendar Days, established in the Contract Documents within which the Work must be completed. The Contract Time may be adjusted by time extensions through Change Orders.

Day – Unless otherwise indicated herein, day is a calendar day.

Direct Cost of the Work – Costs necessarily incurred by the CM to perform the construction shown on the Construction Documents.

Executive Facilities Officer – University official who oversees the capital outlay process.

Field Instruction - A written order from the Trustees to the Contractor, signed by the Construction Administrator.

GMP Budget – The total of the Budgeted Direct Construction Cost, CM site management fee, CM Contingency, and the CM overhead and profit.

Guaranteed Maximum Price (GMP) – The maximum price that the Trustees and Construction Manager at Risk agree upon as payment for managing and for supplying and installing all the Work. The GMP is a total of the Actual Direct Construction Cost (including allowances) as bid by the CM, and includes the CM site management fee, the CM Contingency, and the CM overhead and profit.

Plans - The drawings prepared by the Architect and approved by the Trustees which include elevations, sections, details, material and equipment schedules, diagrams, information, notes, or reproductions or any of these, and which show the location, character, dimension, or details of the Work.

Prevailing Wages - The general prevailing rate of wages identified by the Director of the Department of Industrial Relations of the State of California pursuant to section 1770 of the Labor Code.

Progress Schedule - The periodically updated Construction Schedule that reflects the actual progress of the Work and impacts on the Work thereby maintaining a current projected date of completion. Impacts on the Work include, but are not limited to, anticipated delays, re-sequencing of tasks, and Change Orders.

Project - The total Work required by the Contract.

Project Manager - The on-site representative of the Construction Administrator, but without the authority to approve changes to the Contract.

Project Schedule – The time use plan for completing the entire Project from date of Notice to Proceed of the Preconstruction Services phase through the date of final completion of construction. Major tasks included in the Project Schedule shall include but not be limited to consultant selection and award, design phases, code approvals, bid and award, construction, move-in, and closeout.

Proposer – Any person or business entity acting directly or through an authorized representative who submits a technical and cost proposal for the Work, in response to a Request for Proposals. See Bidder.

Site - The area specified in the Contract for the Project and the area made available for the CM’s operation.

Specifications - The instructions and requirements prepared by the Architect which complement the plans and describe the manner of performing the Work or the quantities, qualities and types of materials to be furnished.

State - State of California.

Subcontractor - Contractor that is under contract to the CM or another subcontractor for completion of a portion(s) of the Work. Same as Trade Contractor.

Superintendent - The representative of the CM at the construction site, who is authorized to receive instructions from the Architect and the Construction Administrator, and who is authorized to direct the performance of the Work on behalf of the CM.

Supplier or Vendor - Any person or business entity that contracts with the CM or trade contractor to provide materials or equipment.
Trade Contractor – Contractor that is under contract to the CM or another subcontractor for completion of a portion(s) of the Work. Same as Subcontractor.

Trustees - The Board of Trustees of the California State University and their authorized representatives who act on behalf of the Trustees. See also Executive Facilities Officer and Construction Administrator.

University - The California State University campus upon which the Project is located and the University President and other University officers and employees acting within the scope of their duties.

Work - That which is proposed to be constructed or done under the Contract, including the furnishing of all design services, labor, materials, and equipment.

Working Day – Day excluding Saturdays, Sundays, national holidays and state holidays; same as Business Day.

2.00 – PROPOSALS / GUARANTEED MAXIMUM PRICE

2.01 Duty to Carefully Examine These Instructions / Mistake in Proposal

a. Duty to Carefully Examine These Instructions
Prospective Proposers (Construction Manager at Risk (CM) and trade contractors) for this Project shall carefully examine the instructions contained herein and be cognizant of the conditions that must be satisfied prior to submitting a proposal, and the conditions that affect the award of the Contract.

b. Mistake in Proposal
As required by Public Contract Code section 5100 et seq., a Proposer shall not be relieved of a proposal without consent of the Trustees, nor shall any change be made in a proposal because of mistakes. However, a Proposer may pursue relief of its proposal in accordance with Public Contract Code section 5100 et seq.

2.02 Competence of Proposers

a. License and Public Works Registration.

(1) License.
No Bidder may bid on Work for which it is not properly licensed. The Trustees shall disregard any bid received from a Bidder who is not properly licensed (Business and Professions Code section 7028.15). Nor will the Trustees award a Contract to a Proposer who does not possess the appropriate contractor’s license, which is that specified in the Proposal Documents. Bidders participating in a joint venture must individually possess a current license when submitting the joint venture bid, and the joint venture must possess a joint venture license at the time of award (Public Contract Code section 3300).

(2) Public Works Registration with Department of Industrial Relations
The Trustees will only issue proposal packages only to firms who have prequalified with the Trustees (Public Contract Code section 10764). To prequalify, a bidder must file their prequalification applications online; and the application includes bidders’ responses to a standard questionnaire, a statement of financial condition and previous experience in performing public works, all in accordance with the instructions contained in the Proposal Documents.

The following applies to this Contract:
- A contractor won’t be in violation for working on a private Project that is later determined to be public work;
- Contractor shall check the public works registration for all subcontractors that it proposes to list to ensure that each subcontractor is registered to bid public works projects with the DIR;
- An unregistered contractor or subcontractor can be replaced with one who is registered;
- A contract with an unregistered contractor or subcontractor is subject to cancellation but is not void as to past work.

b. Prequalification Rating.
The Trustees shall issue proposal packages only to firms who have prequalified with the Trustees (Public Contract Code section 10764). To prequalify, a bidder must file their prequalification applications online; and the application includes bidders’ responses to a standard questionnaire, a statement of financial condition and previous experience in performing public works, all in accordance with the instructions contained in the Proposal Documents.

Bidders shall go to: http://www.calstate.edu/cpdc/cm/contractor_prequal_bidders.shtml, under ‘Contractor Prequalification’ and log in to the database using the link provided (PlanetBids). Bidders shall verify the information contained in the prequalification application under oath and submit the completed prequalification application online
at least ten (10) Business Days prior to the deadline identified in the Proposal Documents. The Trustees’ Prequalification Coordinator must approve Bidders not less than one Business Day prior to the deadline identified in the Proposal Documents.

The Trustees’ Prequalification Coordinator will review the bidder’s statement of experience and financial condition upon receipt of a complete application, check Bidder’s references, and notify the Bidder of the rating that has been established based on information contained in the application. The Bidder’s assigned prequalification rating will be the maximum amount of a contract or contracts that the Bidder may undertake with the Trustees.

The Trustees shall disregard any proposal received either from a Bidder that is not currently prequalified or from a bidder that is prequalified but the rating is not high enough to accommodate its bid. Although this prequalification permits participation in the submitting of a Proposal for the Project, it does not mean that the bidder satisfies the requirements of being a “responsible bidder.” This determination occurs later in the process (see Article 8.12, CM Evaluation).

c. Joint Ventures.
If two or more prospective firms desire to submit a proposal as a joint venture on a single project, they must file an affidavit of joint venture with the Trustees at least five (5) Days prior to the deadline identified in the Proposal Documents, on a form obtained from the Trustees. The affidavit of joint venture is valid only for the specific project for which it is filed. Each party to the joint venture must be prequalified, as provided herein, at least one (1) Business Day prior to the deadline identified in the Proposal Documents.

If the Trustees announce that the joint venture is the successful Proposer, the joint venture shall, prior to the Trustees’ award of the Contract:

(1) obtain the joint venture license (Business and Professions Code sections 7029 and 7029.1), and

(2) register the joint venture with the Department of Industrial Relations.

d. Trade Contractor Prequalification.
CM shall require prequalification of the trade contractors [at least the mechanical, electrical, plumbing and trades where the estimated cost of the trade work is greater than five percent of the construction budget] utilizing the Trade Contractor Prequalification document found in the Request for Proposal documents and any additional documents or process required by the CM. Once this process is completed, the CM shall provide a list of the prequalified trade contractors to the Trustees.

2.03 Necessity for Careful Examination of Site, Plans, and Specifications
The CM and trade contractors shall carefully examine the Site, the plans, and specifications for the Project, and shall investigate and be satisfied as to the conditions to be encountered, the character and quantity of surface and subsurface materials or obstacles to be encountered, rights of way and easements at or near the Site, the Work to be performed, and materials to be furnished and as to the requirements of the proposal, plans, and specifications for the Project. See Article 4.12, Responsibility to Secure and Pay for Permits, Licenses, Utility Connections, Etc. Bidder certifies that Bidder has complied with the requirements of this provision by the submission of its bid.

Any failure by the CM and trade contractors to acquaint themselves with information that is available or with reasonable investigation may be available will not relieve them from responsibility to properly estimate the difficulty or cost to perform the Work. Such examination does not require independent underground soil borings unless required elsewhere in the Contract Documents.

a. Subsurface Investigations.
Where the Trustees have made investigations of subsurface conditions, and that information is made available to the CM, such information is limited in scope to that which has been actually encountered in the investigations, and is included only for the convenience of the CM.

The Trustees assume no responsibility whatsoever in respect to the sufficiency or accuracy of borings or of the log of test borings or other preliminary investigations or any interpretation of the above. There is no guarantee or warranty, either expressed or implied, that the conditions indicated are representative of those existing throughout the site or that unforeseen conditions or developments may not occur. Making such information available to the CM is not to be construed in any way as a waiver of this provision. The CM must satisfy itself through its own investigations as to the actual conditions to be encountered.

b. Differing Site Condition.
During the progress of the Work, if the CM encounters a subsurface or latent condition at the Site that is substantially different from those indicated in the Contract Documents or made available for examination, a differing Site condition may exist. The CM shall immediately notify the Architect and the Construction Inspector in writing of the error, conflict, inconsistency, omission or any variance on the Project as required herein and as required by laws, ordinances,
codes, rules or regulations. The CM shall immediately report such condition to the Construction Administrator, the Architect, and the Construction Inspector in writing. The Architect shall investigate the assertion of a differing Site condition by collecting the facts and applying the facts as expressed by the Architect to the appropriate provisions of the Contract Documents. If the Architect in the exercise of reasonable discretion determines that a differing Site condition exists and that the differing site condition directly results in extra Work, and if the Trustees concur, the CM shall be entitled to a change order that shall compensate the CM for the extra Work.

2.04 Clarification Prior to Guaranteeing the Maximum Price
The CM shall examine the plans and specifications in preparing the GMP and shall report to the Architect any omissions, discrepancies, or errors found in the plans and specifications. Before the date of agreeing to the GMP, the CM shall submit a written request for clarification to the Architect who may give such clarification in the form of an addendum. Otherwise, in obtaining the cost of the Project, the CM shall consider that any conflicts shall be governed by Article 5.01, Interpretation of Contract Requirements.

CM firm is advised that the time period for submitting a proposed product as “an equal” is limited to the period prior to the date of agreeing to a GMP. Refer to Article 5.04-c, Alternatives or Equals.

Only the Architect is authorized to answer questions or prepare addenda relative to the Project. Information obtained verbally from any source has no contractual authority, may not be relied upon, and shall have no standing in any event that may occur.

2.05 Listing of Trade Contractors
The CM shall solicit a minimum of three qualified trade contractors in a manner most appropriate to obtain competitive bidding. Identify in the trade contractor solicitation the construction budget for that trade, and clearly state the amount of bonds required by the trade contractors, and whether the CM or the trade contractor will be responsible for the cost of the bonds (Public Contract Code section 4108).

With the submission of the GMP, the CM shall submit to the Construction Administrator the ‘List of Trade Contractors for CM at Risk Projects’ form, wherein the CM shall list the trade contractor’s name, California Contractors State License Board-issued contractor license number, and the California Department of Industrial Relations Public Works Registration number, and location of the place of business of each proposed trade contractor that will perform Work or labor or render services for the CM in excess of one-half of one percent of the CM’s total GMP. CM shall also state on the proposal the portion of Work or labor or rendition of services that each such trade contractor will do (Public Contract Code sections 4104, 4105 and 4106).

For each alternative, CM shall list any trade contractor not included in the base contract subcontractor listing.

If the CM is a Non-small Business Bidder and claimed the small business preference, the CM shall list all trade contractors certified as California small businesses, and the total of these subcontracts shall be at least 25% of the total bid price, including awarded alternatives.

CM is required to achieve three percent DVBE participation in its GMP and, if Trustees awarded CM points in the RFP process for a DVBE incentive, CM is required to achieve that level of DVBE participation in its GMP, including alternatives. The Trustees will calculate the CM's DVBE participation on the GMP, including awarded alternatives. CM is required to achieve at least its proposed level of participation at Contract Completion.

CM shall list on the ‘List of Trade Contractors for CM at Risk Projects’ form, the DVBEs participating in the GMP and the dollar amount of participation by each DVBE. The total of the DVBE participation amounts that CM provides on the List of Trade Contractors for CM at Risk Projects shall equal at least CM’s proposed percentage of DVBE participation. For each alternative CM shall list any DVBE participating in work to be performed on the alternative. If the Trustees grant the DVBE Bid Incentive to the CM, then the total amount of DVBE participation shall equal at least the incentive percentage of the total GMP, including awarded alternatives.

At Contract Completion, CM’s actual DVBE participation percentages shall be compared to the percentages proposed at GMP. CM’s failure to achieve the proposed percentages may subject CM to penalties (as described in Article 2.08), and/or may cause the Trustees to question the CM’s responsibility in future Trustees’ bids.

c. Subcontractor Directory.
The CM shall maintain current information requested on the Subcontractor Directory for all tiers of trade contractors and subcontractors working on the Project, and shall submit the Subcontractor Directory with its signed Contract and with all payment requests.

2.06 Small Business Five Percent Proposal Advantage
If a certified small business is the lowest responsive bidder, the Trustees will not calculate the five percent bid advantage for the other bidders, and will only calculate the DVBE bid incentive. Only another small business may displace the small business low bidder.

The Trustees shall give a small business bid advantage of five percent up to a maximum of $50,000 to contracting firms that have been certified as a “Small Business” by the Office of Small Business & DVBE Services, in the Procurement Division of the Department of General Services, in accordance with Government Code section 14835 et seq. and California Code of Regulations, Title 2, section 1896 et seq. To receive the five percent advantage, certified small businesses shall:

1. Submit with the proposal a completed form “Request for Small Business Five Percent Preference Certification” form,
2. Be certified Small Business upon verification in accordance with section 1896.2, having applied for certification no later than 5:00 PM on proposal submittal date,
3. Submit a timely and responsive proposal,
4. Be determined to be a responsible proposer.

b. Preference for Non-small Businesses.

1. Preference.
The application of the five percent small business bidding preference is also extended to any non-small business that commits to subcontracting at least 25% of its GMP to California certified small businesses and/or microbusinesses. To receive this preference the non-small business must satisfy the following criteria:
   a. Indicate in its proposal its commitment to subcontract at least 25% of its GMP with one or more small businesses [submit the “Request for Small Business Bidding Preference” form],
   b. Submit a timely and responsive proposal,
   c. Be determined to be a responsible proposer,
   d. Submit the California certified small businesses on the ‘List of Proposed Trade Contractors’ form that is provided in the proposal documents, and
   e. Submit the ‘List of Trade Contractors for CM at Risk Projects’ with the submission of the GMP, and specify the dollar amount of each small business trade contractor’s bid thereon.
2. Penalty.
The Trustees will impose a penalty to any non-small business who receives the small business preference and does not contract 25% of its net bid price to California certified small businesses and/or micro businesses. The imposed penalty will be two times the amount of the bid preference received. For example, if the CM received a bid preference of $49,000, and does not contract 25% of its net bid price with certified small businesses and/or micro businesses, then the Trustees will assess an amount to be forfeited by the CM of $98,000.

c. Trustees’ Reporting of Small Business Participation.
Responsive to direction from the State Legislature, the Trustees are seeking to report increased statewide participation of certified small businesses in contract awards. To this end, the successful Bidder shall inform the Trustees of any contractual arrangements with subcontractors, consultants or suppliers that are certified small businesses.

2.07 California Company; Reciprocal Preference Against Nonresident Contractors; Certification
The Trustees shall grant a California company a reciprocal preference as against a nonresident contractor from any state that gives or requires a preference to be given contractors from that state on its public entity construction contracts. The amount of the reciprocal preference shall be equal to the amount of the preference applied by the state of the nonresident contractor with the lowest responsive bid, except where the resident contractor is eligible for a California small business preference, in which case the preference applied shall be the greater of the two, but not both.

Each CM shall certify at the time of proposal opening that the CM qualifies as a “California company,” which means a business entity licensed in California on the date of bid opening and which is one of the following:

a. a business entity with its principal place of business in California,
b. an out-of-state contractor whose state does not provide a local contractor preference, or
c. an out-of-state contractor that has paid at least $5,000 in sales or use taxes in the immediately preceding five years.

If the CM does not qualify as a California company, then it shall indicate the name of the state in which its principal place of business is, and the amount of the local contractor preference in that state (Public Contract Code section 6107).
2.08 Disabled Veteran Business Enterprise Participation Requirement and Incentive

California state law requires that its state agencies achieve three (3) percent participation for disabled veteran business enterprises (DVBE) in state contracts. Failure of the CM to achieve three (3) percent DVBE participation in this Contract will cause the Trustees to assess a penalty in accordance with the Contract Documents.

DVBEs identified on the List of Trade Contractors for CM at Risk Projects form by the CM in the GMP may only be replaced by another DVBE, and the substitution must be approved by the Trustees and the Department of General Services (DGS). Trustees will document changes to the scope of Work that impact the DVBEs identified in the GMP by contract change order, and will provide their decision on DVBE substitutions in writing via the subcontractor substitution process per Public Contract Code section 4100.

Failure of CM to seek substitution and adhere to the DVBE participation level identified in its bid may be cause for Contract termination, recovery of damages under rights and remedies due the State, and penalties as outlined in Military and Veterans Code section 999.9 and Public Contract Code section 10115.10 or section 4110.

a. Special Definitions

(1) “Disabled veteran” as used herein, means a veteran of the military, naval or air service of the United States, including, but not limited to, the Philippine Commonwealth Army, the Regular Scouts, “New Scouts,” and who has at least a ten (10) percent service-connected disability and who is domiciled in the State of California.

(2) “Disabled veteran business enterprise contractor, subcontractor, or supplier” means a person or entity that has been certified by the Office of Small Business & DVBE Services and that performs a “commercially useful function,” as defined below, in providing services or goods that contribute to the fulfillment of the contract requirements:

(a) A person or an entity is deemed to perform a “commercially useful function” if a person or entity does all of the following:

(i) Is responsible for the execution of a distinct element of the Work of the contract;

(ii) Carries out the obligation by actually performing, managing, or supervising the Work involved;

(iii) Performs Work that is normal for its business services and functions.

(iv) Is responsible, with respect to products, inventories, materials, and supplies required for the Contract, for negotiating price, determining quality and quantity, ordering, installing, if applicable, and making payment; and

(v) Is not further subcontracting a portion of the Work that is greater than that expected to be subcontracted by normal industry practices.

(b) A contractor, trade contractor, or supplier will not be considered to perform a “commercially useful function” if the contractor’s, subcontractor’s, or supplier’s role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed in order to obtain the appearance of disabled veteran business enterprise participation.

(c) Equipment Brokers

(i) A DVBE that rents equipment to the Trustees shall be deemed to be an equipment broker, unless one or more disabled veterans have 51-percent ownership of the quantity and the value of each piece of equipment. If the equipment is owned by one or more disabled veterans, each disabled veteran owner shall, prior to performance under any contract, submit to the Trustees a declaration signed by the disabled veteran owner stating that the owner is a disabled veteran and providing the name, address, telephone number, and tax identification number of the disabled veteran owner.

(ii) A DVBE that rents equipment to the Trustees shall, prior to performing the contract, submit the Trustees a declaration signed by each disabled veteran owner and manager of the enterprise stating that the enterprise obtained the contract by representing that the enterprise was a DVBE meeting and maintaining all of the requirements of a DVBE. The declaration shall include the name, address, telephone number, and tax identification number of the owner of each piece of equipment identified in the contract.

(iii) State funds expended for equipment rented from equipment brokers pursuant to contracts awarded under this section shall not be credited toward the DVBE participation requirement.

(iv) A DVBE that is a broker or agent and that obtains a contract pursuant to these provisions shall, prior to performing the contract, disclose to the Trustees that the business is a broker...
or agent. The disclosure shall be made in a declaration signed and executed by each disabled veteran owner and manager of the enterprise, declaring that the enterprise is a broker or agent, and identifying the name, address, and telephone number of the principal for whom the enterprise is acting as a broker or agent.

(3) (a) DVBE as used herein, means a business concern certified by the Office of Small Business & DVBE Services as meeting all of the following:
   (i) The business is at least 51 percent owned by one or more disabled veterans, or in the case of a publicly owned business, at least 51 percent of its stock is unconditionally owned by one or more disabled veterans; a subsidiary that is wholly owned by a parent corporation, but only if at least 51 percent of the voting stock of the parent corporation is unconditionally owned by one or more disabled veterans; or a joint venture in which at least 51 percent of the joint venture’s management, control, and earnings are held by one or more disabled veterans.
   (ii) One or more disabled veterans manage and control the daily business operations. The disabled veterans who exercise management and control are not required to be the same disabled veterans as the owners of the business.
   (iii) A sole proprietorship, corporation, or partnership with its home office located in the United States, which is not a branch or subsidiary of a foreign corporation, foreign firm or other foreign-based business.

(b) Notwithstanding subdivision (3)(a), after the death or the certification of a permanent medical disability of a disabled veteran who is a majority owner of a business that qualified as a DVBE prior to that death or certification of a permanent disability, that business shall be deemed to be a DVBE for a period not to exceed three years after the date of that death or certification of a permanent medical disability, if the business is inherited or controlled by the spouse or child of that majority owner, or by both of those persons. A business is a DVBE pursuant to this subdivision under either of the following circumstances:
   (i) For the duration of any contract entered into prior to the death or certification of permanent medical disability for the sole purpose of fulfilling the requirements of that contract.
   (ii) After the date of the majority owner’s death or certification of permanent medical disability established by this subdivision for the sole purpose of providing sufficient time to make orderly and equitable arrangements for the disposition of the business, except that the business shall not enter into any new contract as a DVBE for purposes of the program if the contract would not be completed within the three-year period.

b. Participation Requirement.
In order to satisfy and be responsive to this requirement, the CM must meet the three (3) percent DVBE Participation requirement, which is attained when:
(1) The CM is not a DVBE and is committed to use DVBE trade contractors for not less than three (3) percent of the Contract dollar amount (including alternatives); or
(2) The CM is a DVBE and is committed to performing not less than three (3) percent of the Contract dollar amount (including alternatives) with its own forces or in combination with those of other DVBEs.

c. Documentation Requirements.
The CM must document its satisfaction of the DVBE participation requirement. Final determination of DVBE Participation by the CM shall be at the Trustees’ sole discretion.
(1) Required Documentation.
   In addition to documentation submitted with the GMP, on the List of Trade Contractors for CM at Risk Projects form (see Article 2.05-b), the DVBE documentation forms that must be completed are as follows, and instructions for completing the required forms correctly are included to assist the CM.
   (a) DVBE Transmittal Form.
      CM must fill out the DVBE transmittal form as a cover sheet to the required documents, attach and submit it and the additional required documentation. All requested DVBE documentation must be completed on the forms provided and submitted with the DVBE Transmittal Form.
   (b) Summary of Disabled Veteran Owned Business Participation (Attachment 1).
      Summary of Disabled Veteran Owned Business Participation, Attachment 1, must be completed showing the type of Work and company proposed for DVBE participation, their trade contractors (if any), and other related information. Complete the form providing the information as follows:
(i) Company Name: List the name of the company proposed for DVBE participation. If the prime contractor is a DVBE, its name must also be listed to receive participation credit.

(ii) Nature of Work: Identify the proposed Work or service to be provided by the listed company.

(iii) Contracting With: List the name of the party with which the company listed is contracting.

(iv) Tier: Identify the contracting tier using the following level designations:
   0=Prime contractor;
   1=First tier trade contractor/supplier;
   2=Second tier subcontractor/supplier of first tier subcontractor/supplier;
   3=Third tier subcontractor/supplier of second tier subcontractor/supplier; etc.

(v) Claimed DVBE Value: State the total dollar amount of the DVBE’s bid.

(vi) Percentage of Bid: State the percentage (%) of the claimed DVBE’s bid as it relates to the CM’s total project bid.

(vii) DVBE Certification: The CM must include one copy of the DVBE certification from the Office of Small Business & DVBE Services for each DVBE listed on the Summary of Disabled Veteran Owned Business Participation.

(c) CM’s Certification (Attachment 2).
   The CM must sign and include the Bidder’s Certification, certifying that each DVBE listed on the Summary of Disabled Veteran Owned Business Participation (Attachment 1) complies with the legal definition of DVBE.

(d) Disabled Veteran Business Enterprise Declarations (STD. 843).
   The disabled veteran owner(s) and disabled veteran manager(s) of the DVBE must complete this declaration when a DVBE contractor or trade contractor will provide materials, supplies, services or equipment.

(2) Time Frame for Submitting Documentation.
   The DVBE participation documentation must be submitted to the Construction Administrator with the GMP. Failure to submit full and accurate documentation will result in the Trustees deeming your GMP nonresponsive, and thus eligible for a penalty assessment as identified in the Contract Documents.

 d. Use of Proposed DVBE.
   If awarded the Contract, the successful CM must use the DVBE suppliers and/or trade contractors proposed in its GMP unless it has requested substitution and has received approval of the Trustees in compliance with the Subletting and Subcontracting Fair Practices Act. See Article 4.04, Substitution of Trade Contractors, subsection c-Substitution of a Disabled Veteran Business Enterprise.

e. Trustees’ Reporting of DVBE Participation.
   Responsive to direction from the State Legislature, the Trustees are seeking to report increased statewide participation of DVBE in contract awards. To this end, the successful CM shall inform the Trustees of any contractual arrangements with trade contractors, consultants or suppliers that are certified DVBE.

f. Additional DVBE Information Sources.
   For more information regarding DVBE certification, copies of directories or for general DVBE information, contact:
   State of California, Department of General Services, Procurement Division
   Office of Small Business & Disabled Veteran Business Enterprise Services (OSDS), Room 1-400, MS 210
   P.O. Box 989052, West Sacramento, CA 95798-9052 (mailing address)
   707 Third Street, First Floor, Room 400, West Sacramento, CA 95605 (physical address)
   Telephone number: (800) 559-5529 or (916) 375-4940; Fax number: (916) 375-4950
   E-mail: osdshelp@dgs.ca.gov Or, via the Internet: http://www.dgs.ca.gov/pd/Programs/OSDS.aspx.

g. Incentive.
   In accordance with Government Code section 14838(f), and Military and Veterans Code sections 999.5(a) and 999.5(d), the Trustees are granting a bid incentive for bid evaluation purposes only to Bidders that exceed the three percent DVBE participation requirement. The level of DVBE incentive will correlate to the level of participation; that is, the more DVBE participation proposed, the higher the incentive. The bid incentives are identified in the Proposal Documents.

   The DVBE incentive may not exceed $100,000. When used on combination with the Small Business Preference, the cumulative adjustment amount shall not exceed $100,000. If the lowest responsive, responsible bid is a California
certified small business, for bid evaluation purposes only, the only bidders eligible for the incentive will be California certified small businesses.

h. Prime Contractor’s DVBE Subcontracting Report (Form DVBE Subcontracting Report).
   (1) CM shall submit a DVBE Subcontracting Report to the Trustees at the end of the Project and upon completion of the Work, with the final retention payment.
   (2) In submitting the DVBE Subcontracting Report, the CM certifies the following:
       (a) The total amount CM received from the Trustees under the Contract,
       (b) The name and address of the DVBE(s) that participated in the performance of the Contract,
       (c) The total contracted amount for each DVBE,
       (d) The total payment amounts made to the DVBEs, and
       (e) The actual percentage of DVBE participation that was achieved for this Contract.

A person or entity that knowingly provides false information shall be subject to a civil penalty for each violation in accordance with Military and Veterans Code section 999.5(d).

i. Sanction for CM’s Failure to Achieve the DVBE Incentive.
   The Trustees will sanction any Contractor (CM) who receives the DVBE incentive and does not contract the incentive percentage dollar amount of its net GMP to DVBEs.

   If by the end of construction the CM does not realize the incentive DVBE percentage identified in its technical proposal, the Trustees shall assess an amount of $50,000 per one percent shortfall down to the minimum of three percent (3%), prorated, and deduct it from the Contract Amount due.

3.00 - AWARD AND EXECUTION OF CONSTRUCTION CONTRACT

3.01 Award of Construction Contract
   If the Trustees and the CM agree to a Guaranteed Maximum Price, the Trustees shall award a Contract to the CM to construct the Project for the aggregate of direct cost of the Work, as defined in Article 8.03, Direct Construction Cost of the Work, plus the CM’s fee for construction phase services, as defined in Article 8.04, Construction Phase Services, CM’s contingency, and overhead and profit included in the response to the Request for Proposals. If there is no concurrence on the Guaranteed Maximum Price, the Trustees shall not award a Contract to the CM and may procure the construction of the Project by other means.

3.02 Contract Bonds
   The CM shall furnish, for each counterpart signed, two surety bonds in the form prescribed by the Trustees. Each bond shall be in an amount equal to 100 percent of the awarded Contract price and executed by an admitted surety insurer licensed in the State of California and listed in the latest published United States Treasury Department list of “Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and as Acceptable Reinsuring Companies.” Reference the following websites:
   • State of California Department of Insurance: http://interactive.web.insurance.ca.gov/companyprofile/companyprofile, and

   One of the surety bonds shall guarantee faithful performance of the Contract by the CM and the other shall secure payment of laborers, mechanics, or materialmen employed on the Project. Such bonds are subject to the approval of the Trustees. Contract bonds shall remain in full force and effect during the term of the Contract including the one-year guarantee period, and through the ten-year limit on latent defects (Public Contract Code sections 10821-10824, Code of Civil Procedure section 337.15).

   The Trustees shall make all alterations, extensions of time, extra and additional Work, and other changes authorized by the Contract, including determinations made under Article 7.01, Claims, without securing the consent of the surety or sureties on the Contract bonds.

   Whenever the Trustees have cause to believe that the surety has become insufficient, the Trustees may demand in writing that the CM provide such further bonds or additional surety, as in the Trustees’ opinion is necessary, considering the extent of the Work added or remaining to be done. Thereafter the Trustees shall make no payment to the CM or any assignee of the CM until the further bonds or additional surety has been furnished (Public Contract Code section 10825).

3.03 Execution of Contract
   The CM shall sign each Contract counterpart and return the Contract counterparts to the Trustees, together with the Contract bonds and certification, along with other requisite documentation such as the Subcontractor Directory and certificates evidencing the required insurance coverage (see Article 4.07, CM’s Insurance) within ten (10) Business Days of receipt from
the Trustees. Reference the following Article 3.04 for failure of CM to execute the Contract timely. If the CM is a joint venture, then the joint venture shall submit with the Contract certification form a formal resolution designating the person authorized to sign on behalf of the joint venture. The CM and the Trustees shall each sign two sets of plans, specifications, and addenda (usually at the preconstruction conference) one set for each party to be filed with the Contract. No Contract shall be binding upon the Trustees until it has been executed by the CM and the Trustees and approved by the Trustees’ attorney (in the Office of General Counsel) appointed according to law and authorized to represent the Trustees (Public Contract Code section 10820).

After the Trustees’ attorney has fully executed the Contract, CM can expect to start Work within 30 Days. The Trustees will issue to the CM a written Notice to Proceed. CM may not begin Work before receiving the Trustees’ written Notice to Proceed. Any Work performed by the CM before the Project start date as specified on the written Notice to Proceed shall be considered as having been done at the CM’s own risk.

3.04 Failure or Refusal to Execute Contract
Failure or refusal by the CM to execute the Contract within the time set in Article 3.03, Execution of Contract, shall be just cause for the Trustees’ rescission of the award. Failure or refusal to file acceptable bonds and insurance within the time set in Article 3.03, Execution of Contract, constitutes a failure or refusal to execute the Contract.

4.00 - CONDUCT OF THE WORK

4.01 Laws to be Observed - Generally
The CM shall observe all state and federal laws that affect the Work under this Contract. The CM shall hold harmless, defend and indemnify the Trustees against any claim arising from the violation of any law, whether by itself or its agents, employees or trade contractors. If a conflict arises between the provisions of this Contract and a law, the CM shall immediately notify the Architect and the Construction Administrator in writing. “Law” as used in this paragraph includes statutes and regulations adopted pursuant to statute, as well as executive orders, authoritative interpretations, and other rules and directives issued by legally constituted authority.

b. National Labor Relations Board – Compliance with Order.
In executing this Contract, the CM swears, under penalty of perjury, that no more than one final, unappealable finding of contempt of court by a federal court has been issued against the CM within the immediately preceding two-year period because of the CM’s failure to comply with an order of a federal court which directs the CM to comply with an order of the National Labor Relations Board. The Trustees may rescind this Contract if CM falsely swears to this statement. See Public Contract Code section 10296.

The CM acknowledges the policy of the state of California regarding the importance of child and family support obligations expressed in Public Contract Code section 7110(a). The CM acknowledges that to the best of its knowledge, it is fully complying with the earnings assignment orders of all employees and is providing the names of all new employees to the New Hire Registry that the State’s Employment Development Department maintains.

d. Audit Provisions.
The contracting parties shall be subject to examination and audit by both the Trustees (or designee) of the California State University and the Auditor General of the State of California at any time during construction and for a period of three (3) years after final payment of the Contract. See Government Code section 8546.7. Such examination and audit shall include access to the CM and the trade contractor records as delineated in the following:

(1) The CM’s records which shall include but not be limited to accounting records (hard copy, as well as computer readable data if it can be made available), written policies and procedures; trade contractor files (including proposals of successful and unsuccessful bidders, bid recaps, etc.), original estimates; estimating worksheets; correspondence; change order files (including documentation covering negotiated settlements); back charge logs and supporting documentation; general ledger entries detailing cash and trade discounts earned, insurance rebates and dividends; and any other supporting evidence deemed necessary by the Trustees/Auditor General to substantiate charges related to this Contract (all foregoing hereinafter referred to as “records”) and shall be open to inspection and subject to audit and/or reproduction to adequately permit evaluation and verification of (a) the CM’s compliance with Contract requirements and (b) compliance with provisions for pricing change orders, payments or claims submitted by the CM or any of his payees. The CM is required to have as part of the records the following reports: a detailed cost ledger reflecting total charges against the Project which present an itemization by invoice and labor costs by cost codes; a summary report identifying total Project costs by cost codes; and a trade contractor history report including each subcontract amount and change orders issued thereto.
(2) Inspection and copying from time to time and at reasonable times and places any and all information, materials and data of every kind and character, including but not limited to records, books, papers, documents, subscriptions, recordings, agreements, purchase orders, leases, contracts, commitments, arrangements, notes, daily diaries, superintendent reports, drawings, receipts, vouchers and memoranda, and any and all other agreements, sources of information and matters that may have any bearing on or pertain to any matters, rights, duties or obligations under or covered by any Contract Document. Such records subject to audit shall also include, but not be limited to, those records necessary to evaluate and verify direct and indirect costs, (including overhead allocations) as they may apply to costs associated with this Contract.

(3) The Trustees/Auditor General shall be allowed to interview any of the CM’s employees, pursuant to the provisions of this Article throughout the term of this Contract and for a period of three years after final payment or longer if required by law.

(4) The CM shall require all trade contractors, insurance agents, and material suppliers (payees) to comply with the provisions of this Article by insertion of the requirements hereof in a written agreement between the CM and payee. Such requirements will also apply to trade contractors and subcontractors, etc. The CM will cooperate fully and will cause all related parties and all of the CM’s trade contractors (including those entering into lump sum subcontracts) to cooperate fully in furnishing or in making available to Trustees/Auditor General from time to time whenever requested in an expeditious manner any and all such information, materials and data.

(5) The Trustees/Auditor General shall have access to the CM’s facilities, shall be allowed to interview all current or former employees to discuss matters pertinent to the performance of this Contract, shall have access to all necessary records, and shall be provided adequate and appropriate Work space, in order to conduct audits in compliance with this article.

(6) If an audit inspection or examination in accordance with this article, discloses overcharges (of any nature) by the CM to the Trustees in excess of one-half of one percent (.5%) of the total Contract billings, the reasonable actual cost of the Trustees/Auditor General audit shall be reimbursed to the Trustees by the CM. Any adjustments and/or payments which must be made as a result of any such audit or inspection of the CM’s invoices and/or records shall be made within a reasonable amount of time (not to exceed 90 Days) from presentation of the Trustees/Auditor General findings to CM.

(7) If an audit discloses overcharges on change orders, where a CM has submitted costs and has received payment of costs for a trade contractor's Work, but has not passed on such payment to the trade contractor (including mark-up charged), and the CM’s records do not reflect offsetting back charges, the CM shall reimburse the Trustees for such overcharges upon receipt of a request from the Trustees.

e. Building Codes.
The CM’s Work under this Contract shall comply with the building codes identified in the Contract Documents.

If the CM is a natural person, the CM certifies in accepting this Contract that he or she is a citizen or national of the United States or otherwise qualified to receive public benefits under the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L. 104-193; 110 STAT. 2105, 2268-69).

g. Declaration of Eligibility to Contract with the State.
If the CM is a corporation, the CM certifies and declares by signing the Agreement that it is eligible to Contract with the state of California pursuant to the California Taxpayer and Shareholder Protection Act of 2003 (Public Contract Code section 10286 et seq.).

4.02 Laws to be Observed—Regarding Labor
a. Prevailing Wage.
The Work under this Contract is a public works project (see definition of public works, Labor Code section 1720 et seq.) and must be performed in accordance with the requirements of Labor Code sections 1720 to 1815 and Title 8 California Code of Regulations sections 16000 to 17270, which govern the payment of prevailing wage rates on public works projects. This Project is subject to compliance monitoring and enforcement by the Department of Industrial Relations (DIR). CM and all subcontractors must comply with all applicable laws and regulations, and perform all obligations required by the DIR pursuant to such authority.

The prevailing wage rates set forth are the minimum that must be paid by the CM on a public works contract. Nothing herein contained shall be construed as preventing the CM from paying more than the minimum rates set forth. If a worker employed by a subcontractor on a public works project is not paid the general prevailing per diem wages by the subcontractor, the CM is liable for any penalties under section 1775(a), if the CM fails to comply with the
requirements of section 1775(b). CM shall periodically review and monitor all subcontractors’ certified payroll records. If CM learns that any subcontractor has failed to comply with the prevailing wage requirements herein, CM shall take corrective action.

CM represents and warrants that the Contract Amount includes sufficient funds to allow CM and all subcontractors to comply with all applicable laws and contractual agreements. CM shall defend, indemnify and hold the Trustees of the California State University, the University, its officers, employees and agents harmless from and against any and all claims, demands, losses, liabilities, and damages arising out of or relating to the failure of CM or any trade contractor or any subcontractor to comply with any applicable law in this regard, including, but not limited to, Labor Code section 2810. CM agrees to pay any and all assessments, including wages, penalties and liquidated damages (those liquidated damages pursuant to Labor Code section 1742.1) made against the Trustees in relation to such failure.

(1) Hours of Labor.
Eight (8) hours of labor constitutes a legal day’s work. The CM or any subcontractor shall forfeit, as a penalty to State, $25.00 for each worker employed in the execution of the Contract by the CM or any subcontractor, for each Day during which the worker is required or permitted to work more than eight hours in any one Day and forty hours in any one calendar week, in violation of the provisions of the Labor Code sections 1810 to 1814, thereof, inclusive. Notwithstanding the provisions of Labor Code sections 1810 to 1814, Work performed by employees of the CM or any subcontractor in the execution of the Contract in excess of eight hours per Day, and forty hours during any one week, shall be permitted upon compensation for all hours worked in excess of eight hours per Day at not less than one and one-half times the basic rate of pay as provided in Labor Code section 1815.

(2) If it becomes necessary to employ crafts other than those listed, the CM shall notify the Trustees immediately, and the Trustees will ascertain additional prevailing rates and the rates thus determined shall be applicable as minimum from time of initial employment.

(3) Pursuant to Labor Code section 1770, the Director of the DIR has ascertained the general prevailing rate of per diem wages and the general prevailing rate for legal holiday and overtime Work for each craft needed in execution of the Contract as set forth in the Notice to Contractors. CM shall post a schedule showing all applicable prevailing wage rates at appropriate and conspicuous locations on the Project site in accordance with Labor Code section 1773.2. The Trustees shall maintain copies of the prevailing rate of per diem wages, and shall make them available to any interested party upon request. CM shall also post job site notices as required by the DIR pursuant to Labor Code section 1771.4 (a) (2) and applicable regulations.

(4) The CM and any subcontractor under subcontract to the CM on the Project shall comply with Labor Code section 1775, and the CM shall include provisions in its Contract with its subcontractors that will require compliance with Labor Code section 1775. As required by section 1775(b) the CM shall include a copy of the provisions of sections 1771, 1775, 1776, 1777.5, 1813, and 1815 in the Contract between the CM and the subcontractor. The CM shall monitor its subcontractors’ compliance with the prevailing wage law as required by section 1775(b). In accordance with section 1775, the CM and any subcontractor under the CM shall forfeit as a penalty to the State not more than $200 for each Day or portion thereof, for each worker paid less than the prevailing wage rates for the work or craft in which the worker is employed for any public work done under the Contract by it or, except as provided in section 1775(b), by any subcontractor under it. In addition to this penalty, the CM or subcontractor shall pay each worker the difference between the prevailing wage rates and the amount paid to each worker for each Day or portion thereof for which each worker was paid less than the prevailing wage rate.

(5) In accordance with Labor Code section 1776, the CM and subcontractors shall keep an accurate payroll record on forms provided by the Division of Labor Standards Enforcement (or shall contain the same information as the forms provided by the division). The payroll records may consist of printouts of payroll data that are maintained as computer records, if the printouts contain the same information as the forms provided by the division, and the printouts are verified in the manner specified herein. Payroll records shall show the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and actual per diem wages paid to each journeyman, apprentice or worker employed in connection with the public work. Each payroll record shall contain verification by written declaration under penalty of perjury that the information contained in the payroll record is true and correct and that the CM and subcontractors have complied with the requirements of Labor Code sections 1771, 1776, 1777.5, 1811 and 1815 for any work performed by its employees on the Project.
(a) The CM and all subcontractors must furnish payroll records to the Labor Commissioner at least monthly and in a format prescribed by the Labor Commissioner, as required by Labor Code section 1776.

(b) The CM and subcontractors’ certified payroll records shall be available for inspection at all reasonable hours or certified copies furnished upon request to the following requesting parties:
   (i) The employee or his or her authorized representative,
   (ii) The Trustees, the Division of Labor Standards Enforcement (DLSE), the Division of Apprenticeship Standards (DAS),
   (iii) The public; however, a request by the public shall be made through the Trustees or the DLSE or DAS. If the requested payroll records have not been provided pursuant to paragraph (ii) above, the CM shall collect from the requesting party the costs of preparation by the contractor, subcontractors, and the Trustees. The public may not be given access to the records at the principal office of the CM.

(c) Records made available for inspection as copies and furnished upon request to the public or any public agency by the Trustees or the DLSE or the DAS shall be marked or obliterated to prevent disclosure of an individual’s name, address, and social security number. The name and address of the CM or subcontractor awarded the contract or subcontractor performing the contract shall not be marked or obliterated.

(d) Any copy of records made available for inspection by, or furnished to, a multiemployer Taft-Hartley trust fund (29 U.S.C. Sec. 186(c) (5)) that requests the records for the purposes of allocating contributions to participants shall be marked or obliterated only to prevent disclosure of an individual’s full social security number, but shall provide the last four digits of the social security number.

(e) Any copy of records made available for inspection by, or furnished to, a joint labor-management committee established pursuant to the federal Labor Management Cooperation Act of 1978 (29 U.S.C Sec. 75a) shall be marked or obliterated only to prevent disclosure of an individual’s social security number.

(f) Any copy of records made available for inspection by, or furnished to, agencies that are included in the Joint Enforcement Strike Force on the Underground Economy established pursuant to section 329 of the Unemployment Insurance Code, and other law enforcement agencies investigating violations of law shall, upon request, be provided nonredacted copies of certified payroll records. Any copies of records or certified payroll made available for inspection and furnished upon request to the public by an agency included in the Joint Enforcement Strike Force on the Underground Economy or to a law enforcement agency investigating a violation of law shall be marked or redacted to prevent disclosure of an individual’s name, address, and social security number.

(g) The CM or subcontractor shall file a certified copy of the payroll records with the requesting entity within 10 Days after receipt of a written request. In the event the CM or subcontractor fails to comply within the 10-Day period, the CM or subcontractor shall, as penalty to the state or Trustees, forfeit one hundred dollars ($100) for each Day, or portion thereof, for each worker, until strict compliance is effectuated. Upon the request of the DLSE or the DAS, these penalties shall be withheld from progress payments then due. The CM is not subject to a penalty assessment pursuant to this section due to the failure of a subcontractor to comply with this section. A contractor or subcontractor may be subject to debarment by the Labor Commissioner for failure to submit certified payrolls timely.

(6) The CM is required to submit to the Trustees a minimum of the first two weeks of certified payroll and the Hourly Labor Rate Worksheet for its workers and all subcontractors included in change orders. Additional weeks of certified payroll records may be required at the discretion of the Trustees.

(7) Consistent with Public Contract Code section 6109, the CM is prohibited from performing a portion of Work with a subcontractor who is debarred pursuant to Labor Code section 1777.1 or 1777.7.

(8) Apprentices. If the CM or any subcontractor employs workers on the Project in any apprenticeable craft, it may apply to any apprenticeship program in the craft in the area of the Work for a certificate approving the CM or subcontractor for the employment and training of apprentices. The CM or subcontractor shall employ the number of apprentices or the ratio of apprentices to journeymen specified in the certificate unless the conditions set out in Labor Code section 1777.5 excuse it from this requirement.
Every apprentice shall be paid the standard wage paid to apprentices under the regulations of the craft or trade in which they are employed and shall be employed only in the Work of the craft or trade to which they are indentured. The employment and training of each apprentice shall be in accordance with the provisions of the apprenticeship agreements under which a person is training.

The CM or subcontractor employing journeymen or apprentices in any apprenticeable craft or trade shall contribute to the fund or funds set up in the area of Work to administer the apprenticeship program in each trade in which it employs such journeymen or apprentices in the same amount and manner as the contributing contractors.

Special attention is directed to Labor Code sections 1777.5, 1777.6 and 1777.7, and California Code of Regulations, Title 8, section 200 et seq. Each Contractor and subcontractor must, before commencement of Work under this Contract, contact the Division of Apprenticeship Standards, 455 Golden Gate, 8th Floor, San Francisco, California, 94102, or one of its branch offices to ensure compliance and understanding of the law regarding apprentices and specifically the required ratio thereunder. Responsibility for compliance with this section lies with the prime Contractor (CM).

CM or subcontractor’s failure to comply with Labor Code section 1777.5 may result in penalties or debarment pursuant to Labor Code section 1777.7.

b. Nondiscrimination

(1) During the performance of the Contract, the CM and its trade contractors shall not deny the Contract’s benefits to any person on the basis of religion, color, ethnic group identification, sex, age, physical or mental disability, nor shall they discriminate unlawfully against any employee or applicant for employment because of race, religion, color, national origin, ancestry, physical handicap, mental disability, medical condition, marital status, age (over 40) or sex. CM shall insure that the evaluation and treatment of employees and applicants for employment are free of such discrimination.

(2) CM shall comply with the provisions of the Fair Employment and Housing Act (Government Code section 12900 et seq.), the regulations promulgated thereunder (Title 2, California Code of Regulations, section 7285 et seq.) and the provisions of Article 9.5, Chapter 1, Part 1, Division 3, Title 2, sections 11135-11139.5 of the Government Code.

(3) CM shall permit access by representatives of the Department of Fair Employment and Housing and the Trustees upon reasonable notice at any time during the normal business hours, but in no case less than 24 hours’ notice, to such of its books, records, accounts, other sources of information, and its facilities as said Department or Trustees shall require to ascertain compliance with this clause.

(4) CM and its trade contractors shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreement.

(5) CM shall include the nondiscrimination and compliance provisions of this clause in all trade contracts to perform Work under the agreement (Title 2, California Code of Regulations, section 8107).

c. Workers’ Compensation.

The CM shall be required to secure payment of Workers’ Compensation to its employees in accordance with Labor Code section 3700 and shall file with the Trustees prior to performing the Work the certification required in Labor Code section 1861. Refer also to Article 4.07-a, Policies and Coverage.

d. Education, Counseling, and Training Programs.

All educational, counseling and vocational guidance programs and all apprenticeship and on-the-job training programs, under this Contract, shall be open to all qualified persons, without regard to race, sex, color, religion, national origin or ancestry. Such programs shall be conducted to encourage the fullest development of the interests, skills, aptitudes, and capacities of all students and trainees, with special attention to the problems of culturally deprived, educationally handicapped, or economically disadvantaged persons. Expansion of training opportunities under these programs shall also be encouraged with a view towards involving larger numbers of participants from these segments of the labor force where the need for upgrading levels of skills is the greatest.

e. Occupational Safety and Health.

The CM shall comply with all the provisions of the Federal Occupational Safety and Health Act of 1970 (29 U.S.C. section 651 et seq.) and all rules, regulations, and orders adopted pursuant thereto. The CM shall comply with all the provisions of the California Occupational Safety and Health Act of 1973 (Labor Code section 6300 et seq.) and all rules, regulations and orders adopted pursuant thereto. These laws provide for job safety and health protection for workers.
The CM shall obtain copies of such safety orders as are applicable to the type of Work to be performed and shall be governed by their requirements in all construction operations. The CM shall fully inform each trade contractor and materials supplier as to the requirements of the applicable safety orders.

The CM and all trade contractors shall be bound by the provisions of Public Contract Code section 7103.5 as follows: in entering into a public works contract or a subcontract to supply goods, services, or materials pursuant to a public works contract, the CM and trade contractors offer and agree to assign to the Trustees all rights, title, and interest in and to all causes of action it may have under section 4 of the Clayton Act (15 U.S.C. section 15) or under the Cartwright Act (Chapter 2, (commencing with section 16700) of Part 2 of Division 7 of the California Business and Professions Code), arising from purchases of goods, services, or materials pursuant to the public works contract or the subcontract. This assignment shall be made and become effective at the time the Trustees tender final payment to the CM, without further acknowledgment by the parties.

4.03 Environmental Requirements
Mitigation Monitoring and Reporting Programs (MMRP), which are included in California Environmental Quality Act (CEQA) documentation, provide a description of required mitigation measures associated with California State University capital projects. The CM shall implement those mitigation measures in the MMRP for which the CM has been designated the responsible party. In addition, the CM shall comply with the following environmental requirements.

a. Air Pollution Control.
The CM shall comply with all air pollution control rules, regulations, ordinances and statutes which apply to the Work performed under the Contract, including any air pollution control rules, regulations, ordinances and statutes adopted under the authority of section 11017 of the Government Code. CM must be eligible to perform work for the State, and is deemed eligible if not found to be in violation of any order, resolution, or regulation relating to air or water pollution adopted in accordance with Government Code section 4477.

(1) Solvents.
In the absence of any applicable air pollution control rules, regulations, ordinances or statutes governing solvents, the CM shall ensure that all solvents, including but not limited to the solvent portions of paints, thinners, curing compounds, and liquid asphalt used on the Project, comply with the applicable material requirements of the Air Quality Management District (AQMD). All containers of solvent, paint, thinner, curing compound or liquid asphalt shall be labeled to indicate that the contents fully comply with these requirements.

(2) Disposal of Material.
Unless otherwise provided in the special provisions, material to be disposed of shall not be burned either inside or outside the premises.

(3) Fugitive Dust.
A regular watering program shall be initiated to adequately control the amount of fugitive dust in accordance with applicable AQMD rules. Exposed soil surfaces shall be sprayed with water at least daily and as needed to mitigate dust (see also Article 4.09-c, Protection of Facilities).

(4) Construction Vehicles and Equipment.
Trucks hauling dirt from the site shall be covered in accordance with applicable state and local requirements. To reduce exhaust emissions, unnecessary idling of construction vehicles and equipment shall be avoided.

Construction equipment shall be fitted with modern emission control devices and shall be kept in proper tune.

b. Water Pollution Control.
The CM shall have design-build responsibilities to comply with all water pollution control rules, regulations, ordinances and statutes that apply to the Work performed under the Contract, including the California General Permit (NPDES) 2009-009-DWQ for Storm Water Discharges Associated with Construction Activities issued by the California State Water Resources Control Board (SWRCB) and as modified by order 2010-0014-DWQ, also issued by the SWRCB.

(1) Storm Water Pollution Prevention Plan.
The CM shall develop and implement a Storm Water Pollution Prevention Plan (SWPPP) that complies with the State of California Construction General Permit for Storm Water Discharges.

The CM shall contract for, or have on payroll, a California Certified Qualified SWPPP Developer (QSD). The CM shall be responsible for hiring or contracting for the services of a California certified Qualified SWPPP Practitioner (QSP).

The CM shall pay all costs associated with development and implementation of the SWPPP. [See Specifications for additional requirements.]
Compliance.
The CM shall comply with the California General Permit for Waste Discharge Requirements for Storm Water Discharges from Small Municipal Separate Storm Sewer Systems (MS4s), Order Number 2013-0001-DWQ. The CM shall comply with the University's Post Construction Storm Water Management Program requirements.

Post Construction Storm Water Management Program Best Management Program Practice (BMP) details shall be designed by a competent individual licensed to practice as a Civil Engineer in California.

Maintenance Manual for Post-construction BMPs.
The CM shall incorporate into the Project a maintenance program for post-construction BMPs that will be permanent components of the completed project. The maintenance program shall be delivered in a bound manual. The manual shall meet the requirements described in the California Stormwater Quality Association (www.casqa.org) New Development & Redevelopment BMP Handbook.

c. Sound Control Requirements.
The CM shall comply with all sound control and noise level rules, regulations and ordinances that apply to the Work. In the absence of any such rules, regulations and ordinances, the CM shall conduct its Work to minimize disruption to others due to sound and noise from the workers, and shall be responsive to the Trustees’ requests to reduce noise levels.

The CM shall not cause or allow sounds to be produced in excess of 65 decibels measured at the job site between the hours of 7:00 p.m. and 7:00 a.m. The CM shall not cause or allow sounds to be produced in excess of 85 decibels measured at the job site between the hours of 7:00 a.m. and 7:00 p.m. without the consent of the University.

Each internal combustion engine, used for any purpose on the Project or related to the Project, shall be equipped with a muffler of a type recommended by the manufacturer. No internal combustion engine shall be operated on the Project without a muffler.

Loading and unloading of construction materials will be scheduled to minimize disruptions to University activities. Construction activities will be scheduled to minimize disruption to the University and to University users.

d. Environmental Clearances.
The CM shall provide to state and federal agencies all information necessary for environmental clearances and other authorizations necessary for this Project. The CM shall comply with the provisions, including giving notices during construction when so required. The Trustees shall not compensate the CM for the delays in obtaining environmental clearances and authorizations. However, the Trustees will grant an appropriate extension of time, in accordance with the provisions in Article 4.16-g, Adjustment of Contract Time Due to Reasons Beyond Trustees’ Control, of these General Conditions, if the CM demonstrates to the satisfaction of the Trustees that it has made every reasonable effort to obtain the requisite clearance or authorizations, and cannot obtain it in a timely manner.

e. Source of Aggregates.
The Public Contract Code section 10295.5 requires that no State agency shall purchase or utilize sand, gravel, aggregates, or other minerals unless the source is on an eligible list identifying operations that have met certain requirements of the Surface Mining and Reclamation Act of 1975 (Public Resources Code section 2710 et seq.). Accordingly, the CM shall submit to the Trustees documentation that it is complying with the requirements of this law in purchasing these materials.

f. Archaeological Finds.
If the CM discovers any artifacts during excavation and/or construction, the CM shall stop all affected Work and notify the Trustees, who will call in a qualified archaeologist designated by the California Archaeological Inventory to assess the discovery and suggest further mitigation, as necessary.

If the CM discovers human remains, the CM shall notify the Trustees who will be responsible for contacting the county coroner and a qualified archaeologist. If the remains are determined to be Native American, the Trustees shall contact the appropriate tribal representatives to oversee removal of the remains.

g. Integrated Waste Management.
Pursuant to the State Agency Integrated Waste Management Plan (Public Resources Code, Division 30, Part 3, Chapter 18.5), the California State University shall divert 50% of all solid waste generated in construction activities from landfill disposal or transformation facilities through source reduction, recycling and composting. CM shall report all source reduction, recycling and composting relative to this Project to the Trustees. Refer to Specifications for further requirements.
4.04 Substitution of Trade Contractors
The CM shall not substitute any trade contractor in place of a trade contractor identified and agreed upon at the time of agreeing to the Guaranteed Maximum Price except as authorized by law, which requires approval of the Trustees.

a. Bond Requirements.
It is the Trustees’ interpretation of section 4108 of the Public Contract Code that the CM must clearly advertise the specific bond requirements for the Project, including the requirement of a bond, the kind of a bond, and the amount of the bond, in order to be eligible to substitute a trade contractor or subcontractor under section 4107(a) (4) of the Public Contract Code.

b. Substitution of a Small Business Trade Contractor.
After award of the Contract based in part on the application of the small business preference, the Non-Small Business CM shall use the small business trade contractors, subcontractor(s) and/or suppliers listed in its GMP unless a substitution is requested in writing to the Trustees, and the Trustees approve the substitution in writing before the commencement of any Work. The substitution request must include at least the following:
(1) An explanation of the reason for the substitution.
(2) The CM must substitute a small business with another small business. If the small business substitution cannot occur, the CM must include a written justification and the steps that were taken to try to acquire a new small business trade contractor and how that portion of the Contract will be fulfilled.
(3) A description of the Work to be performed, identified both as a task(s) and as a dollar amount or percentage of the overall Contract that the substituted business will perform. The substituted business(es), if approved, shall be required to perform a commercially useful function in the Contract pursuant to Title 2, California Code of Regulations section 1896.6.

Any substitution of trade contractors shall be performed in accordance with the Subletting and Subcontracting Fair Practices Act (Public Contract Code section 4100 et seq.). Failure of the CM to subcontract with the small business listed on its List of Proposed Trade Contractors form or to follow these substitution requirements may be grounds for the Trustees to notify the Department of General Services to impose sanctions pursuant to Government Code section 14842.5 or Title 2, California Code of Regulations, section 1896.16. In the event such sanctions are to be imposed, the CM shall be notified in writing and entitled to a hearing pursuant to Title 2, California Code of Regulations, sections 1896.18 and 1896.20.

c. Substitution of a Disabled Veteran Business Enterprise.
After agreement on the GMP, the CM shall use the Disabled Veteran Business Enterprise (DVBE) trade contractors, subcontractor(s) and/or suppliers listed in its GMP unless a substitution is requested in writing to the Trustees, and the Trustees and the Department of General Services (DGS) approve the substitution in writing before the commencement of any work. The substitution request must include at least the following:
(1) An explanation of the reason for the substitution.
(2) A written description of the business enterprise to be substituted, including its business status as a sole proprietorship, partnership, corporation or other entity, and the DVBE certification status of the firm, if any.
(3) The CM must substitute a DVBE with another DVBE. If the DVBE substitution cannot occur, the CM must include a written justification and the steps that were taken to try to acquire a new DVBE trade contractor and how that portion of the contract will be fulfilled.
(4) A description of the work to be performed identified both as a task(s) and as a dollar amount or percentage of the overall contract that the substituted business will perform.

The request for substitution of a DVBE and the Trustees’ and DGS approval or disapproval cannot be used as an excuse for noncompliance with any other provision of law, including, but not limited to, the Subletting and Subcontracting Fair Practices Act (Sections 4100 et seq., Public Contract Code) or any other Contract requirements relating to substitution of subcontractors.

d. Subcontractor Directory.
The CM shall have submitted a Subcontractor Directory with the Contract in accordance with Article 2.05-c. If any listed firms have been substituted without approval by the Trustees in accordance with section 4107(a) of the Public Contract Code, or if trade contractors are added and perform Work in excess of one-half of one percent of base Contract, penalties are applicable per section 4110 of the Public Contract Code.

4.05 Delegation of Performance and Assignment of Money Earned
The performance of all or any part of this Contract may not be delegated without the written consent of the Trustees. Consent will not be given to any proposed delegation that would relieve the CM or its surety of their responsibilities under the Contract.
The CM may assign moneys due or to become due under the Contract, only upon written consent of the Trustees. Assignments of moneys earned by the CM shall be subject to proper retention in favor of the Trustees and to all deductions provided for in the Contract and such moneys shall be subject to being used by the Trustees for the completion of the Work in the event the CM is in default.

4.06 Assignment of Trade Contracts to Trustees

The CM shall include in all trade contracts an assignment clause stating that the Trustees have the right to require that the CM assign the trade contract(s) to the Trustees. Upon direction from the Trustees, the CM shall assign to the Trustees for fully vesting in the Trustees all rights and benefits of the CM under such trade contracts or purchase orders, in order that the Trustees may proceed to finish the Project.

4.07 Insurance Requirements

a. The CM shall not commence Work on the site until it has obtained all the insurance required in this Article, and such insurance has been approved by the Trustees. This Project shall be enrolled in the Trustees’ Builders Risk Insurance Program, for which the provisions of Article 4.07-c shall apply. This Project may be enrolled in the Trustees’ Owner Controlled Insurance Program (“OCIP”), and if so, the provisions of Article 4.07-b shall apply. CM shall refer to the Supplementary General Conditions to determine if this Project is enrolled in OCIP.

1) Policies and Coverage

(a) The CM shall obtain and maintain for the term of the Contract the following policies and coverage:

(i) Comprehensive or Commercial Form General Liability Insurance on an occurrence basis, covering Work done or to be done by or on behalf of the CM and providing insurance for bodily injury, personal injury, property damage and contractual liability. The aggregate limit shall apply separately to the Work.

(ii) Business Automobile Liability Insurance on an occurrence basis, covering owned, hired and non-owned automobiles used by or on behalf of the CM and providing insurance for bodily injury, property damage and contractual liability. Such insurance shall include coverage for uninsured and underinsured motorists.

(iii) Workers’ Compensation including Employer’s Liability Insurance as required by law.

(iv) Errors & Omissions Insurance on an occurrence basis, covering Work done or to be done by or on behalf of the CM and providing insurance for errors and omissions, shall be secured and maintained.

(b) The CM also may be required to obtain and maintain the following policies and coverage:

(i) Environmental Impairment Liability Insurance should the Work involve hazardous materials, such as asbestos, lead, fuel storage tanks and PCBs.

(ii) Other Insurance by agreement between the Trustees and the CM.

2) Verification of Coverage.

The CM shall submit original certificates of insurance and endorsements to the policies of insurance required by the Contract to the Trustees as evidence of the insurance coverage. The scope of coverage and endorsements shall provide for no cancellation or modification of coverage without thirty (30) days written notice to the Trustees. Renewal certifications and endorsements shall be timely filed by the CM for all coverage until the Work is accepted as completed pursuant to Article 8.01, Acceptance. The Trustees reserve the right to require the CM to furnish the Trustees complete, certified copies of all required insurance policies.

Nothing in these insurance provisions shall be deemed to alter the indemnification provisions in Article 4.08. The insurance policies shall contain, or be endorsed to contain, the following provisions:

(a) General and Automobile Liability Policies.

(i) General Liability policies: the State of California, the Trustees of the California State University, the University, their officers, employees, representatives, volunteers and agents are to be covered as additional insureds.

(ii) Automobile Liability: CM shall use Insurance Service Office (ISO) Form Number CA 0001 covering any auto.

(b) For any claims related to the Work, the CM’s insurance coverage shall be primary insurance as respects the State of California, the Trustees of the California State University, the University, their officers, employees, representatives, volunteers and agents. Any insurance or self-insurance maintained by the State of California, the Trustees of the California State University, the University,
their officers, employees, representatives, volunteers and agents shall be in excess of the CM’s insurance and shall not contribute with it.

(c) Each insurance policy required by this Article shall state that coverage shall not be canceled by either the CM or the insurance carrier, except after thirty (30) days prior written notice by certified mail, return receipt requested, has been given to the Trustees.

(d) The State of California, the Trustees of the California State University, the University, their officers, employees, representatives, volunteers and agents shall not by reason of their inclusion as additional insureds incur liability to the insurance carriers for payment of premiums for such insurance.

(4) Amount of Insurance.

(a) For All Projects.

The insurance furnished by CM under this Article shall provide coverage in amounts not less than the following (‘M’ indicates millions):

<table>
<thead>
<tr>
<th>Contract Amount</th>
<th>Up to $2M</th>
<th>$2M+1 to $5M</th>
<th>$5M+1 to $10M</th>
<th>$10M+1 and Over</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Aggregate</td>
<td>$2M</td>
<td>$5M</td>
<td>$10M</td>
<td>$10M</td>
</tr>
<tr>
<td>Each Occurrence – combined single limit for bodily injury and property damage</td>
<td>$1M</td>
<td>$5M</td>
<td>$10M</td>
<td>$10M</td>
</tr>
</tbody>
</table>

(ii) Business Automobile Liability Insurance – Limits of Liability (Each Accident– combined single limit of bodily injury and property damage to include uninsured and underinsured motorist coverage.)

<table>
<thead>
<tr>
<th>Contract Amount</th>
<th>Up to $2M</th>
<th>$2M+1 to $5M</th>
<th>$5M+1 to $10M</th>
<th>$10M+1 and Over</th>
</tr>
</thead>
<tbody>
<tr>
<td>Each Accident</td>
<td>$1M</td>
<td>$5M</td>
<td>$10M</td>
<td>$10M</td>
</tr>
</tbody>
</table>

(iii) Workers’ Compensation limits as required by law with Employer’s Liability limits of $1,000,000. These requirements and limits are the same for all size contracts.

(iv) Errors & Omissions Insurance shall be secured and maintained for no less than $1,000,000 per occurrence.

(b) For Projects Involving Hazardous Materials.

The CM shall provide additional coverage in amounts not less than the following:

(i) Environmental Impairment (pollution) Liability Insurance – Limits of Liability

<table>
<thead>
<tr>
<th>Contract Amount</th>
<th>Up to $2M</th>
<th>$2M+1 to $5M</th>
<th>$5M+1 to $10M</th>
<th>$10M+1 and Over</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Aggregate</td>
<td>$10M</td>
<td>$10M</td>
<td>$10M</td>
<td>$10M</td>
</tr>
<tr>
<td>Each Occurrence – combined single limit for bodily injury and property damage, including cleanup costs.</td>
<td>$5M</td>
<td>$10M</td>
<td>$10M</td>
<td>$10M</td>
</tr>
</tbody>
</table>

(ii) In addition to the coverage described in 4.06-a (4)(a)(ii), Business Automobile Liability Insurance, the CM shall obtain for hazardous material transporter services:

(A) MCS-90 endorsement.

(B) Sudden & Accidental Pollution endorsement – Limits of Liability*

| $2M | Each Occurrence |
| $2M | General Aggregate |

* These requirements and limits are the same for all size contracts. A higher limit on the MCS-90 endorsement required by law must be matched by the Sudden & Accidental Pollution Insurance.

With the Trustees’ approval, the CM may delegate the responsibility to provide this additional coverage, as described in this Article 4.07-a (4)(b) above, to its hazardous materials trade contractor. When the CM returns its signed project construction phase agreement to the Trustees, the CM shall also provide the Trustees’ with a letter stating that it is requiring its hazardous materials trade contractor to provide this additional coverage, if applicable. The CM shall affirm in this letter that the hazardous materials trade contractor’s certificate of insurance shall also adhere to all of the requirements in Article 4.07-a: (2) Verification of Coverage, and (3) Insurance Provisions. Further,
this letter will provide that the trade contractor’s certificate of insurance will be provided to the Trustees as soon as the CM fully executes its trade contract with the hazardous materials trade contractor, or within 30 days of the Notice to Proceed, whichever is less.

(5) Acceptability of Insurers.
Insurers shall be licensed by the State of California to transact insurance and shall hold a current A.M. Best’s rating of no less than A:VII, or shall be a carrier otherwise acceptable to Trustees.

(6) Trade Contractor’s Insurance.
CM shall ensure that its trade contractors are covered by insurance of the types required by this Article, and that the amount of insurance for each trade contractor is appropriate for that trade contractor’s Work. CM shall not allow any trade contractor to commence Work on its trade contract until the insurance has been obtained.

(7) Miscellaneous.
(a) Any deductible under any policy of insurance required in this Article 4.07 shall be the CM’s liability.
(b) Acceptance of certificates of insurance by the Trustees shall not limit the CM’s liability under the Contract.
(c) In the event the CM does not comply with these insurance requirements, the Trustees may, at its option, provide insurance coverage to protect the Trustees. The cost of the insurance shall be paid by the CM and, if prompt payment is not received, may be deducted from Contract sums otherwise due to the CM.
(d) If the Trustees are damaged by the failure of the CM to provide or maintain the required insurance, the CM shall pay the Trustees for all such damages.
(e) The CM’s obligations to obtain and maintain all required insurance are nondelegable duties under this Contract.

b. Owner Controlled Insurance Program (OCIP).
The Trustees shall enroll any Project awarded with a Contract Amount of ten million dollars or more in this Program. CM shall refer to the Supplementary General Conditions to determine if this Project is enrolled in this program, and shall disregard the provisions of Article 4.07-b if not.

The Trustees have established an Owner Controlled Insurance Program, or OCIP, which will provide to Enrolled Parties (as defined below) Workers’ Compensation and Employer’s Liability insurance, Commercial General Liability insurance, and Excess Liability insurance, as summarily described below, in connection with the performance of the Work (OCIP Coverages). The OCIP is more fully described in the insurance manual (Insurance Manual) for the Project, which can be downloaded from http://www.calstate.edu/cpdc/CM/OCIP.shtml. Parties performing labor or services at the Project site are eligible to enroll in the OCIP, unless they are Excluded Parties (as defined below). The Trustees have designated Alliant Insurance Services, Inc. as the OCIP Administrator (“OCIP Administrator”).

(1) Enrolled Parties and Their Insurance Obligations.
OCIP Coverages shall cover Enrolled Parties. Enrolled Parties are: the Trustees as the Owner, the OCIP Administrator, CM and eligible subcontractors of all tiers that enroll in the OCIP, and such other persons or entities as Trustees may designate, in its sole discretion (each party insured under the OCIP is an “Enrolled Party.”)

For all Enrolled Parties, the obligation to obtain Comprehensive or Commercial Form Liability Insurance, set out under Article 4.07-a(1)(a)(i), and the obligation to obtain Workers’ Compensation including Employer’s Liability Insurance, set out under Article 4.07-a(1)(a)(iii) shall be deemed satisfied upon enrollment in the OCIP, for all on site activities. All Enrolled Parties must still comply with all other provisions of Article 4.07-a, including providing Business Automobile Liability insurance for all activities, and providing Comprehensive or Commercial Form Liability insurance for off-site activities, providing Workers’ Compensation/Employer’s Liability Insurance for off-site activities, and providing any other insurance required under Article 4.07-a, or under any Supplementary General Conditions.

(2) Excluded Parties and Their Insurance Obligations.
The OCIP Coverages do not cover the following “Excluded Parties”:
(a) Hazardous materials remediation, removal and/or transport companies and their consultants;
(b) Heavy demolition. Selective demolition as an incidental part of a larger contract is included.
(c) Architects, surveyors, engineers, and soil testing engineers, and their consultants;
(d) Vendors, suppliers, fabricators, material dealers, truckers, haulers, drivers and others who merely transport, pick up, deliver, or carry materials, personnel, parts or equipment, or any other items or persons to or from the Project site;

(e) CM and each of its respective subcontractors of all tiers that do not perform any actual labor on the Project site; and

(f) Any other party or entity not specifically identified herein, that is excluded by Trustees in its sole discretion, even if they are otherwise eligible.

Excluded Parties must fully comply at all times with the requirements of Article 4.07-a.

(3) OCIP Insurance Policies Establish the OCIP Coverages.
The OCIP Coverages and exclusions summarized in this Article 4.07-b and in the other Contract Documents are set forth in full in their respective insurance policies. The summary descriptions of the OCIP Coverages in this Article 4.07-b or the Insurance Manual are not intended to be complete or to alter or amend any provision of the OCIP Coverages. In the event any provision of this Article 4.07-b, the summary below, the Insurance Manual, or the Contract Documents conflicts with the OCIP insurance policies, the provisions of the OCIP insurance policies shall govern.

(4) Summary of OCIP Coverages.
OCIP Coverages shall apply only to those operations of each Enrolled Party performed at the Project site in connection with the Work, and only to Enrolled Parties that are eligible for the OCIP. OCIP coverages shall not apply to ineligible parties, even if they are erroneously enrolled in the OCIP. An Enrolled Party’s operations away from the Project site, including product manufacturing, assembling, or otherwise, shall only be covered if such off-site operations are identified and are dedicated solely to the Project. OCIP Coverages shall not cover off-site operations until receipt by CM or its Subcontractor of any tier of written acknowledgment of such coverage from the OCIP Administrator. A summary of the coverages provided under the OCIP is set out below:

<table>
<thead>
<tr>
<th>Coverages</th>

<tr>
<td>(d) Excess Liability Insurance (over Employer’s Liability &amp; General Liability)</td>
<td>$100,000,000</td>
</tr>
</tbody>
</table>

(5) Trustees’ Insurance Obligations.
Trustees shall pay the costs of premiums for the OCIP Coverages. Trustees will receive or pay, as the case may be, all adjustments to such costs, whether by way of dividends, retroactive adjustments, return premiums, other moneys due, audits or otherwise. CM hereby assigns to Trustees the right to receive all such adjustments, and shall use its best efforts to ensure that each of its subcontractors of every tier assigns to Trustees the right to receive all such adjustments. Trustees assume no obligation to provide insurance other than that specified in this Article 4.07-b, and in the OCIP insurance policies. Trustees’ furnishing of OCIP Coverages shall in no way relieve or limit, or be construed to relieve or limit, CM or any of its subcontractors of any tier of any responsibility, liability, or obligation imposed by the Contract Documents, the OCIP insurance policies, or by law, including, without limitation, any indemnification obligations which CM or any of its Subcontractors has to Trustees thereunder. Trustees reserve the right at their option, without obligation to do so, to furnish other insurance coverage of various types and limits provided that such coverage is not less than that specified in the Contract Documents.
(6) CM’s OCIP Obligations.

CM shall:

(a) Incorporate the terms of these Contract General Conditions into all subcontract agreements.

(b) Enroll in the OCIP within five (5) days of execution of the Contract and maintain enrollment in the OCIP for the duration of the Contract, and assure that each of CM’s eligible subcontractors of every tier enroll in the OCIP, and maintain enrollment in the OCIP for the duration of their respective subcontract within five (5) days of subcontracting and prior to the commencement of Work at the Project site.

(c) Comply with all of the administrative, safety, insurance, and other requirements outlined in this Article 4.07-b, the Insurance Manual, the OCIP Safety Manual, the OCIP insurance policies, or elsewhere in the Contract Documents.

(d) Provide to each of its Subcontractors of every tier a copy of the Insurance Manual, and ensure subcontractor compliance with the provisions of the OCIP insurance policies, the Insurance Manual, this Article 4.07-b, and the Contract Documents. The failure of either (1) Trustees to include the Insurance Manual in the bid documents or (2) CM to provide to each of its eligible subcontractors of every tier a copy of the same, shall not relieve CM or any of its subcontractors from any of the obligations contained therein.

(e) Acknowledge, and require all of its subcontractors of every tier to acknowledge, in writing, that Trustees and the OCIP Administrator are not agents, partners or guarantors of the insurance companies providing coverage under the OCIP (each such insurer, an “OCIP Insurer”), that neither Trustees nor the OCIP Administrator are responsible for any claims or disputes between or among CM, its subcontractors of any tier, and any OCIP Insurer(s), and that neither Trustees nor OCIP Administrator guarantees the solvency or the availability of limits of any OCIP Insurer(s). Any type of insurance coverage or limits of liability in addition to the OCIP Coverages that Contractor or its subcontractors of any tier require for its or their own protection, or that is required by applicable laws or regulations, shall be CM’s or its subcontractors’ sole responsibility and expense, and shall not be billed to Trustees.

(f) Cooperate fully with the OCIP Administrator and the OCIP Insurers, as applicable, in its or their administration of the OCIP.

(g) Provide, within five (5) days of Trustees or OCIP Administrator’s request, all documents or information as requested of CM or its subcontractors. Such information may include, but may not be limited to, payroll records, certified copies of insurance coverages, declaration pages of coverages, policy rate pages, certificates of insurance, underwriting data, prior loss history information, safety records or history, OSHA citations, construction cost estimates for this Project, or such other data or information as Trustees, the OCIP Administrator, or OCIP Insurers may request in the administration of the OCIP, to verify the accuracy of the Insurance Credit. All such records shall be maintained through the term of the Contract and for a period of one (1) year thereafter.

(h) Comply, and require all of its subcontractors to comply with OCIP Administrator’s instructions for electronically enrolling in the OCIP using “Alliant Wrap” and for electronically reporting payroll using “Alliant Wrap.”

(i) Pay to Trustees a sum in accordance with the Contract Amounts in the table below for each occurrence, including court costs, attorneys’ fees and costs of defense for bodily injury or property damage to the extent losses payable under the OCIP Commercial General Liability Policy are attributable to CM’s Work, acts, or omissions, the Work, acts, or omissions of any of CM’s Subcontractors of any tier, or the Work, acts or omissions of any other entity or party for whom CM or its Subcontractor may be responsible (“General Liability Obligation”).

<td>$25,000</td>
</tr>
</tbody>
</table>

The General Liability Obligation shall remain uninsured by CM, and will not be covered by the OCIP Coverages.
(7) Identification of OCIP Insurance Credit.
(a) CM shall include within its RFP, and its final GMP Proposal the full cost of all insurance required under the insurance requirements set forth in Article 4.07-a. All subcontractors shall also include within any proposal or bid submitted to CM their full cost of all insurance required under the insurance requirements set forth in Article 4.07-a, or under their subcontract requirements.
(b) CM and all subcontractors shall provide all information necessary for enrollment in the OCIP via the Alliant WrapX website, including completing the Insurance Cost Worksheet via Alliant WrapX, for the purpose of allowing Trustees, through the OCIP Administrator, to identify the OCIP Insurance Credit (“Insurance Credit”) for CM and all subcontractors. The Insurance Credit as applicable to CM shall be defined as CM’s reduction in insurance cost due to eligibility for, and enrollment in the OCIP, as determined by using the Insurance Cost Worksheet. The Insurance Credit as applicable to a subcontractor shall be defined as the subcontractor’s reduction in insurance cost due to eligibility for, and enrollment in the OCIP. The Insurance Credit shall include the reduction in insurance premiums, related taxes and assessments, mark-up on the insurance premiums and losses retained through the use of the self-funded program, self-insured retention, or deductible program, and expected losses within any retained risk.
(c) CM agrees that Trustees, through its Program Administrator, shall be permitted to review all OCIP enrollment forms, and the Insurance Cost Worksheets submitted by CM and any subcontractor of any tier, to verify the accuracy of the Insurance Credit. Upon verification of the Insurance Credit, 85% of the Insurance Credit (Initial Insurance Credit) will be deducted from each Contract Amount by way of deductive change order. CM shall be responsible for entering into deductive change orders with each of its subcontractors to reflect the Initial Insurance Credit applicable to each enrolled Subcontractor. Change order proposals that arise during performance of the Work shall be submitted with all Article 4.07-a insurance costs included. CM shall be responsible for entering into deductive change orders with each of its subcontractors at the closeout of each contract to adjust the Initial Insurance Credit based on final contract values and loss rates. At the end of the Work a final deductive change order may be issued by Trustees based on CM’s final contract audit to adjust the Initial Insurance Credit based on final contract values and loss rates.
(d) In the event Trustees and CM or any subcontractor cannot agree on the accuracy of the Insurance Credit, the credit shall be deemed to be 2.5% of that contract or subcontract of any tier. In this case the 15% discount reflected in the Initial Insurance Credit shall not apply, and that contract shall be charged 100% of the Insurance Credit.
(e) Upon completion of each contract or subcontract of any tier, if the contract losses for that contract or subcontract under the OCIP are above 1.2225% of final reported payroll, the 15% discount reflected in the Initial Insurance Credit shall not apply, and that contract shall be charged 100% of the Insurance Credit.

(8) CM’s Representations and Warranties to Trustees. CM represents and warrants to Trustees, and shall use its best efforts to ensure that each of its subcontractors of every tier represent and warrant to Trustees that:
(a) All information they submit to Trustees, or to the OCIP Administrator, shall be accurate and complete.
(b) They have had the opportunity to read and analyze copies of the OCIP insurance policies that are on file in Trustees’ office, and that they understand the OCIP Coverages. Any reference or summary in the Agreement, this Article 4.06-b, the Insurance Manual, or elsewhere in any other Contract Document as to amount, nature, type or extent of OCIP Coverages and/or potential applicability to any potential claim or loss is for reference only. CM and its subcontractors of all tiers have not relied upon said reference, but solely upon their own independent review and analysis of the OCIP Coverages in formulating any understanding and/or belief as to amount, nature, type or extent of any OCIP Coverages and/or its potential applicability to any potential claim or loss.
(c) At any time during the course of the contract any cost of insurance included, or anticipated to be included, within the Insurance Credit shall not be billed to Trustees directly or indirectly, and shall not be included in any application for payment, invoice, or change order request.
(d) CM acknowledges that Trustees shall not pay or compensate CM or any subcontractor of any tier, in any manner, for the Costs of OCIP Coverages.
(9) OCIP Audits.
CM agrees that Trustees, the OCIP Administrator, and/or any OCIP Insurer may audit CM’s or any of its subcontractors’ payroll records, books and records, insurance coverage, insurance cost information, bid estimates, pricing for any cost in the Contract Amount or any subcontracted Work, or any information that CM provides to Trustees, the OCIP Administrator, or the OCIP Insurers to confirm their accuracy, and to ensure the accuracy of the Insurance Credit. If a project audit discloses any part of the Insurance Credit has been improperly billed to Trustees, the Trustees shall debit those amounts from the Contract Amount with a credit change order.

(10) Trustees’ Election to Modify or Discontinue the OCIP.
For any reason, Trustees may modify the OCIP Coverage, discontinue the OCIP, or request that CM or any of its Subcontractors of any tier withdraw from the OCIP upon thirty (30) days written notice. Upon such notice CM and/or one or more of its subcontractors, as specified by Trustees in such notice, shall obtain and thereafter maintain during the performance of the Work, all (or a portion thereof as specified by Trustees) of the OCIP Coverage. The form, content, limits of liability, cost, and the insurer issuing such replacement insurance shall be subject to Trustees’ approval. The cost of the replacement coverage shall be at Trustees’ expense, but only to the extent of the applicable Insurance Credit.

(11) Withholding Payments.
Trustees may withhold from any payment owed or owing to CM or its subcontractors of any tier any portion of the Insurance Credit improperly included in a request for payment. In the event a Trustees audit of CM’s records and information as permitted under the Contract Documents reveals a discrepancy in the insurance, payroll, safety, or any other information required by the Contract Documents to be provided by CM to Trustees, or to the OCIP Administrator, or reveals the inclusion of costs reflected in the Insurance Credit in any application for payment for the Work, Trustees shall have the right to a full deduction of any improperly billed costs from the Contract Amount and recovery of all audit costs. Audit costs shall include, but shall not be limited to, the fees of the OCIP Administrator, and the fees of attorneys and accountants conducting the audit and review. If the CM or its subcontractors fail to timely comply with the provisions of Contract General Conditions Article 4.07-b, and Supplementary General Conditions Article 4.07-b, Trustees may withhold any payments due to CM and/or its subcontractors of any tier until such time as they do comply. Such withholding by Trustees shall not be deemed to be a default under the Contract Documents.

(12) Waiver of Subrogation.
Where permitted by law, CM hereby waives all rights of recovery by subrogation because of deductible clauses, inadequacy of limits of any insurance policy, limitations or exclusions of coverage, or any other reason against Trustees, the OCIP Administrator, their officers, agents, or employees, and any other contractor or subcontractor performing Work or rendering services on behalf of Trustees in connection with the planning, development and construction of the Project. Trustees shall also require that all CM-maintained insurance coverage related to the Work, include clauses providing that each insurer shall waive all of its rights of recovery by subrogation against CM together with the same parties referenced immediately above in this Article 4.07-b (12). Where permitted by law, CM shall require similar written express waivers and insurance clauses from each of its subcontractors. A waiver of subrogation shall be effective as to any individual or entity even if such individual or entity (a) would otherwise have a duty of indemnification, contractual or otherwise, (b) did not pay the insurance premium directly or indirectly, and (c) whether or not such individual or entity has an insurable interest in the property damaged.

(13) Conflicts.
In the event of a conflict between the provisions of this Contract and the OCIP Insurance Manual, this Contract shall govern. In the event of any conflict or difference between the OCIP insurance policies and this Contract or the OCIP Insurance Manual, the actual OCIP policies shall govern.

Trustees shall insure or self-insure all Work while in the course of construction, reconstruction, remodeling or alteration, including materials incorporated in the Work, against physical loss or damage resulting from the perils normally insured under a “Standard All Risk Course of Construction” policy, including, but not limited to theft, fire, flood, vandalism, or Acts of God, as defined in Public Contract Code section 7105. The term, Acts of God, as defined in Public Contract Code section 7105, means earthquakes in excess of 3.5 on the Richter magnitude scale and tidal waves. Trustees shall issue to the CM a “Summary of Coverage” provided under this Article 4.07-c, upon request of the CM.

CM shall be responsible for paying a deductible of $25,000 per occurrence in the event of loss, with the following exceptions. The CM shall be responsible for paying a deductible of:
CM shall not be liable for damages proximately caused by acts of God (as defined in Public Contract Code section 7105) in excess of the $100,000 deductible, if the Work damaged is built in accordance with the Contract and applicable building standards.

(3) The proceeds under the Course of Construction Property Insurance taken out by the Trustees will be payable to the Trustees and CM as their respective interests, from time to time, may appear.

(4) Trustees’ Course of Construction Property Insurance shall provide limited coverage for materials in transit, and full coverage for materials at the Project site and full coverage for materials stored off site; however, the CM is responsible for reviewing the summary of coverage and reporting large values requiring special treatment. CM shall advise the Trustees whenever the total value of materials in transit exceeds $1,000,000 at any time, and whenever the total value of materials stored off site exceeds $1,000,000 at any time.

(5) Nothing in this Article 4.07-c shall be construed to relieve the CM of CM’s responsibilities referred to under Article 4.07-a.

(6) Insurance policies referred to in this Article 4.07-c shall include the following:

(a) Provide that the policies are primary and do not participate with nor are excess over any other valid collectible insurance carried by the CM.

(b) Insurer shall waive of subrogation against the CM.

4.08 Indemnification

Nothing in these indemnification provisions shall be deemed to alter the insurance provisions in Article 4.07.

a. The CM shall hold harmless, defend, and indemnify the State of California, the Board of Trustees of the California State University, the University, and the officers, employees, representatives, and agents of each of them, from and against all claims, damages and losses arising out of, resulting from, or relating to (1) the failure of the CM to perform its obligations under the Contract or the performance of its obligation in a willful, reckless, or negligent manner; (2) the inaccuracy of any representation or warranty by the CM given in accordance with or contained in the Contract Documents; and (3) any claim of damage or loss by any trade contractor, or supplier, or laborer against the Trustees arising out of any alleged act or omission of the CM or any other trade contractor, or anyone directly or indirectly employed by the CM or any trade contractor.

b. The CM shall hold harmless, defend, and indemnify the State of California, the Board of Trustees of the California State University, the University, and the officers, employees, representatives, and agents of each of them, from and against all claims, damages and losses arising out of, resulting from, or relating to the negligent acts or omissions, recklessness, or willful misconduct of the CM, a trade contractor, or anyone directly or indirectly employed by either of them, or anyone for whose acts either of them may be liable. Such obligation shall not be construed to negate, abridge, or reduce other rights or obligations of indemnity which would otherwise exist as to a party or person described in Article 4.08-c, following. Such obligation, however, shall apply in proportion to and to the extent that any such losses result from the negligent acts or omissions by an employee of the CM, a trade contractor, or a person indirectly employed by the CM or a trade contractor, or anyone for whose acts either may be liable.

c. In claims against any person or entity indemnified under this Article made by an employee of the CM or a trade contractor, or indirectly employed by either of them, or anyone for whose acts either may be liable, the indemnification obligation under this Article shall not be limited by a limitation on amount or type of damages, compensation, or benefits payable by or for the CM or a trade contractor under workers compensation laws, disability benefit laws, or other laws providing employee benefits.

d. The indemnification obligations under this Article shall not be limited by any assertion or finding that the person or entity indemnified is liable due to a non-delegable duty.

e. The CM shall hold harmless, defend, and indemnify the State of California, the Board of Trustees of the California State University, the University, and the officers, employees, representatives, and agents of each of them from and against all claims, damages and losses resulting from any claim of damage made by any separate contractor of the Trustees against the Trustees arising out of any alleged acts or omissions of the CM, a trade contractor, anyone directly or indirectly employed by either the CM or trade contractor, or anyone for whose acts either the CM or trade contractor may be liable.

f. The CM shall hold harmless, defend, and indemnify the separate contractors of the State of California, the Board of Trustees of the California State University, the University, and the officers, employees, representatives, and agents of each of them from and against all claims, damages and losses arising out of the negligent acts or omissions,
recklessness, or willful misconduct of the CM, a trade contractor, anyone directly or indirectly employed by the CM or trade contractor, or anyone for whose acts the CM or trade contractor may be liable.

The Trustees shall cause a reciprocal indemnification provision in favor of the CM to be included in its contracts with separate contractors of the Trustees. Liability for any negligent act or omission, recklessness, or willful misconduct shall be apportioned pursuant to the applicable law of the State of California.

4.09 CM’s Responsibility for the Work

The CM shall be responsible for all Work performed under this Contract, and no trade contractor will be recognized as such. For purposes of assessing responsibility to the CM, all persons engaged in the Work shall be considered employees of the CM. The CM shall give its personal attention to the fulfillment of the Contract and keep all phases of the Work under its control.

CM shall create a report of construction activities occurring each day, and include a listing of all subcontractors of all tiers and the numbers of workers for each that are on site each day, briefly describing the Work the subcontractors are performing. Each subcontractor shall create report of construction activities occurring each day, and include a listing of all subcontractors of all tiers and the numbers of workers for each that are on site each day, briefly describing the Work the subcontractors are performing. CM and every subcontractor shall submit these reports to the Trustees daily. At the end of the Project, CM shall submit to the Trustees a complete listing of all subcontractors, suppliers and other businesses that performed Work on the Project.

The Trustees will not arbitrate disputes among trade contractors nor between the CM and one or more trade contractors concerning responsibility for performing any part of the Project.

a. Quality Control.

The CM shall be fully responsible for the quality of materials and workers’ skill in the Project. The CM shall not rely upon the inspection and testing provided by the Trustees other than those special inspections and tests performed by the Trustees’ selected laboratories for which there are written reports.

On projects with new foundations (for buildings, site improvements, bridges, light poles, others), the CM shall prepare a certified survey illustrating dimensions, locations, angles and elevations of the construction associated with the new foundation, and shall show the as-built location of the construction on the Project Site Boundary drawing provided by the Trustees. The CM shall specify the horizontal location using California Coordinate System, NAD 83 Coordinates. An appropriately licensed Professional Land Surveyor or Registered Civil Engineer (pre-1982 license) shall stamp the certified survey, after which the CM shall submit it promptly to the Architect and the Trustees.

b. Burden for Damage.

From the issuance of the official Notice to Proceed until the formal acceptance of the Project by the Trustees, the CM shall have the charge and care of and shall bear the risk of damage to the Project, and materials and equipment for the Project.

The CM, at its own expense—subject to proceeds payable in accordance with article 4.07-b (3), shall promptly rebuild, repair, restore, and make good all such damage to any portion or to all of the Project and materials therefor before the acceptance of the Project by the Trustees except for such damage as is proximately caused by acts of the federal government or public enemy. In case of suspension of work from any cause whatever, the CM shall be responsible for all materials, and shall properly store them, if necessary, and shall provide suitable drainage and erect temporary structures where necessary.

If the CM damages any property belonging to the Trustees, the Trustees may, in addition to other remedies available to the Trustees, retain from the money due to the CM an amount sufficient to ensure repair of the damage or an amount to contribute toward repair of the damage.

Neither the State of California, the Trustees of the California State University, the University, nor the officers, employees, representatives, nor agents of each of them shall be responsible for any damage to the Project and materials and equipment for the Project.

c. Protection of Facilities.

From the issuance of the official ‘Notice to Proceed’ until the formal acceptance of the Project by the Trustees, CM shall protect the Site and Work from theft, acts of malicious mischief, vandalism and unauthorized entry. During all hours that Work is not prosecuted, CM shall furnish such watchman’s services as necessary to safeguard materials and equipment in storage on the Project site, including Work in place or in process of fabrication, against theft, acts of malicious mischief, vandalism and other losses or damages. The CM shall be liable for any loss or damage that result from its failure to protect the Site and the Work.

The CM shall protect adjoining property and nearby buildings, roads, and other facilities and improvements from dust, dirt, debris and other nuisances arising out of CM’s operations or storing practices. Dust shall be controlled by
sprinkling or other effective methods acceptable to Trustees. An erosion and sedimentation control program shall be
initiated, which includes measures addressing erosion caused by wind and water and sediment in runoff from site. A
regular watering program shall be initiated to adequately control the amount of fugitive dust in accordance with
applicable Air Quality Management District (AQMD) rules. See also Article 4.03, subsections: a-Air Pollution
Control and b-Water Pollution Control.

d. Safety.
The CM shall exercise precaution at all times for the protection of persons and their property. The CM shall install
adequate safety guards and protective devices for all equipment and machinery, whether used in the Work or
permanently installed as part of the Project. The CM shall also provide and adequately maintain all proper temporary
walks, roads, guards, railings, lights, and warning signs. The CM shall comply with all applicable laws relating to
safety precautions, including the safety regulations of the California Division of Industrial Safety. Unless the CM
designates other employees, its superintendent shall have the duty of prevention of accidents. The CM shall institute
a safety program that includes all trades on the site.

Renovation, expansion, or remodel Work of any existing building may expose workers to lead-containing materials
such as paint, flashings, and pipe joints. The CM shall comply with all applicable laws addressing such exposure,
including the Cal/OSHA Lead in Construction Standards (Title 8, California Code of Regulations, section 1532.1).

The Trustees and the Architect may bring to the attention of the CM a possible hazardous situation in the field
regarding the safety of personnel on the site. The CM shall be responsible for verifying the compliance with all local,
state, and federal workplace safety guidelines. In no case shall this right to notify the CM absolve the CM of its
responsibility for monitoring safety conditions. Such notification shall not imply that anyone other than the CM has
assumed any responsibility for field safety operations.

CM shall not use explosives without first obtaining written permission from the Trustees and then shall use them only
with the utmost care and within the limitations set in the written permission and in accordance with prudence and
safety standards required by law. Storage of explosives on the Project site or University is prohibited. Powder activated
tools are not explosive for purposes of this Article; however, such tools shall only be used in conformance with State
safety regulations.

In the event of an accident, the CM shall make available to the Trustees copies of its accident report to its insurance
carrier. The CM shall determine the cause of the accident and immediately correct any equipment, procedure, or
condition contributing to the accident.

e. Utilities

(1) If the CM discovers utility facilities not identified in the Contract Documents, the CM shall immediately
notify the Trustees, the Architect, the Inspector, and the utility involved, in writing, of such discovery. When the
CM is required by the plans and specifications to locate, remove or relocate utility facilities not identified
in the Contract Documents with reasonable accuracy, the CM shall be compensated for any reasonable actual
added cost incurred. The CM shall also be compensated for the cost of repairing any damage resulting from the
discovery of such unidentified utility facility when such damage does not result from the failure of the
CM to exercise reasonable care. All such compensation to the CM shall be based on an actual cost plus CM
and trade contractor mark-up, as identified in Article 6.01-b, Allowable Costs Upon Change Orders,
subdivisions (4), (5) and (6), except that both the CM’s and the trade contractor’s mark-up shall be reduced
by six (6) percent each, when the damage results from the failure of the CM or trade contractor to exercise
reasonable care. The Trustees or the public utility, where it is the owner of the utility facilities, shall have the
sole discretion to perform repairs or relocation Work, or permit the CM to do such repairs or relocation Work
at a reasonable price, where such Work is required to facilitate the project. The CM shall not be assessed
liquidated damages for delay in the completion of the Project which is caused by the failure of the Trustees
or the owner of the utility to provide for removal or relocation of such unidentified utility facilities.

(2) With the exception of the identification of main or trunk line utility facilities in the Contract Documents, the
foregoing provisions of subdivision (1) shall not apply to, and Trustees shall have no obligation to indicate,
the presence of existing service laterals or appurtenances whenever the presence of such utilities on the site
of the Project can be inferred from the presence of other visible facilities, such as buildings, meter and
junction boxes, on or adjacent to the site of the construction.

(3) Except as expressly provided in subdivisions (1) and (2) above, the CM shall be responsible at its own cost
for all Work, expense, or special precautions caused by the existence or proximity of utilities encountered at the
site or in the performance of the Project Work including, without limitation, repair of any damage that
may result including any damage resulting from hand or exploratory excavation. The CM is cautioned that
the utilities encountered at the site may include communication cables or electrical cables conducting high
voltage. When excavating in the vicinity of the ducts enclosing such cables, special precautions are to be observed by the CM at his own cost and shall include the following: all cables and their enclosure ducts shall be exposed by careful hand excavation so as not to damage the ducts or cables nor cause injury to persons, and appropriate warning signs, barricades, and safety devices shall be erected.

(4) The CM shall provide as-built drawings of all utilities encountered and constructed to the University, indicating the size, horizontal location, and vertical location based on the Project benchmark or a stable datum.

f. Hazardous Materials

(1) Asbestos.

The Trustees prohibit the CM from installing any asbestos-containing materials or products in any Work to be performed under this Contract. The CM shall be responsible for removal and replacement costs should it be determined this provision has been violated; this responsibility shall not be limited in duration by Project completion, the warranty period, or other provisions of this Contract.

(2) Lead.

The CM is prohibited from installing any lead-containing materials or products, including paint, in any Work to be performed under this Contract without the written consent of the Executive Facilities Officer and the Director of Environmental Health and Safety. The CM shall be responsible for removal and replacement costs should it be determined this provision has been violated; this responsibility shall not be limited in duration by Project completion, the warranty period, or other provisions of this Contract.

g. The CM, by warranting the completeness of the Construction Documents, agrees that, if the CM uses design-build delivery on certain building elements such as fire protection systems, store front assemblies, etc., then the CM accepts responsibility for any impact which results from the design-build process such as deferred submittals, plan check approval and procurement.

4.10 Occupancy by Trustees Prior to Acceptance

The Trustees reserve the right to occupy all or any part of the Project before completion of the entire Contract, upon issuance of a Field Instruction, followed up by a written Contract Change Order, or upon issuance of a written Contract Change Order therefor. In such event, the CM shall be relieved of responsibility for any injury or damage to such occupied part as results from the Trustees’ occupancy and use. If the CM carries insurance against damage to such premises or against liability to third persons covering the premises so used and occupied by the Trustees, and if such occupancy results in increased premiums for such insurance, the Trustees may pay to the CM the added premium costs for such insurance during the period of occupancy. The occupancy change order shall be the vehicle for such payment, if applicable.

The Trustees’ occupancy shall not constitute acceptance by the Trustees (see Article 8.01, Acceptance) either of the Project as completed or of any portion thereof, nor will it relieve the CM of full responsibility for correcting defective Work or materials found at any time before the formal written acceptance of the Project as completed by the Trustees and during the full guarantee period after such acceptance, nor does it stop the assessment of liquidated damages. However, when the Project includes several separate facilities, and one or more of such facilities is entirely occupied by the Trustees, then upon written request of the CM, the guarantee period for the occupied facility may commence from the date of occupancy subject to written consent thereto by the Trustees.

4.11 Payments by CM

In accordance with section 7108.5 of the Business and Professions Code, the CM agrees to promptly pay all trade contractors within seven (7) Days of receipt of each progress payment, unless otherwise agreed in writing by the parties, the respective amounts allowed CM on account of the Work performed by its trade contractors, to the extent of each such trade contractor’s interest therein.

The CM shall pay and shall require its trade contractors to pay each employee engaged in Work on the Project under this Contract in full (less deductions made mandatory by law) not less often than once each week.

The CM shall secure all permits and licenses required for any operations required under this Contract and shall pay all costs relating thereto as well as all other fees and charges that are required by the United States, the State, the county, the city, a public utility, telephone company, special district, or quasi-governmental entity. It is the CM’s responsibility to ascertain the necessity of such permits and licenses in preparing its Guaranteed Maximum Price and include in its Guaranteed Maximum Price the cost thereof as well as adjustments for any delays that may be caused by securing permits and licenses.

4.13 Patented or Copyrighted Materials

The CM shall assume all costs arising from the use of patented or copyrighted materials, equipment, devices, or processes used on or incorporated in the Project, and agrees to save harmless, defend, and indemnify the State, the Trustees of the California
State University, Trustees’ Consultants, the University, and the officers, agents and employees of each of them from all suits, actions, or claims for, or on account of, the use of any patented or copyrighted materials, equipment, devices, or processes.

4.14 Property Rights in Materials and Equipment
Nothing in the Contract shall be construed as vesting in the CM any property right in the materials or equipment after they have been attached to or permanently placed in or upon the Work or the soil or after payment has been made for fifty percent or more of the value of the materials or equipment delivered to the Site of the Work whether or not they have been so attached or placed. All such materials or equipment shall become the property of Trustees upon being so attached or placed or upon payment of fifty percent or more of the value of the materials or equipment delivered on the Site but not yet installed and the CM warrants that all such property shall pass to the Trustees free and clear of all liens, claims, security interests, or encumbrances.

4.15 Taxes
The CM shall pay all taxes imposed by law which are levied or become payable as a result of the CM’s performance under this Contract.

4.16 Contract Time
a. Time of the Essence.
All time limits specified in this Contract are of the essence of the Contract.

b. Starting and Completion Date.
The Trustees shall designate in the Notice to Proceed the starting date of the Contract on which the CM shall immediately begin and thereafter diligently prosecute the Work to completion. The CM agrees to complete the Work on the date specified for completion of the CM’s performance in the Contract unless such time is adjusted, in writing, by change order by the Trustees. The CM may complete the Work before the completion date if it will not interfere with the Trustees or their other contractors engaged in related or adjacent Work. The Work shall be regarded as completed on the acceptance date noted on the Trustees’ Notice of Completion. This date shall be used as the date the guarantee period begins as defined in Article 8.11, Guarantee.

c. Adjustment of Contract Time Due to Acts of God, etc.
The CM shall not be assessed with liquidated damages, nor the cost of engineering and inspection during any delay in the completion of the Project caused by acts of God, the public enemy, fire, flood, epidemic, quarantine restriction, strike, freight embargo, discovery of archaeological or paleontological artifacts, and unusual action of the elements; provided that the CM shall notify the Architect and the Trustees in writing of the causes of delay within 24 hours from the beginning of any such delay. The Architect, in conjunction with the Trustees, shall determine the facts with regard to the delay and the reasonable period of time by which the date of completion should be extended by reason thereof, if any, and advise the Trustees. The Trustees’ findings thereon shall be final and conclusive.

There shall be no compensation to the CM for costs associated with this kind of delay.

The term “unusual action of the elements” is limited to extraordinary, adverse weather conditions and conditions immediately resulting therefrom which cause a cessation in the progress of the Work which will delay the time of completion of the Contract.

The CM shall have no right to an adjustment in the time of completion due to weather conditions or industrial conditions which are normal for the locality of the site. The time for completion of the Contract has been calculated with consideration given to the average climatic range and usual industrial conditions prevailing in the locality of the site.

d. Adjustment of Contract Time Due to Acts of the Trustees or the Architect.
If the CM is delayed in completing the Contract by reason of any act of the Architect or the Trustees not provided by the Contract, or by reason of changes made pursuant to Article 6.01, Change Orders, without reaching agreement as to any time adjustments, the time for completion of the Contract may be extended for a period commensurate with the delay. The CM shall notify the Architect and the Trustees in writing of the causes of the delay within seven days from the beginning of the delay. The causes of delay shall be subject to the same determinations as stated in Article 4.16-c, Adjustment of Time Due to Acts of God, above. CM shall refer to Article 4.17, Schedule.

e. CM to Fully Prosecute Work.
No extension of time will be granted for any of the causes for which extensions are granted unless the CM demonstrates to the satisfaction of the Trustees that the CM has made every reasonable effort to fully prosecute the Work and complete the Work within the Contract Time.
f. Trustees’ Adjustment of Contract Time.
   Even though the CM has no right to an extension of time for completion, the Trustees may extend the time at the
   request of the CM if they determine it to be in the best interest of the State. If the time is extended, the Trustees may,
   in lieu of assessing liquidated damages, charge the CM, its successors, heirs, assigns, or sureties, and deduct from the
   final payment for the Work all or any part, as they may deem proper, of the value of the lost use of the completed
   Project, and of the actual cost to the Trustees of engineering, inspection, superintendence, and other overhead expenses
   which are directly chargeable to the Contract, and which accrue during the period of such extension.

g. Adjustment of Contract Time Due to Reasons Beyond Trustees’ Control.
   Should the Trustees be prevented or enjoined from proceeding with Work either before or after the start of construction
   by reason of any litigation or other reason beyond their control, the CM shall not be entitled to make or assert any
   claim for damage by reason for said delay; but time for completion of the Work will be extended to such reasonable
   time as the Trustees may determine will compensate the CM for time lost by such delay. Any such determinations
   will be set forth in writing.

h. Liquidated Damages.
   Attention is directed to Article 7.02, Delay in Completion--Liquidated Damages.

4.17 Schedule
   a. Time is of the essence of this Contract, including the time of beginning, the rate of progress, and the time of completion
      of the Work. The Work shall be prosecuted at such time, in such manner, and on such part or parts of the Project as
      may be required to complete the Project as contemplated in the Contract Documents and the CM’s Construction Schedule.

   b. The CM shall prepare and submit to the Trustees, with copy to the Architect and the Construction Administrator’s on-
      site representative, a detailed update to the Project Schedule, as utilized during the bid period, within thirty (30) Days
      after the starting date on the construction Notice to Proceed. The CM’s updated Project Schedule shall include progress
      to date on the preconstruction activities and be comprised of a Critical Path Method network. The portion of the Project
      Schedule from construction Notice to Proceed to final completion is the Construction Schedule. The CM shall input
      the critical path Construction Schedule on the computer using the scheduling software as specified in the Division 01-
      General Requirements for this Project. The CM shall provide electronic data files.

      The CM’s initial Construction Schedule shall show the dates on which each part or division of the Work is expected
      to be started and completed. The initial Construction Schedule shall also show all submittals associated with each
      Work activity, required by the Contract with activities for the submittal development, its review, and the fabrication/procurement
      for each procurement, allowing 21 Days for the Architect’s review of each submittal. The Work activities making up the Construction Schedule shall be of sufficient detail to assure that adequate planning has
      been done for proper execution of the Work and such that, in the sole judgment of the Trustees, it provides an
      appropriate basis for monitoring and evaluating the progress of the Work. The Construction Schedule shall show the
      interdependence of each activity and a critical path. The CM shall also submit a separate listing of all submittals
      required under the Contract and noting the anticipated date that each submittal will be submitted.

      CM shall submit a monthly cash flow schedule with the initial Construction Schedule and shall revise the cash flow
      schedule with each Construction Schedule revision. The cash flow schedule is the CM’s estimate of the dollar value
      of Contract Work completed and billable each month of the Project.

   c. The CM’s initial Construction Schedule shall show the sequence, duration in Calendar or Working Days, and
      interdependence of activities required for the complete performance of all Work. The Construction Schedule shall
      show milestones, including milestones for Trustees-furnished information, and shall include activities for Trustees-
      furnished equipment and furniture when those activities are interrelated with the CM’s activities. The CM’s initial
      Construction Schedule shall begin with the effective date of the Notice to Proceed and conclude with the date of final
      completion. No more than twenty percent of the activities will have less than five Working Days of float unless approved
      by the Trustees. The Construction Schedule shall include a critical path activity that reflects anticipated rain delay
      during the performance of the Contract. The duration shall reflect the average climatic range and usual industrial
      conditions prevailing in the locality of the site. Weather data shall be based on information provided by the National
      Weather Service or other approved source. The Construction Schedule shall be developed using an appropriate Work
      breakdown structure. The transmittal provided with the initial Construction Schedule shall state whether the durations
      are in Working Days or Days.

   d. The CM may submit an initial Construction Schedule that shows the Work completed in less time than the specified
      Contract Time. However, the acceptance of such a Construction Schedule will not change the Contract Time. The
      Contract Time shall control in any determination of liquidated damages or extension of the Contract Time. Total float,
      slack time or contingency is the unused time within the Construction Schedule and the difference in time between the

---

Contract General Conditions for Construction Manager at Risk with Guaranteed Maximum Price Projects
Revised May, 2016 - Page 31 of 51 pages
Project’s early completion date and the required Contract completion date. Total float is not for the exclusive use of either the Trustees or the CM, but is jointly owned by both and is a resource available to and shared by both parties as needed to meet Contract milestones and the Contract completion date.

e. The CM shall not sequester shared float through such strategies as extending activity duration estimates to consume available float, using preferential logic, or using extensive crew/resource sequencing, constraints, unnecessary milestones, leads or lags on logic ties, and hammock type activities. Since float within the Construction Schedule is jointly owned, no time extensions will be granted nor delay damages paid until a delay occurs which extends the Work beyond the Contract completion date. Since float within the Construction Schedule is jointly owned, it is acknowledged that Trustees-caused delays on the Project may be offset by Trustees-caused time savings (i.e., critical path submittals returned in less time than allowed by the Contract, approval of substitution requests and credit changes which result in a savings of time to the Contractor, etc.). In such an event, the CM shall not be entitled to receive a time extension or delay damages until all Trustees-caused time savings are exceeded and the Contract completion date is also exceeded.

f. Comments made by the Trustees on the CM’s initial Construction Schedule during review will not relieve the CM from compliance with the requirements of the Contract Documents. The review is only for general conformance with the scheduling requirements of the Contract Documents. Upon the Trustees’ request, the CM shall participate in the review of the CM’s initial Construction Schedule submissions (including the original submittal, all update submittals, and any re-submittals). The Trustees may request the participation of trade contractors in these reviews, as determined necessary by the Trustees. All revisions shall be resubmitted within fifteen (15) Days after the Trustees’ review.

g. The submittal of a fully revised and acceptable CM’s initial Construction Schedule shall be a condition precedent to the processing of the second monthly payment application, unless the Trustees grant a time extension due to unusual circumstances.

h. The CM’s Construction Schedule shall provide a workable plan for monitoring the progress of all the elements of the Work, establish and clearly display the critical elements of the Work, forecast completion of the construction, and match the Contract duration in time. Exclusive of those activities for submittal review and material fabrication and delivery, activity duration shall not be less than one (1) nor more than thirty (30) Days, unless otherwise approved by the Trustees. In addition to the detailed network diagram, the CM shall submit the following reports with the original submittal and all updates and revisions:

1. Predecessor/Successor Report or a list showing the predecessor activities and successor activities for each activity in the Construction Schedule.

2. Activity Report sorted by early start or a list showing each activity in the Construction Schedule, arranged by early start dates.

i. The CM shall submit an updated Construction Schedule to the Construction Administrator with a copy to the Architect five (5) Days prior to the submittal of the CM’s monthly payment request. The submittal of the Progress Schedule that satisfies the requirements of this Article, accurately reflects the status of the Work, revises the cash flow schedule, and incorporates all changes into the Construction Schedule, shall be a condition precedent to the processing of the monthly payment application. Progress Schedules shall also be submitted at such other times as the Trustees may direct. If the CM fails to comply or is late in compliance with this requirement, and the Trustees find it to be in their best interest to process the monthly payment, an amount not exceeding $10,000 shall be retained from each monthly progress payment until compliance is effected.

The CM’s monthly Progress Schedule update shall include a report containing a narrative that includes the following:

CM’S PROGRESS SCHEDULE NARRATIVE REPORT OUTLINE

- CM’s transmittal letter
- Description of problem tasks, referenced to field instructions, Requests for Information (RFIs), change orders or claim numbers, as appropriate.
- Current and anticipated delays not resolved by approved change order, including:
  - Cause of the delay
  - Corrective action and schedule adjustments to correct the delay
  - Known or potential impact of the delay on other activities, milestones, and Project completion date
- Changes in construction sequence
- Pending items and status thereof including but not limited to:
  - Pending change orders
  - Time extension requests
• Other items
• Contract completion date status:
  • If ahead of Construction Schedule, the number of Days ahead
  • If behind Construction Schedule, the number of Days behind
• Other Project or scheduling concerns
• Updated network diagram with target bars shown.
• Tabular report as specified in subdivision (h) above, including a listing of completed activities and activities in progress.
• Compact disc or other media with the latest data files as specified in subdivision (h) above.

If the CM makes revisions to the logic or durations of the approved schedule as part of the monthly updates, the CM shall submit a narrative detailing the revisions with the monthly update.

The CM shall set the schedule calculation setting for the monthly updates to retained logic, and may only utilize the progress override setting to identify the differential in the calculated finish date due to out of sequence progress. Should the differential in the Project completion exceed ten (10) Days utilizing the retained logic setting vs. the progress override setting, the CM shall revise the successor logic of the out of sequence activities to eliminate the differential.

j. If completion of any part of the Work, delivery of equipment or materials, or submission of the CM submittals is behind the approved Construction Schedule and will impact the end date of the Work past the Contract completion date (create negative float), the CM shall submit in writing, a revised Construction Schedule acceptable to the Trustees for completing the Work on or before the current Contract completion date. The revised Construction Schedule shall take some or all of the following actions:

(1) Increase construction manpower in such quantities and crafts as shall substantially eliminate the backlog of Work and meet the current Contract completion date.

(2) Increase the number of working hours per shift, the number of shifts per day, the number of Work Days per week, or the amount of construction equipment, or any combination of the foregoing sufficient to substantially eliminate the backlog of Work.

(3) Reschedule Work items to achieve concurrent accomplishment of Work activities.

Under no circumstances is adding equipment or construction forces, increasing the working hours, or employing any other method, manner, or procedure to return to the contractually required completion date justification for a change order or justification for a compensable acceleration, unless prior written approval is received from the Trustees.

k. Adjustment of Contract Times for Completion.

In addition to the provisions in the Contract General Conditions, the Contract Time for completion of the Work will be adjusted in accordance with these procedures.

(1) Time Impact Analysis. Whenever the CM submits a request for an adjustment of the Contract Time for completion for changes or alleged delays, the CM shall also submit a complete Time Impact Analysis (TIA). The CM shall submit the TIA for review within seven (7) Days after the request. The Trustees will not grant time extensions unless substantiated by the TIA, and then not until the Project float becomes zero. If the CM fails to submit a TIA within the aforementioned time specified, then the CM shall be deemed by the Trustees to have agreed that there is no time impact and that the CM has irrevocably waived its rights to any additional Contract Time.

The CM shall ensure that each TIA provides information justifying the request and stating the extent of the adjustment requested for each specific change or alleged delay. Each TIA shall be in the form and content acceptable to the Construction Administrator, and shall include, but not be limited to, the following:

(a) A fragmentary critical path method type network (Fragnet) illustrating how the CM proposed to incorporate the change or alleged delay into the current Monthly Baseline Schedule.

(b) Identification of activities in the current Monthly Baseline Schedule which are proposed to be amended due to the change or alleged delay, together with estimates and other appropriate data justifying the proposal.

The CM shall determine the TIA based on the date or dates when the change or changes were issued or the date or dates when the alleged delay or delays began. The status of the construction Project and TIA shall
include event time computations for all affected activities including, but not limited to, Work around sequencing or recovery options to maintain the original Contract completion date.

The Construction Administrator may require that the TIA be provided in order to demonstrate the time impact upon the overall Project and the time for completion, at no additional cost to the Trustees.

If the Construction Administrator finds, after review of the TIA, that the CM is entitled to any extension of time for completion, the Contract Time for completion will be adjusted accordingly by the Construction Administrator, and the CM shall then revise the Monthly Baseline Schedule accordingly.

(2) No time extensions shall be granted nor indirect costs paid unless the CM can clearly demonstrate the delay on the basis of the Progress Schedule current as of the month the change is issued or the delay occurred and which delay cannot be mitigated, offset, or eliminated through such actions as revising the intended sequence of Work or other means. The CM shall include field instructions and change orders in the revised Construction Schedule. Failure to include field instructions or change orders shall waive rights to a Contract Time extension or delay damages.

1. Once each week, or as approved in writing by the Trustees, the CM shall submit a Progress Schedule listing the activities begun, completed, and in progress in the past week, and the activities scheduled to begin, be completed or be in progress for the succeeding three (3) weeks. This schedule shall cover all Work activities listed on the Progress Schedule for the reporting period.

m. As a condition precedent to the release of retained funds, the CM shall, after completion of the Work has been achieved, submit a final CM’s Progress Schedule which accurately reflects the manner in which the Project was constructed and includes actual start and completion dates for all Work activities.

n. The Trustees may require a more detailed and comprehensive scheduling requirement. In this case, the schedule requirement shall be included in the Contract as Supplementary General Conditions.

4.18 Labor Force and Superintendent
At all times the CM shall provide sufficient labor to properly prosecute the Work and to ensure completion of each part in accordance with the schedule and within the Contract time (Public Contract Code section 10843). The CM shall employ competent workers who are skilled in the type of Work required and whose workmanship is of the best, regardless of the quality of material. If, in the judgment of the Trustees, any person is incompetent or disorderly, the CM shall promptly remove such person from the Project and shall not re-employ such person thereon.

The CM shall retain the staffing in accordance with its response to the Request for Proposals. This Project staffing shall include a competent, full-time, on-site superintendent to represent the CM and to direct the Project at all times while any Work under this Contract is underway. The CM shall not replace a Superintendent without advanced written approval from the Trustees. If, in the judgment of the Trustees, the Superintendent is incompetent, unqualified, poorly performing or disorderly, the CM shall promptly remove such person from the Project and shall not re-employ such person thereon. In this event the Trustees shall approve the replacement Superintendent.

The Superintendent shall prepare a daily report that includes worker count, Work in progress, etc., and shall provide it to the Trustees upon request. If the CM does not supply the staffing in accordance with its Request for Proposals, the Trustees shall either demand that the prescribed staffing be supplied and/or credit back the value of the staffing not supplied.

The CM shall make certain that all trade contractors and subcontractors employed are properly licensed and are in good standing with the California Department of Industrial Relations.

4.19 Limitation of Construction Operations
The CM shall limit the area and nature of the construction operations to that which is authorized in the Plans and Specifications or approved by the Trustees.

4.20 Coordination with Other Work
The Trustees reserve the right to do other Work in connection with the Project or adjacent thereto by contract or otherwise, and the CM shall at all times conduct the Work so as to impose no hardship on the Trustees or others engaged in the Trustees’ Work nor to cause any unreasonable delay or hindrance thereto. Where two or more contractors are employed on related or adjacent Work, each shall conduct its operation in such a manner as not to cause delay or additional expense to the other.

The CM shall be responsible to others engaged in the related or adjacent Work for all damage to Work, to persons and to property, and for loss caused by failure to complete the Work within the specified time for completion. The CM shall coordinate its Work with the Work of others so that no discrepancies shall result in the Project.
4.21 Drawings Reflecting Actual Construction
During the course of construction, the CM shall maintain drawings daily to show the Project as it is actually constructed. Every sheet of the plans and specifications that differs from the actual construction shall be marked, and sheets so changed shall be noted on the title sheets of the plans and specifications. All change orders shall be shown by reference to sketch drawings, and any supplementary drawings or change order drawings shall be included. The CM shall review the “as-built” drawings with the Architect and the Construction Inspector at least once a month to demonstrate that the CM is fully and accurately recording all changes that have occurred. The altered Contract drawings shall be sufficiently detailed so that future Work on the Project or in adjacent areas may be conducted with a minimum of difficulty. Before the completion of the Project, and before release of the final retention payments, the “as-built” drawings and specifications shall be transmitted to the Architect for further handling, with a copy of the transmittal to the Trustees and the University representative assigned to the Project.

4.22 Access for Inspection
The CM shall at all times permit the Trustees, the Architect, and the Construction Inspector and the Project Manager to visit and inspect the Work and the shops where Work is in preparation and shall maintain proper facilities and provide safe access for such inspection. Work requiring testing, inspection or verification shall not be covered up without such test, inspection, or approval. The CM shall notify the Construction Inspector in writing at least one (1) Working Day before the Construction Inspector is required to inspect the Work. For a Project with part-time inspection, a minimum of two (2) Working Days written notification by the CM to the Construction Inspector is required before the Construction Inspector is required to inspect the Work.

a. Inspections on Premium Time.
Premium time is defined as Work performed in excess of eight hours per day Monday through Friday and any Work performed on Saturday, Sunday or holiday. Whenever the CM intends to perform Work during premium time, it shall provide a minimum of two (2) Working Days written notice of such intention before performing such Work. If such Work during premium time is discretionary and for the sole benefit of the CM, the premium cost of inspection shall be reimbursed to the Trustees.

b. Reinspections.
The Trustees may back-charge all reinspection costs to the CM.

c. Additional Inspections.
If a fabricator or manufacturer of a material or equipment requiring inspection is inefficiently performing or performing at multiple locations, then the Trustees may charge the Contractor for the extraordinary costs incurred.

4.23 Cleanup of Project and Site
The CM shall clean up its Work at frequent intervals and at other times when directed by the Architect, the Inspector, or the Trustees. At all times while finish Work is being done, floors shall be kept broom clean. Upon completion of the Work, the CM shall promptly remove from the premises construction equipment and any waste materials not previously disposed of, leaving the premises thoroughly clean and ready for occupancy.

When two or more contractors are engaged in Work at or near the site, each shall be responsible for cleanup and removal of its own rubbish, equipment, and any waste materials not previously disposed.

In the event the CM does not maintain the Project or the Site clear of debris and rubbish in a manner acceptable to the Architect, the Trustees may, at their option, cause the Project or Site to be properly cleaned and may withhold the expense incurred therefor from payments due the CM.

4.24 Project Sign, Advertising
The CM shall furnish and install a Project sign designed by the Architect required as part of the Work under the Contract. As a minimum, the sign shall be four feet by eight feet, made from three-quarter inch plywood. The sign shall identify the Project name, the Trustees, the Architect, and the CM. No advertising is permitted on the Project or Site without written permission from the Trustees.

5.00 - INTERPRETATION OF AND ADHERENCE TO CONTRACT REQUIREMENTS

5.01 Interpretation of Contract Requirements

a. Correlation.
Contract Documents shall be interpreted as being complementary, requiring a complete Project. Any requirement occurring in any one of the Contract Documents is as binding as though occurring in all Contract Documents. Generally, the specifications address quality, types of materials and Contract conditions while the Plans show placement, sizes, and fabrication details of materials.
b. Conflicts.
In the event of conflict in the Contract Documents, the priorities stated below shall govern:
(1) Addenda shall govern over all other Contract Documents, and subsequent Addenda shall govern over prior Addenda only to the extent modified.
(2) Supplementary General Conditions shall govern over Contract General Conditions.
(3) Contract General Conditions shall govern over all sections of the specifications and any notation on the Plans. No other section of the specifications shall modify the Contract General Conditions.
(4) In case of conflict between Plans and Specifications, the Specifications shall govern.
(5) Conflicts within the Plans:
(a) Material and equipment schedules, when identified as such, shall govern over all other portions of the plans.
(b) Specific notes shall govern over all other notes and all other portions of the Plans except the material and equipment schedules described in Article 5.01-b (5) (a), above.
(c) Larger scale drawings shall govern over smaller scale drawings.
(d) Figured or numerical dimensions shall govern over dimensions obtained by scaling.
(6) In the event that provisions of codes, safety orders, Contract Documents, referenced manufacturers’ specifications or industry standards are in conflict, the more restrictive or higher quality shall govern.

c. Omissions.
In the event of omissions in the Contract Documents, the following shall apply:
(1) If the Contract Documents are not complete as to any minor detail of a required construction system or with regard to the manner of combining or installing of parts, materials, or equipment, but there exists an accepted trade standard for good and skillful construction, such detail shall be deemed to be an implied requirement of the Contract Documents in accordance with such standard. “Minor Detail” shall include the concept of substantially identical components, where the price of each such component is small even though the aggregate cost or importance is substantial, and shall include a single component that is incidental, even though its cost or importance may be substantial.
(2) The quality and quantity of the parts or material so supplied shall conform to trade standards and be compatible with the type, composition, strength, size, and profile of the parts of materials otherwise set forth in the Contract Documents.

d. Quality.
The quality of the Work by the CM shall be equal to or better than that required in the specifications, and if it is found that the Work is of lesser quality, the specifications shall prevail.

5.02 Issuance of Interpretations, Clarifications, Additional Instructions
By reaching agreement on the Guaranteed Maximum Price, the CM agrees that it has reviewed the Construction Documents and verified their adequacy and completeness for constructing the Project. CM agrees to supply and install all of the Work as identified or inferred in the Construction Documents necessary to provide a complete and operating facility. Some detailing, clarification, and coordination may be required, and this Work is included in the Guaranteed Maximum Price.

Should the CM discover design errors or design deficiencies in the Construction Documents or have any question concerning interpretation or clarification of the Construction Documents, the CM shall request in writing an interpretation, clarification, or additional detailed instructions, before proceeding with the Work affected. The written request shall be given to the Architect with copies to the Project Manager/Construction Inspector and the Trustees.

The Architect, with review as required by the Trustees, shall, within seven (7) Days, issue in writing the interpretation, clarification, or additional detailed instructions requested.

Should the CM proceed with the Work affected before receipt of the interpretation, clarification, or instructions from the Architect, the CM shall replace or adjust any Work not acceptable to the Architect and Trustees, and shall be responsible for any resultant damage or added cost.

Should the CM consider that it has been given direction to perform Work that it considers is significantly different from the Work shown on the approved Construction Documents, the CM must submit written notice thereof to the Architect within seven (7) Days following receipt of such direction, and in any event prior to commencement of Work thereon. The CM shall send copies of such correspondence to the Trustees and the Project Manager/Construction Inspector within this same seven (7) Days. Within seven (7) Days after the CM issues its written notice, the CM shall submit an explanation of how this direction
constitutes Work significantly beyond the scope of the Contract, along with a detailed cost breakdown and an explanation of any delay impacts.

The Architect shall consider such notice and make a recommendation to the Trustees. If, in the judgment of the Trustees, the notice is justified, the direction shall be revised or the extra Work authorized by Contract change order or by field instruction with a change order to follow. If the Trustees decide that the claim is not justified, the Trustees shall give the CM a written order that the claim is not justified and direct the CM to perform such Work.

The CM must proceed with the Work upon receipt from the Trustees of a written order to do so, in accordance with the Architect’s interpretation of the Contract requirements. If the CM objects to the order, the CM must notify the Architect and the Trustees, in writing of its objection and the reasons therefor within seven (7) Days of receipt of the order. The CM shall have the right to have this claim later determined by a Claims Review Board pursuant to this Contract (see Article 7.01, Claims). When performing disputed Work, the CM shall prepare time and materials records for each day, and the Construction Inspector shall verify these records at the conclusion of each day. The CM shall have no claim for additional compensation because of such direction, unless it gives written notices required to the Architect within seven (7) Days as specified above.

5.03 Product and Reference Standards

a. Product Designation.

When descriptive catalog designations, including the manufacturer’s name, product brand name, or model number are referred to in the Contract, such designations shall be considered as being those found in industry publications of current issue at the date specified in the Request for Proposals.

b. Reference Standards.

When standards of the federal government, trade societies, or trade associations are referenced in the Contract by specific date of issue, these shall be considered a part of this Contract. When such references do not bear a date of issue, the current and most recently published edition at the date specified in the Request for Proposals shall be considered a part of this Contract.

5.04 Shop Drawings, Samples, Alternatives or Equals, Substitutions

a. Submittal Procedure.

The CM shall review and approve all shop drawings. “Shop drawings” include drawings, diagrams, illustrations, material and equipment schedules, performance charts, brochures and catalogs and other data prepared by the CM or any trade contractor, manufacturer, supplier or distributor, and which illustrate some portion of the Work. The CM shall promptly review and mark the shop drawing approved and submit to the Architect, so as to cause no delay in the Work, together with samples as required by the Contract and shall also submit any offers of alternatives or substitutions. At least six copies of shop drawings shall be submitted as well as additional copies as required by Architect. All such submittals shall be sent to the Architect at the address given in the instructions to the CM at the job start meeting. A letter shall accompany the submitted items which shall contain a list of all matters submitted and shall identify all deviations in the shop drawings and samples from the requirements of the Contract. Failure by the CM to identify all deviations may render any action taken by the Architect on the materials submitted to be void. Whether to void such action shall be in the discretion of the Architect. The letter and all items accompanying it shall be fully identified as to Project name and location, the CM’s name, and Contract number. By submitting the approved shop drawings and samples, the CM represents that the data contained therein have been verified with conditions as they actually exist and that the shop drawings and samples have been checked and coordinated with the Contract.

b. Samples.

Samples are physical examples furnished by the CM to illustrate materials, equipment, color, texture, or workmanship, and to establish standards by which the Work will be judged.

The Work shall be in accordance with the samples, submitted as required by the contract and reviewed by Architect. Samples shall be removed by the CM from the Site when directed by the Trustees. Samples not removed by the CM, at the Trustees’ option, will become the property of the Trustees or will be removed or disposed of by the Trustees at the CM’s expense.

c. Alternatives or Equals.

For convenience in designation on the plans or in the specifications, certain materials or equipment may be designated by a brand or trade name or the name of the manufacturer together with catalog designation or other identifying information, hereinafter referred to generically as “designated by brand name.” Alternative material or equipment which is of equal quality and of the required characteristics for the purpose intended may be proposed for use provided the CM complies with the following requirements:

(1) The CM shall submit its proposal to the Architect for an alternative as “an equal” in writing prior to the date of agreeing to a GMP (Public Contract Code section 3400). In exceptional cases where the best interests of
the Trustees so require, the Construction Administrator may give written consent to a submittal or re-
submittal received after the expiration of the time limit designated. The CM is responsible for timely 
submittal of its proposed “or equal.”

(2) No proposal will be considered unless accompanied by complete information necessary to permit 
determination of the equality of the offered materials or equipment. Samples shall be provided when 
requested by the Architect or the Trustees.

(3) The burden of proof as to the comparative quality and suitability of the offered materials or equipment shall 
be upon the CM. Where the material is specified by capacity or performance, the burden of proof shall be on 
the CM to show that any particular equipment or materials meet the minimum capacities or the performance 
requirements specified. The CM shall furnish at its own expense all information necessary for a determination 
as to whether the minimum capacities or performance requirements will be met.

The Architect shall be the judge of such matters. If the Architect rejects the use of any alternative materials or 
equipment, then one of the products designated by brand name shall be furnished.

If changes or delays are required for proper installation or fit of alternative materials, articles, or equipment, or because 
of deviations from Contract Documents, such changes or delays shall be made at the CM’s expense without recourse 
for reimbursement from the Trustees.

d. Substitutions.
If the CM proposes a product that is of lesser or greater quality or performance than the specified material or 
equipment, it must comply with these provisions of Article 5.04, but, in addition, the CM must submit any cost impact, 
and must pay the Architect’s fees associated with the review of this substitution. By submitting a substitute, the CM 
waives any rights to claim a delay due to the processing of this substitution. The time for submittal of a substitution 
of an unequal product shall be restricted to the period prior to the issuance of the construction Contract. The Trustees 
are not obligated to review or accept substitutions.

5.05 Quality of Materials, Articles and Equipment
Materials, articles and equipment furnished by the CM for incorporation into the Work shall be new. When the Contract requires 
that materials, articles or equipment be furnished, but the quality or kind thereof is not specified, the CM shall furnish materials, 
articles or equipment at least equal to the kind or quality or both of specified materials, articles or equipment.

5.06 Testing Materials, Articles, Equipment and Work
a. Materials, articles, equipment or other Work requiring tests are specified in the Contract.

Materials, articles and equipment requiring tests shall be delivered to the Site in ample time before intended use to 
allow for testing and shall not be used prior to testing and receipt of written approval. The CM shall be solely 
responsible for notifying the Trustees where and when materials, articles, equipment and Work are ready for testing. 
Should any such materials, articles, equipment or Work be covered without testing and approval, if required, they 
shall be uncovered at the CM’s expense. The Trustees have the right to order the testing of any other materials, articles, 
equipment or Work at any time during the progress of the Work. Unless otherwise directed, all samples for testing 
shall be taken by the Trustees from materials, articles or equipment to be used on the Project or from Work performed. 
All tests will be under the supervision of, and at locations convenient to, the Trustees. The Trustees shall select the 
laboratories for all tests. Decisions regarding the adequacy of materials, articles, equipment or Work shall be issued 
to the Trustees in writing.

b. All costs of the initial required tests shall be borne by the Trustees.

The Trustees may decide to take further samples and tests, and if the results show that the Work was not defective, 
the Trustees shall bear the costs of such samples and tests.

c. In the event the results of such additional samples and tests show that the Work was defective, the CM shall bear the 
cost of such samples and tests. Samples that are of value after testing shall remain the property of the CM. All retesting 
costs may be back-charged to the CM by the Trustees.

5.07 Rejection
Should any portion of the Work done or any materials, articles or equipment delivered fail to comply with the requirements of 
the Contract, such Work, materials, articles or equipment shall be rejected in writing and shall immediately be made satisfactory 
to the Architect and the Trustees, by the CM, at no additional expense to the Trustees. Any Work that is rejected shall 
immediately be removed from the premises at the CM’s expense. The Trustees may retain one and one-fourth times the cost of 
the rejected materials, articles, equipment, and Work from any payments due the CM until it is made acceptable to the Architect 
and the Trustees. The Trustees may back charge the CM for design costs incurred in the correction of CM’s rejected Work.
5.08 Off-Site Testing
The Trustees shall bear the cost of off-site testing up to a distance of fifty (50) miles from the Project site and up to one fabrication yard or manufacturing plant per manufactured item, for example, structural steel. The increased cost of testing due to the fabrication yard or manufacturing plant being beyond this fifty-mile radius shall be borne by the CM. The increased cost due to the use of multiple fabrication yards or manufacturing plants for similar materials shall be borne by the CM.

5.09 Responsibility of Quality
The testing and inspection provided by the Trustees shall not relieve the CM of its responsibility for the quality of materials and workmanship provided by the CM, and the CM shall make good all defective Work discovered during or after completion of the Project.

6.00 - CHANGES IN THE WORK

6.01 Change Orders
The Trustees reserve the right to issue written orders, or Field Instructions, to the CM, which shall be signed by the Construction Administrator. Through the use of Field Instructions, the Construction Administrator may direct changes in the Work at any time prior to the acceptance of the Project without voiding the Contract, and CM shall promptly comply with such orders. By signing the construction Contract for the Guaranteed Maximum Price, the CM agrees that he has reviewed and accepted the Construction Documents as complete and that he has no right for change orders or extra Work due to conflicts, ambiguities or omissions in the Trade Contractor Contract Documents. The Trustees further agree that unforeseen Site conditions may be a basis for the issuance of a change order. The CM may request changes in the Work, but shall not act on the changes until approved in writing by the Trustees. Any change made without the Trustees’ written authorization shall be the responsibility of the CM; in this case, the Trustees will not increase compensation or extend time for a change involving greater expense to the CM and may reject changes. The consequent responsibility falls on the CM to replace at its own expense the changed Work with that originally specified (Public Contract Code section 10827).

On the basis set forth herein, the Guaranteed Maximum Price shall be adjusted for any written order or Field Instruction requiring a different quantity or quality of labor, materials or equipment from that originally required, and the partial payments to the CM, set forth in Article 8.02, Partial Payments, shall be adjusted to reflect the change. Whenever the necessity for a change arises, and when so ordered by the Trustees in writing, the CM shall take all necessary steps to halt such other Work in the area of the change that might be affected by the ultimate change. Changed Work shall be performed in accordance with the original Contract requirements except as modified by the change order. Except as herein provided, the CM shall have no claim for any other compensation due to changes in the Work (Public Contract Code section 10841).

a. Proposed Change Orders.
The Trustees shall issue to the CM a cost request bulletin via the Architect, for a proposed change order describing the intended change, and shall require the CM to respond with a proposed amount to be added to or subtracted from the Contract price due to the change supported by a detailed estimate of cost (hereinafter called a change order request). Upon request by the Trustees, the CM shall permit inspection of the original Contract estimate, trade contract agreements, or purchase orders relating to the change. The CM shall also include in its response to the cost request bulletin, with substantiating detailed explanation, any request for adjustment in time of final completion of the Project that is directly attributable to the changed Work. CM’s failure to request adjustment of time on the change order request shall waive any right to subsequently claim an adjustment of the time for final completion based on the changed Work. The CM shall submit the change order request with detailed estimates and any time extension request thereon to the Architect and the Trustees within fifteen (15) Days after issuance of the cost request bulletin, with a copy to the Project Manager/Construction Inspector. If the change order request is not submitted within the required fifteen (15) Days, and the CM has not obtained the Architect’s and the Trustees’ permission for a delay in submission, the Trustees may order the CM, in writing, to begin the Work immediately, in accordance with 6.01-d, Allowable Time Extensions, or Article 6.02, Emergency Changes, and the Contract price shall be adjusted in accordance with the Trustees’ estimate of cost, unless the CM, within fifteen (15) Days following completion of the changed Work, presents proof convincing to the Trustees that the Trustees’ estimate was in error. For any amount to be added to the Contract price for the changed work, the Trustees shall determine payment will be made in one of the following three ways: a lump sum amount, time and materials with a guaranteed maximum price, or time and materials with no guaranteed maximum price. If either of the latter two methods is agreed upon, the CM shall keep and submit time and materials records verified daily by the Construction Inspector to substantiate its costs and to furnish such proof.

When the Trustees and the CM agree on the amount to be added to or deducted from the Contract price and the time to be added to or deducted from the completion date, and a Contract change order is signed by the Trustees and the CM, the CM shall proceed with the changed Work. When the Trustees and the CM agree to the adjustment in the CM’s compensation for the performance of changed Work, but fail to agree to the time adjustment for such Work, the
CM shall proceed with the Work at the agreed price, reserving the right to further pursue its claim for a time adjustment (see Article 4.16-d, Adjustment of Contract Time Due to Acts of the Trustees or the Architect). Any costs incurred to acquire information relative to a proposed change order shall not be borne by the Trustees.

b. Allowable Costs Upon Change Orders.

The only estimated or actual costs which will be allowed because of changed Work, and the manner in which such costs shall be computed, shall be in accordance with the following eight provisions. In submitting a change order request, the CM affirms that the cost is submitted in good faith, that the cost is accurate and is in accordance with the provisions of the Contract requirements, and the CM submits the cost recognizing the significant civil penalties and treble damages which follow from making a false claim or presenting a false claim to the Trustees (Government Code section 12650 et seq.). Direct cost is defined as the actual cost of Work before the application of any mark-ups for overhead and profit. In addition to items identified in the following provisions, direct cost items may include: hoisting, clean-up (both periodic and final), trash removal, traffic control, and dust control.

(1) Labor.

Costs are allowed for the actual payroll cost to the CM for labor, field supervision of changed Work, (but not field office supervision nor indirect supervision) and engineering or technical services directly required for the performance of the changed Work (but not site management such as field office estimating, clerical, purchasing, as-built, change order coordination, or warranty). Costs include payments, assessments, or benefits required by lawful labor union collective bargaining agreements, compensation insurance payments, contributions made to the State pursuant to the Unemployment Insurance Code, and for taxes paid to the federal government required by the Social Security Act.

No labor cost will be recognized at a rate in excess of the wages that are paid by the CM for similar Work on the Project at the time the Work is performed, nor will the use of a classification which would increase the labor cost be permitted unless the CM established to the satisfaction of the Trustees the necessity for use of such higher classifications of workers. The CM and trade contractors shall submit a fully detailed breakdown of the cost of every labor classification to be utilized on a proposed change order the Hourly Labor Rate Worksheet. The Trustees may verify wage and burden per Article 4.02-a, Prevailing Wage, subdivision (6). The unit cost of labor shall be an accurate accounting of actual costs paid in accordance with the allowances herein, and it shall be submitted under penalty of perjury.

(2) Materials.

CM’s costs are allowed for the cost of the materials directly required for the performance of the changed Work. Such cost of materials may include the costs of transportation, sales tax, and delivery if necessarily incurred. If a trade discount by the actual supplier is available to the CM, it shall be credited to the Trustees. If the materials are obtained from a supply or source owned wholly or in part by the CM, payment therefor will not exceed the current wholesale price for such materials. Cost for consumed materials may be charged on a reasonably estimated basis, but may not be a percentage of labor.

If, in the opinion of the Trustees, the cost of materials is excessive, or if the CM fails to furnish satisfactory evidence of the cost from the actual suppliers thereof, then in either case the cost of the materials shall be deemed to be the lowest wholesale price at which similar materials are available in the quantities required at the time they were needed. The Trustees reserve the right to furnish such materials as they deem advisable, and the CM shall have no claim for costs or profits on material furnished by the Trustees.

(3) Equipment.

CM’s costs are allowed for the actual cost of the use of equipment directly required in the performance of the changed Work except that no payment will be made for time while equipment is inoperative due to breakdowns or for non-working days. The rental time shall include the time required to move the equipment to the Project site from the nearest available source for rental of such equipment, and to return it to the source. If such equipment is not moved by its own power, then loading and transportation costs will be paid. However, neither moving time nor loading and transportation costs will be paid if the equipment is used on the Project in any other way than upon the changed Work. Individual pieces of equipment having a replacement value of $200.00 or less shall be considered to be small tools or small equipment, and no payment therefor will be made unless it has been rented specifically for the changed Work. Consumed equipment or tools, such as paint brushes, rollers, drill bits, etc. may be charged on an actual or reasonably estimated cost basis and are not to be charged as a percentage.

For equipment owned, furnished, or rented by the CM, no cost therefor shall be recognized in excess of the rental rates established by distributors or equipment rental agencies in the locality where the Work is performed.
The amount to be paid to the CM including mark-up for the use of equipment as set forth above shall constitute full compensation to the CM for the cost of fuel (unless the CM has demonstrated that mark-up does not cover consumed fuel cost), power, oil, lubrication, supplies, small tools, small equipment, necessary attachments, repairs and maintenance of any kind, depreciation, storage, insurance, and any and all costs to the CM incidental to the use of such equipment. Equipment operators shall be paid for as provided in Article 6.01-b (1), above.

(4) Mark-ups on Change Orders.

The mark-ups allowed on the direct cost of changed Work include all incidental overhead support costs and profit. Such incidental overhead support costs include: estimating and purchasing; indirect supervision and Project management; home office overhead; site overhead including facilities and utilities; change order coordination; as-built drawings; warranties; bonds; liability insurance including labor; and small tools. Any incidental overhead support cost not expressly identified herein shall be included in the CM’s mark-up. No mark-up on mark-up is permitted. If the trade contractor is owned, partially owned, or has a shared profits arrangement with the CM, any mark-up otherwise applicable to a change shall be reduced in proportion with the shared profits.

(5) Work by Trade Contractors and Vendors.

For any portion of the changed Work which is to be performed by a subcontractor (any tier), the CM shall furnish to the Trustees a detailed estimate prepared and signed by trade contractor of the cost to trade contractor for performing the changed Work. At the option of the Trustees, a lump sum estimate of such cost to trade contractor may be accepted in lieu of the detailed estimate. The combined costs for trade contractor’s overhead, profit, taxes, indirect supervision, insurance, bonds, warranty and any other costs not specifically allowed by Article 6.01-b (1), (2) and (3), shall not exceed fifteen (15) percent on the first $50,000 of the direct cost; thereafter, ten (10) percent on the balance beyond $50,000. The maximum allowable mark-up of trade contractor on any subcontractor tiers shall be seven (7) percent. The aggregate mark-ups allowed by trade contractors and multiple-tiered subcontractors shall not exceed twenty-six (26) percent of the direct cost on the first $50,000, thereafter, twenty-one (21) percent on the balance beyond $50,000. Estimates of the amount to be deleted from trade contractor’s portion of the Work shall be gross value of the deducted Work plus at least six percent for overhead, insurance, and related savings added to the direct value of the deleted Work. For changed Work to be furnished by a vendor, the CM shall furnish upon demand of the Trustees, a lump sum estimate of the cost of the items including taxes and cartage to the CM prepared by the vendor. No vendor mark-up for overhead, profit, layout, supervision or bonds will be allowed for changed Work furnished by a vendor.

(6) CM Mark-up for Added Work.

When changed/added Work is performed by a trade contractor, the CM may add no more than ten (10) percent mark-up to the trade contractor’s total direct cost estimate (excluding the trade contractor’s mark-up) for such Work on the first $50,000; thereafter the mark-up is seven (7) percent on the balance beyond $50,000. The CM’s ten percent mark-up in this case is for profit, overhead, insurance, taxes, indirect supervision, bonds, warranty and any other costs not specifically allowed by Article 6.01-b (1), (2) and (3). Also refer to Article 4.09-e, Utilities, for special mark-up on repair of utilities. The CM may add up to fifteen (15) percent to its direct cost when self-performing the changed Work on the first $50,000 and ten (10) percent thereafter on the balance beyond $50,000.

(7) Credit for Deleted Work.

Where an entire item or section of Work is deleted from the Contract, the entire trade contract or subcontract value or bid value shall be considered the appropriate deduction less the value of Work performed, and shall have at least six percent mark-up added thereto for the CM’s saved overhead, bonds and insurance. If the subcontract value or bid value is not identifiable, then the amount to be deducted from the Contract amount shall be the estimated value of the deducted Work plus at least six percent for saved overhead, bonds and insurance. The value submitted on the schedule of values shall be used to calculate the credit amount, and may not be further marked up if it includes the value for general conditions (overhead, bonds, insurance, etc.).

For proposed change orders that involve both added and omitted Work, the CM shall separately calculate its total added costs and its total deducted costs, and then shall sum its total added and deducted costs, resulting in the CM’s net cost for the change order. The CM shall then apply the mark-up to this net cost. Similarly, the CM shall separately calculate each trade contractor’s total added costs and total deducted costs, and shall then sum each trade contractor’s total added and deducted costs, resulting in each trade contractor’s net cost for the change order. If the resulting net costs for each trade contractor will increase the Contract price, then
the CM shall apply separate mark-ups for added Work as specified in Article 6.01-b (6). If the resulting net costs for each trade subcontractor will decrease the Contract price, then the CM shall apply separate mark-ups for deleted Work as specified in Article 6.01-b (7).

For example:

- CM – net cost is $30,000, CM’s mark-up is 15%, or $4,500.
- Trade Contractor A – net cost is $20,000, CM’s mark-up is 10%, or $2,000.
- Trade Contractor B – net cost is <$10,000>, CM’s mark-up is six percent, or <$600>.

The CM’s total mark-up for this example change order is $5,900.

(8) Market Values.

Cost for added Work shall be no more than market values prevailing at the time of the change, unless the CM can establish to the satisfaction of the Trustees that it investigated all possible means of obtaining Work at prevailing market values and that the excess cost could not be avoided.

When a change order deletes Work from the Contract, the computation of the amount thereof shall be the values which prevailed at the time bids for the Work were opened, if the Work is contained in a subcontract agreement or purchase order executed at or near the time bids were opened.

c. Failure to Agree as to Cost

(1) For Added Work.

Notwithstanding the failure of the Trustees and the CM to agree as to the cost of the proposed change order, the CM, upon written order from the Trustees, shall proceed immediately with the changed Work. A Field Instruction or letter signed by the Trustees shall be used for this written order. At the start of each day’s Work on the change, the CM shall notify the Trustees in writing as to the size of the labor force to be used for the changed Work and its location. Failure to so notify may result in the non-acceptance of the costs for that day. At the completion of each day’s Work, the CM shall furnish to the Construction Inspector a detailed summary of all labor, materials, and equipment employed in the changed Work. The Construction Inspector will compare his/her records with CM’s daily summary and may make any necessary adjustments to the summary. After the Construction Inspector and the CM agree upon and sign the daily summary, the summary shall become the basis for determining costs for the additional Work. The sum of these costs when added to an appropriate mark-up will constitute the payment for the changed Work. The Trustees, however, may make subsequent adjustments, based on later audits. When changed Work is performed at locations away from the job site, the CM shall furnish in lieu of the daily summary, a summary submitted at the completion of the Work containing a detailed statement of labor, material, and equipment used in the Work. This latter summary shall be signed by the CM who shall certify thereon under penalty of perjury that the information is true, and the costs are as allowed in Article 6.01-b (1), (2) and (3). If changed Work is to be paid based on time and materials, a credit for deleted Contract Work shall be included. Mark-up shall be as provided in Article 6.01-b (4), (5), (6) and (7).

The CM shall maintain and furnish on demand of the Trustees itemized statements of cost from all vendors and trade contractors who perform changed Work or furnish materials and equipment for such Work. All statements must be signed by the vendors and the trade contractors.

(2) For Deleted Work.

When a proposed change order contains a deletion of any Work, and the Trustees and the CM are unable to agree upon the value thereof, the Trustees’ estimate may be deducted from the Contract price and may be withheld from any payment due the CM until the CM presents proof convincing to the Trustees that the Trustees’ estimate was in error. The amount to be deducted, other than deletion of an entire item as addressed in Article 6.01-b (7), shall be the costs to the CM for labor, materials, and equipment which would have been used on the deleted Work together with the credit mark-up. The provisions of Article 6.01-b shall be followed in computing the amounts involved for changes other than deletion of an entire item.

d. Allowable Time Extensions.

For any change in the Work, the CM shall be entitled only to such adjustments in time by which completion of the entire Work is delayed due solely to performance of the changed Work. However, no extension of time shall be granted for a change in the Work unless the CM demonstrates to the satisfaction of the Trustees that the Work is on the critical path and submits an updated CPM schedule showing that an extension of time is required and that the CM is making, or has made, every reasonable effort to guarantee completion of the additional Work called for by the change within the time originally allotted in the Contract (Public Contract Code section 10842).

Adjustment in Contract time shall be on a calendar day basis, except that if the new Contract completion date falls on a Saturday, Sunday, or legal holiday, it shall be extended through the next full Working Day. Such adjustment is
applicable only once in the course of a Contract, and should occur only at the end of the Contract. Attention is directed to Article 4.16, Contract Time, and Article 4.17, Schedule.

e. Use of CM’s Contingency
   (1) If there is an omission or correction in the Construction Documents that should have been identified through a reasonable constructability check and coordination review of the Construction Documents by the CM, then the CM shall purchase and install the omitted equipment or material utilizing the CM’s contingency. The CM shall obtain the Trustees’ approval of the use of any of the CM’s contingency, and this approval shall not be unreasonably withheld.
   (2) The CM shall not include mark-up for overhead and profit on changes necessitated by omissions or corrections to the Construction Documents that should have been identified by a reasonable constructability check and coordination review.
   The CM shall not utilize the CM Contingency to pay OCIP and/or BRIP insurance deductibles described in Articles 4.06-b and 4.06-c.
   (3) With each monthly payment request, the CM shall submit an accounting of the CM’s use of their contingency, along with a documentation of the Trustees’ approval. This accounting shall be presented to the Trustees as a draw against the CM’s contingency.

f. Use of Allowances
The Trustees limit the use of allowances; however, the Trustees shall approve the use of any allowance, on a case by case basis. If the Trustees so approve, allowances may only be used for specific and discrete scopes of Work that were indeterminate at the time of producing the GMP, such as for trades where the CM did not receive a bid, when the CM is self-performing Work, or when review of trade bids reveals necessary Work that is not included. The CM shall not aggregate allowances to create another Project contingency; the CM bears the cost risk of completing the Work covered by a CM Allowance, and shall return unused portions of the CM Allowance to the Trustees in a credit change order. The Trustees are responsible for the estimate on a Trustees’ allowance.

The CM shall only use allowances for their identified specific and discrete purpose. The CM may not use allowance balances to make up deficits on other line items. The Trustees shall authorize each debit from an allowance in writing, using a field instruction. The CM shall maintain a detailed cost accounting, including allowances, and submit it with the monthly payment application for the Trustees’ approval. The trade contractors shall mark up direct cost items in accordance with this Article 6, however, Trustees will not award to CM additional mark-ups or fees on allowances.

6.02 Emergency Changes
Changes in the Work agreed by the Trustees to be necessary due to unforeseen Site conditions, discovery of errors in plans or specifications requiring immediate clarification in order to avoid a serious Work stoppage, changes of a kind where the extent cannot be determined until completed, or under any circumstances whatsoever when deemed necessary by the Trustees are kinds of emergency changes which may be authorized by the Trustees in writing to the CM. The CM shall commence performance of the emergency change immediately upon receipt of written direction from the Trustees.

If agreement is reached as to compensation and/or time adjustment for the purpose of any emergency change, then compensation and/or time extension, as appropriate, will be as provided in Article 6.01 relating to ordinary changes. If agreement is not reached as to compensation and/or time adjustment at the time of commencing the emergency change, then compensation and/or time extension, as appropriate, will be as provided in Article 6.01-d, that is, time and materials records and summaries shall be witnessed and maintained until either a lump sum payment and/or a time extension, as appropriate, are agreed upon, or the changed Work is completed.

7.00 - CLAIMS AND DAMAGES

7.01 Claims
a. Claim and Dispute Submittals.
Any dispute related to this Contract or its breach that is not resolved by agreement shall be promptly submitted in accordance with this Article 7.01, with adequate supporting data. Adequate supporting data shall include, but is not limited to a statement of the reasons for the asserted entitlement, the certified payrolls, invoice(s) for material and equipment rental, and an itemized breakdown of any adjustment sought.
At the time of submission of any claim, the CM shall certify as follows:

**SUBMISSION UNDER PENALTY OF PERJURY**

“I, (insert full name), am the (insert title--must be an Officer) of (insert name of firm), and I declare under penalty of perjury under the laws of the State of California and do personally certify and attest that: I have thoroughly reviewed the attached claim for additional compensation and/or extension of time, and know its contents, and said claim is made in good faith; that the supporting data is truthful and accurate; that the amount requested accurately reflects the contract adjustment for which I believe the Trustees are liable, and further, that I am familiar with California Penal Code section 72 and California Government Code section 12650 et seq., pertaining to false claims, and further know and understand that submission or certification of a false claim may lead to fines, imprisonment and/or other severe legal consequences.”

BY: (signature) Date: (insert date of signature)

CM’s submission of a claim, properly certified, with all required supporting documentation, and Trustees’ written rejection or denial of all or part of the claim(s) are conditions precedent to any action, proceeding, litigation, suit, or demand for arbitration by the CM.

b. CM’s Claim(s) – Notice of Claim.

In accordance with Article 5.02 (Issuance of Interpretations, Clarifications, Additional Instructions), should the CM disagree with the determination of the Trustees on a matter that substantially affects the CM’s costs, compensation or extent of Work, the CM shall file a preliminary claim with the Trustees and request a review of the decision. The CM must proceed with the Work upon receipt from the Trustees of a written order to do so. However, within seven (7) Days of receipt of the written order, the CM must notify the Architect and the Trustees, by letter, that it protests the decision.

c. CM Submission of Unresolved Claims to Claims Review Board.

All unresolved claims arising from this Contract, for which the CM seeks resolution by a Claims Review Board, shall be submitted in writing in accordance with this Article 7.01 to the Trustees no later than 30 Days after the County Recorder’s recordation date on the Trustees’ Notice of Completion. The CM’s failure to submit its claims to the Trustees within this 30-day period shall constitute a waiver by the CM of such claims. Once the claims have been submitted, and the 30 Days after the County Recorder’s recordation date on the Notice of Completion have expired, CM may not submit any additional claims. CM shall have 30 additional Days in which to submit six copies of a total and detailed claims package. Failure to submit the full detailed package within this second 30-day period shall constitute a waiver by the CM of such claims.

CM submits the claim recognizing the significant civil penalties and treble damages which follow from making a false claim or presenting a false claim to the Trustees (see Government Code sections 12650 et seq.).

d. Trustees’ Claim(s) Submittal.

The Trustees shall submit a rebuttal to the CM’s claim, along with any Trustees’ claims to the Claims Review Board within a reasonable time after the submission by the CM of a total and detailed claims package or the expiration of the time period to file CM’s claims.

e. CM Rebuttal to Trustees’ Claims.

Upon submission of any Trustees claims, the CM shall have an additional 30 Day period to submit to the Claims Review Board the CM’s rebuttal to the Trustees’ claims.

The Trustees will convene a Claims Review Board to hear the submitted claims at the completion of the Project. Each Claims Review Board shall continue to function until the members review all pertinent facts and arrive at a recommendation. The Claims Review Board process is administered by the Assistant Vice Chancellor for Capital Planning, Design and Construction, or a designee. These administrative responsibilities include, but are not limited to, selection of the Claims Review Board members, determination of the time and location of the hearing, and application of the Claims Review Board procedures. The Claims Review Board is comprised of representatives of the California State University, which may include representatives of Capital Planning, Design and Construction staff who have not had any direct connection to any claim from the Project. It is a lay board; attorneys and third party claims specialists may not participate in the hearings, with the exception of scheduling consultants. The Board’s recommendation will be made as soon as possible after the conclusion of the hearing, and that recommendation is made to the appropriate University official and the Assistant Vice Chancellor of Capital Planning, Design and Construction. The decision to accept or reject the Board’s recommendation is the responsibility of either the University
g. Actions Post Claims Review Board.
   (1) Initial Mediation.
   Should a dispute remain unresolved following exhaustion of the Claims Review Board process, the parties shall attempt in good faith first to mediate such dispute and use their best efforts to reach agreement on the matters in dispute. Within five (5) days of the request of any party, the requesting party shall attempt to employ the services of a third person mutually acceptable to the parties to conduct such mediation within five (5) days of his appointment.
   (2) Other Dispute Resolution.
   If the parties are unable to agree on such third person, or, if on completion of such mediation, the parties are unable to agree and settle the dispute, then the dispute may be pursued in litigation or through some other dispute resolution technique.

7.02 Delay in Completion--Liquidated Damages
If the Work is not completed within the time required, damage will be sustained by the Trustees. It is, and will be, impractical and extremely difficult to determine the actual damage that the Trustees will sustain by reason of the delay. It is therefore agreed that the CM will pay to the Trustees the sum of money stipulated per Day in the Contract for each Day’s delay in completing the Work beyond the time prescribed. See Article 8.01, Acceptance. If the CM fails to pay such liquidated damages, the Trustees may deduct the amount thereof from any money due or that may become due the CM under the Contract (Public Contract Code section 10826). If the Trustees have occupancy of all or the majority of the Project and can use it for its intended purpose, including operation of fire and life safety systems, the Trustees may reduce the amount of assessment of liquidated damages, if it is determined to be in the best interest of the Trustees, to $500 per Day or half of the value originally stipulated per Day, whichever is higher. The Trustees’ assessment of liquidated damages shall not commence on a Saturday, Sunday or legal holiday.

7.03 Termination for Cause
If the Trustees deem that CM has failed to supply an adequate working force or material of proper quality, or CM has failed in any other respect to prosecute the Work with the diligence and force as required by the Contract, then the Trustees may take any of the actions authorized by Public Contract Code section 10843 et seq. The CM’s failure to complete a punch list with diligence is an example of a failure to prosecute the Work with the diligence and force required by the Contract.

If the costs of finishing the Work exceed the unpaid balance of the Contract sum, the CM shall pay the difference to the Trustees.

If it is subsequently determined that grounds for termination under this Article do not exist, then the CM shall be deemed to have been properly terminated for convenience under Article 7.04, Termination for Convenience.

7.04 Termination for Convenience
After the third payment request or 90 Days, whichever comes first, the Trustees may terminate this Contract or any part thereof, for its sole convenience and without cause. Unless Trustees direct otherwise, upon written notice from the Trustees of such termination, the CM shall:
   a. Stop all Work under the Contract except that specifically directed to be completed before suspension of the Work.
   b. Perform Work the Trustees deem necessary to secure the Project for termination.
   c. Remove equipment and plant from the Site of the Work.
   d. Take such action as is necessary to protect materials from damage.
   e. Notify all trade contractors, subcontractors and suppliers that the Contract has been terminated, and that their contracts or orders are not to be further performed unless otherwise authorized in writing by the Trustees. Reference Articles 4.05, Delegation of Performance and Assignment of Money Earned, and 7.05, Assignment of Trade Contracts.
   f. Provide the Trustees with an inventory list of all materials previously produced, purchased or ordered from suppliers for use in the Work and not yet used in the Work, including their storage locations, and such other information as the Trustees may request.
   g. Handle materials not yet used in the Work as directed by the Trustees. The CM shall provide the Trustees with good title to all materials purchased hereunder, including materials for which partial payment has been made.
   h. Subject to prior written approval of the Trustees, settle all outstanding liabilities and all claims arising out of trade contracts, subcontracts or orders for materials terminated hereunder. To the extent directed by the Trustees, the CM
shall assign to the Trustees all the right, title and interest of the CM under trade contracts or orders for materials terminated hereunder.

i. Furnish the Trustees with the documentation required to be furnished by the CM under the provisions of the Contract.

j. Take such other actions pertinent to terminating the Contract as the Trustees may direct.

k. Remain liable for any defective construction completed before termination.

The CM shall be paid in accordance with the provisions of Article 8.02, Partial Payments, with the following exception. The amount due the CM shall be based upon the Trustees’ final estimate of the actual Work completed, or acceptable materials furnished but not used, to the date of suspension of the Work, less any amounts required to be withheld pursuant to Article 8, Payment and Completion, and less any prior payment(s) made to, or on account of the CM.

7.05 Assignment of Trade Contracts

Should the CM’s control over the Work be terminated under Article 7.03, Termination for Cause, or 7.04, Termination for Convenience, the Trustees may elect to take legal assignment of trade contracts and purchase orders. In such an event, the CM shall, as a condition of receiving the payments referred to in these Articles, execute and deliver all papers and take all steps, including the legal assignment to the Trustees of trade contracts, purchase orders and other contractual rights of the CM, as the Trustees may require for the purpose of fully vesting in the Trustees all rights and benefits of the CM under such trade contracts, purchase orders, or other contractual rights in order that the Trustees may proceed to finish the Project.

7.06 Third-Party Claims

The Trustees have full authority to compromise or otherwise settle any claim relating to a Contract at any time. However, the Trustees shall notify CM of the receipt of any third-party claim relating to the Contract (Public Contract Code section 9201).

8.00 - PAYMENT AND COMPLETION

8.01 Acceptance

When the Project has been completed in all respects in accordance with the plans and specifications, to the full satisfaction of the Trustees, the Trustees will file a Notice of Completion with the County Recorder in the county in which the Project is located. Projects bid with a segregation of costs for separate, independent portions may, at the Trustees’ discretion, have each of the separate portions accepted individually. The date of acceptance of the Project as stated on the Notice of Completion shall be the official completion date relating to liquidated damages. Acceptance shall be final and conclusive except for latent defects, gross mistakes amounting to fraud, audit rights, or Trustees’ rights under any warranty or guarantee.

The County Recorder’s date of recording on the Notice of Completion, if filed timely (within fifteen (15) Days of acceptance), shall be the official completion date relating to stop payment notices. All stop payment notices must be filed with the Trustees within 30 Days after the County Recorder’s recordation date on the Trustees’ timely filed Notice of Completion. All claims arising from this Contract shall be submitted in writing to the Trustees no later than 30 Days after the recordation date on the Trustees’ Notice of Completion. See Article 7.01, Claims.

8.02 Partial Payments

To assist in computing partial payments, the CM shall submit to the Architect, the Construction Inspector, and the Trustees a “Schedule of Values” of the CM’s actual and estimated costs for each item of Work, including approved change orders. The cost breakdowns shall be in sufficient detail for use in estimating the Work to be completed each month and shall be submitted within 21 Days after the date of commencement of Work given in the Notice to Proceed. The CM shall also provide the breakdown of the awarded Contract value by completing the Uniformat Building Systems form. This information is valuable to the Trustees for budgeting purposes, and shall be submitted by the CM to the Construction Administrator along with the initial submittal of the Schedule of Values.

Once each month during the progress of the Work, the CM shall submit to the Construction Administrator a partial payment request that has been received and agreed to by the Architect and the Trustees’ Project Manager/ Construction Inspector. The CM shall base the partial payment request on the approved schedule of values for the cost of the Work completed plus, where applicable, a maximum of 90% of the verified supplier-invoiced amount and CM-purchased acceptable materials delivered to the Site or stored subject to the control of the CM but identified as the property of the Trustees and not yet installed and as allowed on the Contract Payment Request Form 702.12, line 2-f. The CM must make any materials stored on-site accessible to the Trustees to verify invoiced value and shall deliver these materials to the Trustees upon request. When submitting a request for payment for materials, the CM shall submit the Request for Materials On Hand, Form 702.17, with its partial payment request.

The partial payment request shall be submitted on the monthly anniversary of the day selected by the CM in the job start meeting. The amount requested shall be based on the Schedule of Values multiplied by the percentage of Work completed.
including the CM’s Fee, prorated based on the percentage of Work completed. If requested by the Trustees, the CM shall submit a detailed cost report including additional substantiation such as trade contractor payments, material invoices, payrolls for all labor, and other such data supporting the CM’s right to payment. The detailed cost report shall be forwarded to the Construction Administrator no later than seven (7) Days following receipt of the request.

The Architect and Construction Inspector shall review and certify as to the validity of the request, which, if the request includes an invoice for materials, then it shall include an inspection by the Construction Inspector of materials invoiced. No partial payment shall be made without the certification of the Architect, unless the partial payment is strictly administrative, and is processed after the completion of the Work (e.g. release of stop payment notice claims).

Partial payment requests shall be processed with five percent retention. The Trustees hold this retention in part as security for the fulfillment of the Contract by CM. The Trustees will withhold sufficient funds in addition to the retention to cover for anticipated liquidated damages, stop payment notices, Labor Code wage and penalty assessments, unacceptable Work, punch list Work, and Trustees’ back-charges such as for retesting and re-inspection. The Trustees will withhold monies from partial payments for incomplete punch list Work in addition to retention. The Trustees shall not process partial release of retention before Contract completion (Public Contract Code section 10851) unless the Project is phased with a segregation of costs per Articles 8.01 and 8.05.

Partial payments shall not be construed as acceptance of any Work that is not in accordance with the requirements of the Contract. Once the Architect and the Construction Inspector have certified the partial payment request, it shall be submitted to the Trustees’ Construction Administrator for approval and processing (Public Contract Code section 10851). Payment will then be processed in accordance with the section 10853 of the Public Contract Code. Such procedure provides for 39 days processing, from the date of receipt by the Construction Administrator, prior to assessment of late payment interest.

8.03 Direct Construction Cost of the Work
The term “direct construction cost of the Work” shall mean costs necessarily incurred by the CM in the proper performance of the Work. Such costs shall be at rates not higher than the standard paid at the place of the Project except with prior written consent of the Trustees. The “direct construction cost of the Work” shall include only the following items set forth in this Article 8.03, Direct Construction Cost of the Work, and further defined in the Request for Proposals under Classification of Project Costs (Table A).

a. Labor Costs.
   (1) Wages of construction workers directly employed by the CM to perform the construction of the Work at the Site or, with the Trustees’ agreement, at off-site workshops.
   (2) Actual costs paid or incurred by the CM for taxes, insurance, contributions, assessments and benefits, associated with the construction workers directly employed by the CM, and as required by law.

b. Trade Contractor Cost.
   Payments made by the CM to trade contractors in accordance with the requirements of the subcontracts.

c. Cost of Materials and Equipment Incorporated in the Completed Construction.
   (1) Actual costs, including transportation of materials and equipment incorporated or to be incorporated in the completed construction.
   (2) Costs of materials in excess of those actually installed but required to provide reasonable allowance for waste and for spoilage. Unused excess materials, if any, shall be handed over to the Trustees at the completion of the Work or, at the Trustees’ option, shall be sold by the CM. Amounts realized, if any, from such sales shall be credited to the Trustees as deduction from the cost of the Work.

d. Cost of Other Materials and Equipment and Related Items.
   (1) Actual costs, including transportation, installation, maintenance, dismantling and removal of materials, supplies, temporary facilities, machinery, equipment, and hand tools not customarily owned by the construction workers, which are provided by the CM at the Site and fully consumed in the performance of the Work. Cost for items previously used by the CM shall mean fair market value. The Trustees reserves the right to dispose of all temporary structures and small tools that have been purchased but are no longer required for the Work.
   (2) Costs of removal of debris from the site.

e. Miscellaneous Costs.
   (1) Sales taxes imposed by a governmental authority which are related to the work and for which the CM or Owner is liable.
   (2) Fees of testing laboratories for tests required by the Contract Documents, except those related to defective or nonconforming work for which reimbursement is excluded by Article 5.06, Testing Materials, Articles, Equipment and Work, or other provisions of the Contract Documents.
(3) Deposits lost for causes other than the CM's fault or negligence.

(4) Cost of surveys if required for the Work.

(5) Costs of obtaining and using all utility services required for the Work, if not paid directly by the Trustees.

f. Other Costs.
This category includes other costs incurred in the performance of the Work if and to the extent approved in advance in writing by the Trustees. CM shall include items such as crane rental/operation in the GMP as general requirements.

g. Excluded from Direct Construction Cost of the Work.
(1) Costs in repairing or correcting Work damaged or improperly executed by construction workers in the employment of the CM and/or trade contractors, resulting from the fault or negligence of the CM and/or trade contractors or the CM's and/or trade contractors’ employees, foremen, engineers or superintendents, or other supervisory, administrative or managerial personnel.

(2) Costs in repairing damaged Work other than that described in Article 8.03-g (1), resulting from the fault or negligence of the CM or the CM's personnel, and only to the extent that the cost of such repairs is not recoverable by the CM from others and the CM is not compensated therefor by insurance or otherwise.

8.04 Construction Phase Services
The term “construction phase services” shall mean those costs incurred by the CM in the field management, supervision, and administration of the Work, and further defined in the Request for Proposals under Classification of Project Costs (Table A). The CM’s fee percentage for construction phase services, as included in the cost proposal, shall include the following items:

a. Labor Costs.
(1) Wages or salaries of the CM's supervisory and administrative personnel when stationed at the Site with the Trustees’ agreement.

(2) Wages and salaries of the CM's supervisory or administrative personnel engaged at factories, workshops (not including CM's principal or branch offices) or on the road expediting the production or transportation of materials or equipment required for the Work, but only for that portion of their time required for the Work.

(3) Wages or salaries of the CM’s Project manager, whether stationed at the Site or in the CM’s principal office or branch offices, but only for that portion of his/her time required for the Work.

b. Travel and Subsistence.
That portion of the reasonable travel and subsistence expenses of the CM's personnel incurred while traveling in discharge of duties connected with the Work.

c. Miscellaneous Costs.
(1) That portion of premiums for insurance and bonds directly attributable to the Contract.

(2) Fees and assessments for the building permit and for other permits, licenses and inspections for which the CM is required by the Contract Documents to pay.

8.05 Costs Not Included in Construction Phase Services
The cost of the Work shall not include:

a. Any costs incurred by the CM in providing pre-construction services paid under a separate service agreement executed between the CM and the Trustees.

b. Salaries and other compensation of the CM's personnel stationed at the CM's principal office or offices other than the Site office, except as specifically provided in Articles 8.03 and 8.04.

c. Payments to CM's employees over and above their regular pay (bonuses, incentive pay, profit sharing, severance pay, etc.).

d. Expenses of the CM’s principal office and offices other than the Site office.

e. Overhead and general expenses, except as may be expressly included in Articles 8.03 and 8.04.

f. The CM's capital expenses, including interest on the CM's capital employed for the Work.

g. Except as provided in Article 8.03, costs due to the fault or negligence of the CM, trade contractors, anyone directly or indirectly employed by the CM or trade contractors, or for whose acts the CM or trade contractors may be liable, including but not limited to costs for the correction of damaged, defective or nonconforming Work, disposal and replacement of materials and equipment incorrectly ordered or supplied, and making good damage to property not forming part of the Work.
h. Electronic processing and personnel cost incurred by the CM in preparing the Project schedule and schedule updates, payroll, project cost reports or project status reports and any other reports necessary to the progress of the Work.

i. Any costs based on percentages, rather than actual costs paid by the CM, unless specific percentages are documented and approved by the Trustees.

j. Any fees paid to Contractor/CM organizations (AGC, ABC, AIA etc.)

k. Contractor's business license.

l. Any cost not specifically and expressly described in Articles 8.03 and 8.04.

m. Costs that would cause the Guaranteed Maximum Price to be exceeded.

8.06 Discounts, Rebates and Refunds

a. Cash discounts obtained on payments made by the CM shall accrue to the Trustees if (1) before making the payment, the CM included them in a payment request and received payment therefor from the Trustees, or (2) the Trustees has deposited funds with the CM with which to make payments; otherwise, cash discounts shall accrue to the CM. Trade discounts, rebates, refunds and amounts received from sales of surplus materials and equipment shall accrue to the Trustees, and the CM shall make provisions so that they can be secured. If a trade discount by the actual supplier is available to the CM, it shall be credited to the Trustees.

b. Amounts, which accrue to the Trustees in accordance with the provisions of Article 8.06-a, shall be credited to the Trustees as a deduction from the cost of the Work.

8.07 Escrow in Lieu of Retention

Upon the CM’s request and with the approval of the Trustees, the Trustees may make payment of the five percent retention withheld from progress payments pursuant to the requirements of Public Contract Code section 10852 if the CM deposits in escrow with the State Treasurer securities eligible for investment of State funds under Government Code section 16430 or bank certificates of deposit, and satisfies the conditions prescribed in Public Contract Code section 10852 and prescribed by the Trustees.

8.08 Stop Payment Notices

The Trustees shall retain out of any money due or that may become due the CM, sums sufficient (125 percent of the claim) to cover claims filed pursuant to the stop payment notice provisions of the law (Civil Code, section 9000 et seq.).

Preliminary notices and stop payment notices shall be presented to the Trustees in proper form and should be addressed to the Construction Administrator and sent to the Trustees at the address identified in the letter transmitting the Construction Contract and at the preconstruction conference. CM shall be responsible to communicate this information to all subcontractors.

8.09 Guaranteed Maximum Price and Cost Savings Split

The Contract amount for the Project is guaranteed by the CM not to exceed the GMP, as set forth in the Agreement. The GMP is supported by a line item cost breakdown for each trade contractor, including contingency on overall cost of the Work, and based on multiple trade contractor bids for each trade contract obtained as provided in these General Conditions. The GMP shall be subject to additions and deductions by change order as provided in Article 6, Change Orders.

If the cost of the Work, together with the CM’s fee, exceeds the GMP, adjusted from time to time by change order, the CM shall pay the overrun without reimbursement by the Trustees. If the actual cost of the Work, plus the CM’s fee, is less than the GMP, as adjusted from time to time by change order, then the CM shall pay the Trustees the difference. CM agrees to use all reasonable efforts to maximize the cost savings for the mutual benefit of the parties.

8.10 Payment

After Trustees’ acceptance of the Project as complete, the CM shall submit to the Construction Administrator a payment request indicating the total due under the Contract less retention. This payment request shall be substantiated by a detailed cost report. At the option of the Trustees, additional substantiation may be requested such as trade contractor payments, material invoices, payrolls for all labor, and other such data supporting the CM’s right to payment. The detailed cost report shall be forwarded to the Construction Administrator no later than seven (7) Days following the submission of the final payment request. This payment request will be processed in the same manner as the partial payment requests. Refer to Article 8.02, Partial Payments.

The Trustees shall notify the CM of the date of recordation of the Notice of Completion. The CM shall then submit a request for payment of the retention to the Construction Administrator, who will process the retention payment 30 Days after the date of recordation by the County Recorder.

The Trustees shall continue to retain funds to cover liquidated damages, stop payment notices, state labor commissioner claims, back charges from the University, unexecuted credit change orders, and other such claims that may be received up to the end
of the 30 days period following recordation. If any stop payment notice has been filed, payment shall be withheld in an amount of at least 125 percent of the total claims filed until either the rights under the stop payment notice have been settled or the CM has posted sufficient bond in an amount of 125 percent of the total claims filed to secure payment of such claims.

The amount of such final payment shall be calculated as follows:

a. Take the sum of the cost of the Work for the entire Project substantiated by the CM’s final accounting and the CM’s fee calculated previously, subject to a Trustees audit if so requested.
b. Add any cost savings on the completion of the Project to which the CM is entitled pursuant to Article 8.09, Guaranteed Maximum Price and Cost Savings Split.
c. Subtract amounts, if any, which the Trustees are entitled to withhold to cover liquidated damages, stop payment notices, construction defects or non-conforming Work or other withholds authorized by the Contract Documents.
d. Subtract the aggregate of previous payments made by the Trustees to the CM hereunder.

8.11 Guarantee
The CM hereby unconditionally guarantees the Work under this Contract to be in conformance with the Contract requirements and to be and remain free of defects in workmanship and materials for a period of one year from the date of acceptance of the Project pursuant to Article 4.16–b, Starting and Completion Date, unless a longer guarantee period is stipulated in the Contract Documents. CM shall obtain and deliver to the Trustees all manufacturers’ warranties; the manufacturer’s warranties shall start on the acceptance date noted on the Notice of Completion and shall run through the full term of each manufacturer’s standard warranty. By this guarantee the CM agrees, within the guarantee period, to repair or replace any Work, together with any adjacent Work which may be displaced in so doing which is not in accordance with the requirements of the Contract or which is defective in its workmanship or material, all without any expense whatsoever to the Trustees.

Special guarantees that are required by the Contract shall be signed by the CM who is responsible for the entire Work and countersigned by the trade contractor that performs the Work.

The CM further agrees that within ten (10) Days after being notified in writing by the Trustees of any Work not in accordance with the requirements of the Contract or of any defects in the Work, CM shall commence and prosecute with due diligence all Work necessary to fulfill the terms of this guarantee and to complete the Work in accordance with the requirements of the Contract within a reasonable period of time. The CM, in the event of failure to so comply, does hereby authorize the Trustees to proceed to have the Work done at the CM’s expense, and it agrees to pay the cost thereof upon demand. The Trustees shall be entitled to all costs necessarily incurred upon the CM’s refusal to pay the above cost.

Notwithstanding the foregoing paragraph, in the event of an emergency constituting an immediate hazard to health or safety of the Trustees’ employees, property, or licenses, the Trustees may undertake at the CM’s expense, without prior notice, all Work necessary to correct such hazardous conditions caused by the Work of the CM that is not in accordance with the requirements of this Contract.

8.12 CM Evaluation
The University will perform a contractor evaluation and file a report with the Trustees after completion of the Project. If the CM fails to perform the construction Contract responsibly by failing to complete all Work and requirements, including honoring the warranty, the Construction Administrator shall so state the facts on the Contractor Evaluation Form. If an evaluation results in a non-responsible contractor finding, it could affect the CM’s prequalification and may cause the CM to be deemed ineligible to bid on Trustees’ Work.

ARTICLE 9.00 - MISCELLANEOUS

9.01 Governing Law
The Contract shall be governed by the law of the State of California.

9.02 Successors and Assigns
The Trustees and CM respectively bind themselves and their successors, permitted assigns, and legal representatives to the other party and to the successors, permitted assigns, and legal representatives of such other party in respect to covenants, agreements, and obligations contained in the Contract Documents. Neither party to the Contract shall assign the Contract, in whole or in part, without prior written consent of the other party. Notwithstanding any such assignment, each of the original contracting parties shall remain legally responsible for all of its obligations under the Contract.

9.03 Rights and Remedies
All Trustees’ rights and remedies under the Contract Documents will be cumulative and in addition to and not in limitation of all other rights and remedies of Trustees under the Contract Documents or otherwise available at law or in equity.
No action or failure to act by Trustees or Trustees’ representative will constitute a waiver of a right afforded them under the Contract, nor will such action or failure to act constitute approval of or acquiescence in a condition or breach thereunder, except as may be specifically agreed in writing. No waiver by Trustees or Trustees’ representative of any condition, breach or default will constitute a waiver of any other condition, breach or default; nor will any such waiver constitute a continuing waiver.

No provision contained in the Contract Documents shall create or give to third parties any claim or right of action against the Trustees, Trustees’ representative, or CM.

9.04 Waiver
A waiver of or failure by Trustees or Trustees’ representative to enforce any requirement in this Agreement will not constitute a waiver of, and will not preclude the Trustees or Trustees’ representative from enforcing, any other requirement of the Agreement, and the Agreement will remain valid.

A waiver of or failure by Trustees or Trustees’ representative to enforce any requirement in this Agreement in connection with any adjustment of the Contract Amount or Contract Time will not constitute a waiver of, and will not preclude the Trustees or Trustees’ representative from enforcing, such requirements in connection with any other adjustments of the Contract Amount or Contract Time.

The CM agrees and understands that no oral directive, approval or representation, either express or implied, by Trustees or its agents shall be binding upon Trustees.

9.05 Survival
The provisions of the Contract which by their nature survive termination of the Contract or Acceptance under Article 8.01, including all warranties, indemnities, payment obligations, and Trustees’ right to audit CM's books and records, shall remain in full force and effect after Acceptance or any termination of the Contract.

9.06 Complete Agreement
The Contract Documents constitute the full and complete understanding of the parties and supersede any previous agreements or understandings, oral or written, with respect to the subject matter hereof. The Contract may be modified only by a written instrument signed by both parties or as provided in Article 6.00, Changes in the Work.

9.07 Severability of Provisions
If any one or more of the provisions contained in the Contract Documents should be invalid, illegal, or unenforceable in any respect, the validity, legality, and enforceability of the remaining provisions contained herein shall not in any way be affected or impaired thereby.

9.08 Notices
Except as otherwise provided, all notices, requests, demands, and other communications to be given under the Contract Documents shall be in writing and shall be transmitted by one of the following methods:

a. Personally delivered.

b. Sent by facsimile copy where receipt is confirmed.

c. Sent by courier where receipt is confirmed.

d. Sent by registered or certified mail, postage prepaid, return receipt requested.

Such notices and other communications in this Article 9.08 shall be deemed given and received upon actual receipt in the case of all except registered or certified mail; and in the case of registered or certified mail, on the date shown on the return receipt or the date delivery during normal business hours was attempted. Such notices and communications shall be given at the respective street addresses set forth in the Agreement. Such street addresses may be changed by notice given in accordance with this Article 9.08.

9.09 Counterparts
Agreements may be executed in counterparts, each of which shall be deemed to be an original, but all of which, taken together, shall constitute one and the same Agreement. The exchange of copies of this Agreement and of signature pages by electronic mail in “portable document format” (".pdf") form or by any other electronic means shall constitute effective execution and delivery of this Agreement and shall have the same effect as copies executed and delivered with original signatures.
