Recycled-Content Certification for Manufacturers

Date 10/08/03

By completing this form, you are taking the proactive steps of certifying the amount of recycled material in the products you manufacture. California law requires local and State public agencies to collect this information for all products, materials, goods, or supplies being offered or sold. Complete a row for each product, and attach additional sheets if necessary. This product certification is valid until the product composition changes, and it is the responsibility of the manufacturer to update this certification.
