# **COMMITTEE ON AUDIT**

# Status Report on Audit and Advisory Services Activities

#### **Presentation By**

Vlad Marinescu Vice Chancellor and Chief Audit Officer Audit and Advisory Services

#### **Summary**

This item provides an update on internal audit activities and initiatives. It also includes a status report on the 2022-23 and 2023-24 audit plans. The fieldwork for all 2022-23 audits has been completed and a presentation on the completed audit plan will be provided at the November Board of Trustees meeting.

Follow-up on current and past assignments is being conducted on approximately 32 completed campus reviews. Attachment A summarizes the status of audit assignments by campus. Additionally, Attachment B illustrates key activities and milestones.

For the current year audit plan, assignments were made to execute individual campus audit plans and conduct financial, operational, compliance, and information technology audits; use continuous auditing techniques and data analytics tools; provide advisory services; support intergovernmental audits; and perform investigation reviews, as needed.

# ASSURANCE AUDITS AND DATA ANALYTICS

# Status of In-Process and Completed Audits

Audit and Advisory Services has completed the fieldwork for all 52 audits of the 2022-23 audit plan. Nine audits are currently in process as part of the 2023-24 audit plan. Completed audit reports are posted on the California State University website at <u>https://www2.calstate.edu/csu-system/transparency-accountability/audit-reports</u>.

The status of campus progress toward implementing recommendations for completed audits is included in Attachment A. Prior year audits that have open recommendations are also included in Attachment A and are removed from the report once all recommendations are completed.

Both campus management and audit management are responsible for tracking the implementation/completion status of audit recommendations contained in campus audit reports. During the audit process, campus management identifies a target completion date for addressing

Aud Agenda Item 2 September 10-13, 2023 Page 2 of 4

each audit recommendation. Target completion dates are subject to approval by audit management prior to the audit report being finalized. Implementation timelines are reviewed for appropriateness, reasonableness, and timeliness, which also includes evaluating the nature and level of risk and whether any mitigating controls can or should be put in place on an interim basis while audit recommendations are being implemented.

If there are difficulties or unexpected delays in addressing/completing audit recommendations within the agreed upon timeframes, escalation processes for resolution are followed by audit management. Audit management first contacts the campus senior leadership team (president and/or VP/CFO) to resolve any delays. In rare instances in which delays cannot be resolved during discussions between campus and audit management, the chancellor and audit committee chair and/or vice chair may help resolve delays, as needed.

# Data Analytics

The data analytics team recently completed development on several new credit card dashboards, including a dashboard to evaluate merchant and employee spending. Risk indicator dashboards were also completed, and the data is being evaluated for possible follow up. For Concur travel expenditures, the data analytics team recently uploaded current data and is preparing for the next periodic review.

Additionally, work continues on expenditure dashboards. The team created new dashboards that can be used to explore expenditure data at multiple levels, such as by year, month, department, category, and fund.

# ADVISORY SERVICES

Audit and Advisory Services partners with management to identify solutions for business issues, offer opportunities to improve the efficiency and effectiveness of operating areas, and assist with special requests, while ensuring the consideration of related internal control issues. Advisory services are more consultative in nature than traditional audits and are performed in response to requests from campus management. The goal is to enhance awareness of risk, control and compliance issues and to provide a proactive independent review and appraisal of specifically identified concerns. Reviews are ongoing.

# INVESTIGATIONS AND INTERGOVERNMENTAL AUDITS

Audit and Advisory Services is periodically called upon to provide investigative reviews of alleged fiscal improprieties. Investigations are performed both at the request of an individual campus or the chancellor's office and by referral from the state auditor. Additionally, Audit and Advisory Services assists with tracking external audits being conducted by state and federal agencies, offers

Aud Agenda Item 2 September 10-13, 2023 Page 3 of 4

assistance to campuses undergoing such audits, and acts as a liaison for the California State University system throughout the audit process when appropriate.

The California State Auditor (CSA) began its audit of community college transfers. The audit will review California's higher education systems' efforts to improve the rate of community college transfers to the California State University and University of California. The audit is currently in the planning phase. The scope and objectives of the audit are available on the State Auditor's website (https://www.auditor.ca.gov/pdfs/analyses/2023-123.pdf).

The Title IX audit report was issued on July 18, 2023. A copy of the full report can be found on the State Auditor's website (<u>https://www.auditor.ca.gov/pdfs/reports/2022-109.pdf</u>). The audit directed 16 recommendations to the Chancellor's Office. The CSA requires detailed follow-up responses on the implementation of the report's recommendations at 60 days, six months, and one year after the report's release, and annually thereafter if recommendations are still open. Audit and Advisory Services is responsible for coordinating the CSU's follow-up responses to the audit. The CSU's first follow-up response is due to the CSA on September 15, 2023.

In addition to the JLAC approved audits described previously, the CSA prepares biennial reports on high-risk issues that "the CSA identifies as high risk for their potential of waste, fraud, abuse or mismanagement, or that have major challenges associated with their economy, efficiency, or effectiveness." In 2013, the CSA identified affordability in higher education as a high-risk issue for both the California State University and University of California systems. Since then, the CSA has continued to assess affordability as a high-risk issue every two years. However, in its most recent high-risk report, issued on August 24, 2023, the CSA removed the affordability of higher education from its high-risk list.

# OUTREACH AND ENGAGEMENT

Audit and Advisory Services continues to partner and work with our campus and system stakeholders beyond what would be the usual course of business for an audit or advisory review in order to find opportunities to add value to the organization when possible. This includes partnering activities such as participating and leading affinity groups, providing support to campus and chancellor's office management, sharing information and common themes across campuses, and acknowledging feedback and insights provided by management.

Each year Audit and Advisory Services hosts a systemwide roundtable meeting designed to facilitate communication and collaboration between Audit and Advisory Services and CSU campus audit representatives. This year's event will be held September 19-20 and will include a variety of informational sessions and discussion on topics such as campus safety, information security, Title IX, and notable observations from recent audits.

#### INTERNAL AUDIT FRAMEWORK AND STANDARDS

Education Code Section 89045, enacted by Chapter 1406 of the Statutes of 1969, provides for the establishment of an internal auditing function reporting directly to the Trustees of the California State University. Audit and Advisory Services assists university management and the Trustees in the effective discharge of their fiduciary and administrative responsibilities by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes. Additionally, Audit and Advisory Services serves the university in a manner that is consistent with the International Professional Practices Framework and the Code of Ethics as promulgated by the Institute of Internal Auditors, including organizational independence, as outlined in the Audit and Advisory Services Charter

Audit and Advisory Services is organizationally independent and free from interference in determining the scope of internal audits, performing work, and communicating results. To ensure organizational independence, Audit and Advisory Services reports functionally to the Trustees of the California State University, and administratively to the Chancellor.
