Executive Vice Chancellor

Subject: Executive Order No. 314 Waiver and Reduction of Fees for High School Students Enrolled in Certain Honors Courses

I am transmitting to you five (5) copies of Executive Order No. 314 which supersedes Executive Order No. 212 and modifies the procedures whereby a number of student fees may be reduced or waived in connection with honors programs for high school students. The purpose of this order is to make it possible to facilitate the enrollment of gifted high school students in programs which typically involve minimum use of the resources associated with these fees. This new Executive Order adds the facilities fee and instructionally related activities fee to those which may be waived or reduced.

Examples of programs which might qualify for waivers or reduction include but are not limited to:

1. Offering of a collegiate level regular session course at a high school as part of that school's program for gifted students;
2. Offering of field science courses during summer or vacation periods in cooperation with a high school;

Distribution: Vice Presidents, Academic Affairs
Business Managers
Directors of Admissions and Records
Deans of Continuing and Extended Education
Associated Student Presidents
Associated Student Business Managers
Chancellor's Staff

3. Offering of college courses on campus expressly for selected high school students in cooperation with one or more local high schools.

It is not intended that this executive order be used in conjunction with the routine enrollment of high school students in regularly offered courses whether in special session, extension or state supported terms.

It is your responsibility as President to implement this Executive Order where applicable and to maintain the campus repository and index for all Executive Orders.
