CALIFORNIA STATE UNIVERSITY LIBRARY ANNUAL STATISTICS, 2007-08

The annual CSU system-wide library statistics report is produced by the Office of the Chancellor, System-wide Library Initiatives, in consultation with the CSU Library Statistics Taskforce:

Stephanie Brasley-Chair (Chancellor's Office)
Marianne Afifi (Northridge)
Catherine Boyce (San Marcos)
Elizabeth Housewright (Fullerton)
Michael Kiraly (Sonoma)
Bridget Kowalczyk (San Jose)
Carlos Rodriguez (Sacramento)
Joanne Tsuyuki (Los Angeles)
David Tyckoson (Fresno)

Please direct questions and comments to:

Introduction

Dear Reader,

Welcome to the 2007-08 CSU Library Annual Statistics Report – a rich data set summarizing and detailing the contributions of these vital, innovative, twenty-three campus libraries. In support of the teaching, learning, and research mission of the California State University, the libraries are committed to providing exceptional service to students and faculty; advancing learning and literacy; creating new knowledge, promoting intellectual freedom and freedom of inquiry; and, enhancing access to recorded knowledge and information. In keeping with this vision, the CSU libraries have engaged in activities which meet current and future needs of the CSU community.

Research Contribution

Collections. CSU libraries acquire materials in a variety of print and electronic formats that meet the research needs of CSU faculty and students. In order to keep pace with the consistent demand for materials in electronic formats, the CSU libraries utilize a consortial purchasing model resulting in the Electronic Core Collection (ECC), a collection of digital information resources, accessed by all 23 campuses. System-wide consortial purchasing of these online resources has yielded significant cost savings over individual library purchasing and has positioned the CSU to benefit from an industry-wide effort to increasingly make periodicals available electronically. The ECC contains over 45 resources and over 25,000 full text titles supporting core curricula in the Arts and Humanities, Life and Physical Sciences, Social Sciences, and Professional Programs (including Engineering, Computer Sciences, Nursing, Education, and Business and Public Administration). The CSU libraries have added resources in support of the core curriculum progressively over the last decade.

- *A 92% increase in electronic journal titles available in full text over the last 10 years*
- *A 48% increase in the use of journals in the ECC over the past 3 years.*

2007-08:

- *Print volumes: 19,465,754*
- *Bound periodicals: 3,250,866*
- *Electronic Journal titles: 503,318*
- *Electronic books: 943, 493*

Institutional Repositories & Special Collections. CSU ScholarWorks (<http://scholarworks.calstat.edu>) are digital collections which capture, manage, and disseminate the scholarly materials of the CSU community. These innovative repositories position the CSU to provide viable alternatives to faculty and students for managing their scholarly output.

Special collections and archives at CSU libraries house collections of rare books; manuscripts; photographs; works distinguished for their illustrations, bindings, or fine printing; distinguished subject collections; and university archives. (<http://dsc.calstate.edu>)

- *19 campus libraries house special collections*
- *16 CSU repositories developed since 2007*

Teaching and Learning Contribution

Information Literacy. The CSU libraries contribute to the teaching mission through a robust and cutting edge information literacy

program. Information literacy, a cognitive framework for enabling students to be successful information producers, evaluators, and consumers, is fundamental to CSU graduates' success. Library and discipline faculty, campus administrators, and other stakeholders work together to infuse information literacy throughout the general education curriculum as well as within educational programs, such as the First Year Experience and capstone experiences.

- *Nearly 50% of CSU students have learned how to effectively locate, evaluate, and use information over the past five years*

2007-08:

- *Group presentations: 8,419*
- *Presentation participants: 211,682*

Reference Services. The CSU libraries have consistently helped students, faculty, and staff through an array of in-person and electronic reference services. The last several years reveal a decline in in-person contact, but a healthy increase in electronic reference demand. Responding to the needs of remote and local users, the CSU libraries participate in virtual reference services such as OCLC's QuestionPoint and instant messaging services, such as Meebo, among others. Use of the QuestionPoint service has increased fivefold since its inception in 2002-2003 demonstrating a demand for both virtual and physical services.

- *Reference questions answered in person, 2007-08: 760**
- *E-reference questions answered 1st quarter, 2007: 3806*
- *E-reference questions answered, 1st quarter, 2008: 4,319*

Physical and Virtual Library Contributions

The CSU libraries recognize the importance of both virtual and physical resources and services to support the myriad teaching, learning, and research needs of its students and faculty. Using an information

commons or learning commons model that responds to the needs of the digital age, the CSU libraries provide a variety of learning, cultural, and social spaces to support campus and educational aims. They include computer laboratories, collaboration, multimedia, and group study rooms, IT help desks, writing and tutoring services, art galleries, coffee shops, etc. The CSU community used the collections proactively with circulation of physical book collections continuing unabated despite increased demand for online sources.

- *Libraries with Information/Learning Commons: 9*
- *CSU libraries completing new building projects in last year: 6*
- *CSU libraries with expansion and/or renovation projects either completed or in the works: 5*
- *Main, branch, and independent libraries: 34*
- *Visitors to the library: 25,651**
- *Number of hours staff available to help users: 90**
- *Materials circulated: 4,270,989*
- *Items loaned to other libraries: 166,663*

***Numbers calculated as an average number of hours in a typical week.**

2007-08
CSU Libraries
Longitudinal Data

Total System-wide Library Expenditure as a Percent of Campus Allocation

Fiscal Year	2005-06	2006-07**	2007-08 *
Total Usage	23,012,710	21,336,643	44,062,153

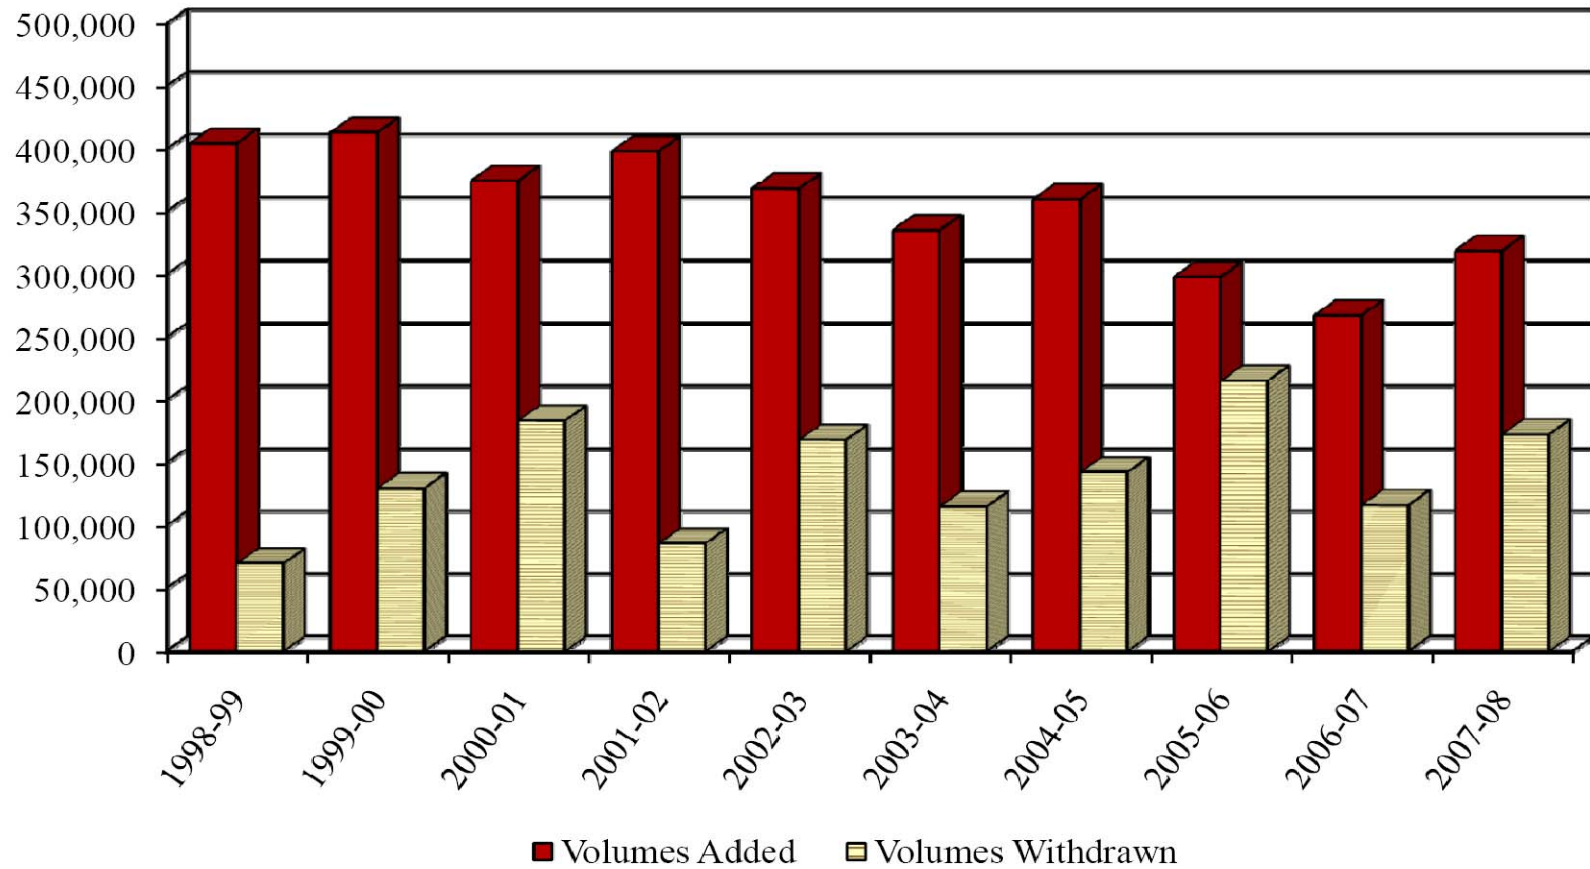

*Usage for 2007-08 has grown significantly due to several factors including the addition of over 20 resources between 2005-06 and 2007-08. Statistics for over 15 of these resources were first included in the statistics for 2007-08.

** Decline shown for 2006-07 is due to recalculation of usage metrics for 2006-07 to compensate for technological enhancements (such as federated searching and Google Scholar) which allow users to search across multiple resources..
