

California State University, Bakersfield

Contribution Highlights:

- The Department of Nursing and four local hospitals partnered to start a new five-quarter, Accelerated Bachelor of Science Nursing program for students who have already completed a bachelor's degree in another subject. The hospitals committed \$1.1 million to fund the first cohort of 44 future nurses.
- Local donors committed \$700,000 to equip the New Science III building with state-of-the-art technology. The university leveraged this support with vendors to acquire \$1 million in new equipment.
- Dr. Homer and Mrs. Evangeline Myles, a retired dentist and nurse, made a major addition to their endowment to bring the fund to \$500,000. This endowment supports graduate students who come from disadvantaged backgrounds.
- The School of Natural Sciences and Mathematics Pipeline to High Tech Professions program received a \$400,000 grant from the National Science Foundation. The grant will fund 40 scholarships annually over the next four years for students studying science, technology, engineering and mathematics.
