AGENDA

COMMITTEE ON AUDIT

Meeting: 4:15 p.m., Tuesday, January 27, 2004
Glenn S. Dumke Auditorium

Shailesh J. Mehta, Chair
Roberta Achtenberg, Vice Chair
Debra Farar
William Hauck
Frederick W. Pierce, IV

Consent Items

Approval of Minutes of Meeting of November 19, 2003

Discussion Items

1. Status Report on Current and Follow-up Internal Audit Assignments, Information
2. Assignment of Functions to Be Reviewed by the Office of the University Auditor for Calendar Year 2004, Action
4. Report of the Systemwide Audit in Accordance with Generally Accepted Accounting Principles Including the Report to Management, Information
5. Single Audit Report of Federal Funds, Information
Chair Mehta called the meeting to order at 10:42 a.m.

Approval of Minutes

The minutes of the meeting of September 16, 2003, were approved as submitted.
Audit

Status Report on Current and Follow-up Internal Audit Assignments

Mr. Larry Mandel, university auditor, presented the item by reporting the status of the following audit assignments and follow-up reviews:

**FISMA** – Four audits have been completed, report writing is being completed on two campus reviews, and fieldwork is taking place at two campuses.

**Auxiliary Organizations** – Three campus/eleven auxiliary reviews await a response prior to finalization, and report writing is being completed on three campus/twelve auxiliary reviews.

**Employee Relations** – One audit has been completed, one audit awaits a campus response prior to finalization, report writing is being completed on five campus reviews, and fieldwork is taking place at two campuses.

**Risk Management and Insurance** – Three audits have been completed, report writing is being completed on five campus reviews, and fieldwork is taking place at one campus.

**Disaster/Contingency Planning** – One audit has been completed, one audit awaits a campus response prior to finalization, report writing is being completed on six campus reviews, and fieldwork is taking place at one campus.

**Follow-up** – Currently tracking approximately 50 prior audits (Special Investigations, FISMA, Auxiliary Organizations, Development, Contracts and Grants, Financial Aid, and Disability Support and Accommodations) to determine the appropriateness of the corrective action taken for each recommendation and whether additional action is required.

**Construction** – For fiscal year 2002/03, six construction projects have been completed by KPMG with coordination from the Office of the University Auditor. Follow-up reviews are currently in process for these projects.

Mr. Mandel stated that most of the campuses are at or below the 12-month period for completing outstanding recommendations. He commented that the campuses have done an exceptional job in completing the recommendations and are to be commended for their efforts.

Trustee Kaiser inquired about the outstanding recommendations pertaining to Special Investigations at San Diego State University.

Mr. Mandel explained that the process for responding to audit reports includes corrective action plans and time estimates for completion from the campuses. He stated that San Diego State University was on track to complete the recommendations in their estimated timeframe.
Trustee Pierce inquired about the one outstanding recommendation pertaining to Systemwide Contracts and Grants.

Mr. Mandel explained that the outstanding recommendation pertaining to Contracts and Grants involves the complete revision of an executive order that was originally issued approximately 30 years ago. He stated that, after exhaustive review by several CSU constituencies, a new executive order is anticipated by January 2004.

**Status Report on the Bureau of State Audits Report on the Common Management System**

Mr. Richard P. West, executive vice chancellor and chief financial officer, presented the item. He explained that the Bureau of State Audits Report on the Common Management System (CMS) included 30 recommendations for the California State University (CSU). He reported that 20 of the 30 recommendations have been implemented, and the remaining 10 recommendations will be completed by the end of December 2003.

Mr. West indicated that at the request of the Trustees, the CSU had engaged Cap Gemini Ernst & Young (CGEY) to conduct a cost-benefits analysis of the CMS project. CGEY performed a review of campuses that had completed implementation in most, if not all, of the three segments of the CMS system: human resources, finance, and student administration. He explained that the seven campuses selected for intensive on-site evaluation were the initial campuses that had implemented the student administration segment. Three additional campuses were also selected based on recognition as a center of excellence by peers in specific functional areas. He further explained that the intent of the in-depth evaluation was to analyze in detail each functional area, understand the campus service improvements and benefits, and identify information technology benefits of moving to the new CMS environment and outsourced data center. CGEY’s evaluation revealed that the CMS project has achieved service level improvements and provides the foundation for CSU campuses to achieve higher service and operational capabilities that would otherwise not be achievable under the pre-CMS platform.

Mr. West stated that CGEY also conducted a cost analysis of alternative administrative systems approaches versus the CMS approach and concluded that CSU’s all-campus approach was cost effective. For implementation, the analysis revealed that CMS was approximately 65 percent less expensive than other approaches considered. For operations, the analysis demonstrated that for the same level of functionality, the new systems avoid up to $30 million in annual costs compared to the old systems’ decentralized approach.

Mr. West indicated that CGEY’s evaluation also concluded that the benefits currently derived from CMS include four categories: cost reduction, productivity gains, risk mitigation, and resource reallocation. He further indicated that CMS is a technology-based foundation that provides CSU with the opportunity to achieve significant service improvements and streamlined business processes.
Regarding system implementation, Mr. West reported that currently 19 campuses are live on human resources, 15 on finance, and 7 on student administration. He further reported that by the end of December 2003, 21 campuses would be live on human resources, 15 on finance, and 8 on student administration. By July/August 2004, it is anticipated that 21 campuses would be live on both human resources and finance, and 9 on student administration.

Mr. West noted that the state controller is in the process of replacing the state’s payroll system. Therefore, due to schedule constraints required for this project, and as part of the systemwide budget evaluation, CSU is considering the deferment of some of the implementation costs of the campuses that have not yet implemented the student administration system. In addition, consideration is being given to moving forward the schedule for fall 2005 for the three campuses that have not yet initiated implementation of the human resources and finance components.

Mr. West presented CGEY’s diagram depicting the four major stages of benefits derived from a typical CMS-like implementation. He stated that the diagram is consistent with CSU’s philosophy of dealing with technology. He explained that CSU is currently in the first and second stages of implementation, which involve installing the system, beginning operation, and evaluating incremental improvements. The third stage involves extending the capabilities of the system, recognizing the depth of the software, and adopting our business practices to the software. He further explained that Stage 4 involves creating new capabilities based on our evaluation of new ways of providing services, web-based strategies, commonality of services, etc., and is primarily driven by the vice presidents, both on the business side and on the student services and academic side.

In summary, Mr. West noted that CGEY concluded that based on the alternatives, CMS resulted in the best implementation approach, providing immediate benefits and service improvements. In addition, the CMS approach demonstrated that operational savings were achieved, compared to the long-term cost of maintaining the old systems. Also, CGEY determined that CMS provides significant additional workload capacity without a comparable increase in operational costs.

Trustee Galinson inquired as to the reason for the delay in the implementation of the student administration system.

Mr. West explained that the student administration system is approximately 60 percent of the total effort, is the most complex of the systems, and requires a significant amount of process analysis during implementation.

Trustee Galinson expressed his concern regarding the “Change the Game” stage of the CMS life cycle and inquired as to whether the CMS systems would need to be replaced by more modern and current technology by that time.
Mr. West responded that CSU’s philosophy for the CMS project is one of continuous improvement and maintenance, which can be achieved by constantly upgrading the software provided by the vendor. He explained that campuses are asked to review their business practices and to be as consistent with the base software as possible in order to take advantage of those vendor-based changes. He also noted that, eventually, old systems need to be replaced, including this one, but that such a replacement effort is a significant number of years in the future.

Chancellor Reed stated that he has had discussions recently with the former governor’s chief information technology director and his assistant, as well as the state controller, regarding the CMS project. He further stated that those discussions included tremendous compliments to the CSU for launching the largest implementation project in higher education in America.

Trustee Mehta commended Richard West and his staff on their sincerity in the undertaking of the CMS audit and the honest, sincere, and vigorous manner in which they have responded to the state auditor’s recommendations. In light of the budget crisis, he stated his belief that the CMS implementation will prove to be a benefit to the CSU system.

The Committee heard comments from George Kurtz regarding the Teacher Preparation Program.

**Adjournment**

The meeting was adjourned at 11:16 a.m.
COMMITTEE ON AUDIT

Status Report on Current and Follow-up Internal Audit Assignments

Presentation By

Larry Mandel
University Auditor

Summary

This item includes both a status report on the 2003 audit plan and follow-up on past assignments. For the current year, assignments have been made to conduct reviews of FISMA (financial internal controls), Auxiliary Organizations, Employee Relations, Risk Management and Insurance, Disaster/Contingency Planning, Information Systems, and Construction. In addition, follow-up on past assignments (Special Investigations, FISMA, Auxiliary Organizations, Development, Contracts and Grants, Financial Aid, and Disability Support and Accommodations) is currently being conducted on approximately 45 prior campus/auxiliary/investigative reviews. Attachment A summarizes the reviews in tabular form. An up-to-date Attachment A will be distributed at the Committee meeting.

Status Report on Current and Follow-up Internal Audit Assignments

At the January 2003 meeting of the Committee on Audit, an audit plan calling for the review of the following subject areas was approved: FISMA (financial internal controls), Auxiliary Organizations, Employee Relations, Risk Management and Insurance, Disaster/Contingency Planning, Information Systems, and Construction.

FISMA

The audit plan indicated that approximately 136 staff weeks of activity (17 percent of the plan) would be devoted to auditing financial internal controls on 12 campuses. Four audits have been completed, report writing is being completed on four campus reviews, and fieldwork is currently taking place at three campuses.

Auxiliary Organizations

The audit plan indicated that approximately 234 staff weeks of activity (30 percent of the plan) would be devoted to auditing internal compliance/internal control at 7 campuses/26 auxiliaries. One campus/four auxiliary reviews have been completed, two campuses/seven auxiliaries await
Audit Agenda Item 1
January 27-28, 2004
Page 2 of 3

a response prior to finalization, and report writing is being completed on 5 campuses/18 auxiliaries.

Employee Relations

The audit plan indicated that approximately 97 staff weeks of activity (12 percent of the plan) would be devoted to a review of ten campuses on activities involved in negotiating and administering collective bargaining agreements with represented employees, administering the management personnel plan for nonrepresented employees, and the systems for addressing staff grievances and complaints. Three audits have been completed, and report writing is being completed on six campus reviews.

Risk Management and Insurance

The audit plan indicated that approximately 97 staff weeks of activity (12 percent of the plan) would be devoted to a review of ten campuses on risk and liability assessments, self insurance, selection of insurance coverage and carriers, risk mitigation and prevention programs, claims review and processing, and operations of the California State University Risk Management Authority. Four audits have been completed, two audits await a response prior to finalization, and report writing is being completed on three campus reviews.

Disaster/Contingency Planning

The audit plan indicated that approximately 97 staff weeks of activity (12 percent of the audit plan) would be devoted to a review of ten campuses on compliance with bond resolutions, Trustee policy and systemwide directives, contingency and disaster recovery planning, backup communications, building safety and emergency egress including provisions for individuals with disabilities, the extent of plan testing, and relationships with state and federal emergency management agencies. Two audits have been completed, one audit awaits a campus response prior to finalization, and report writing is being completed on six campus reviews.

Information Systems

The audit plan indicated that approximately 43 staff weeks of activity (5 percent of the plan) would be devoted to review of systemwide projects such as: Disaster Recovery, Common Management Systems (CMS), and Web Security. In addition, support will be provided in the area of financial internal controls for both campus (FISMA) and auxiliary audits. Review and training are ongoing.
Follow-ups

The audit plan indicated that approximately 30 staff weeks of activity (4 percent of the plan) would be devoted to follow-up on prior audit recommendations. The Office of the University Auditor is currently tracking approximately 45 prior audits (Special Investigations, FISMA, Auxiliary Organizations, Development, Contracts and Grants, Financial Aid, and Disability Support and Accommodations) to determine the appropriateness of the corrective action taken for each recommendation and whether additional action is required.

Consultations and Investigations

The audit plan indicated that approximately 43 staff weeks of activity (5 percent of the plan) would be devoted to campus consultations and special requests. The Office of the University Auditor is periodically called upon to provide consultation to the campuses and/or to perform special audit requests made by the Chancellor. Typically, the special requests are investigative in nature and often are the result of alleged defalcations or conflicts of interest.

Construction

The audit plan indicated that approximately five staff weeks of activity (1 percent of the plan) would be devoted to coordination of construction auditing. For the 2003/04 fiscal year, six construction projects are being reviewed by KPMG with coordination from the Office of the University Auditor. Areas under review include construction bid process, change orders, project management services, contractor compliance, liquidated damages, and cost verification of major equipment and construction components. Two audits are in the report writing stage, while fieldwork is currently being completed for one audit.

Training

The audit plan indicated that approximately ten staff weeks of activity (1 percent of the plan) would be devoted to training in control self-assessment. The program consists of a two-day workshop where risk assessment/mitigation and internal control training will be provided and a targeted risk assessment profile will be developed. In addition, the Office of the University Auditor is planning two, one-day workshops on various aspects of audit coordination and process.

Committee on Audit

Assignment of Functions to Be Reviewed by the Office of the University Auditor for Calendar Year 2004

Presentation By

Larry Mandel
University Auditor

Summary

At the first meeting of the new year, the Committee on Audit selects the audit assignments for the Office of the University Auditor. The following is an audit plan for calendar year 2004.

Financial Integrity and State Manager’s Accountability Act of 1983

In 1983, the California legislature passed the Financial Integrity and State Manager’s Accountability Act of 1983 (FISMA). This act requires that state agencies establish and maintain a system of internal accounting and administrative control. To ensure that the agency fully complies with requirements, the head of each agency is required to prepare and submit a report on the adequacy of the systems of internal accounting and administrative control following the end of each odd-numbered fiscal year.

These audits will review compliance with state and federal laws, Board of Trustee policies, and Office of the Chancellor policies, letters, and directives. For those audit tests which require annualized data, either the 2002/03 or 2003/04 (as appropriate) fiscal year will be the primary period reviewed. In certain instances, we are concerned with representations of the most current data. In those cases, the test period will normally be the two months prior to our arrival on campus. Specifically, we will review and test the following areas:

- Cash Receipts
- Receivables
- Purchasing
- Revolving Fund
- Cash Disbursements
- Payroll/Personnel
- Fixed Assets
- Fiscal Information Technology
- Investments
- Trust Funds

Twelve FISMA audits are planned for calendar year 2004. This represents 136 staff weeks of audit effort, which amounts to approximately 17 percent of the audit plan.
SUBJECT 1

To be determined by the Committee on Audit. If the subject matter lends itself to an audit of average length, it is estimated that ten campus audits will take place during calendar year 2004. This represents 97 staff weeks of audit effort, which is approximately 12 percent of the audit plan.

SUBJECT 2

To be determined by the Committee on Audit. If the subject matter lends itself to an audit of average length, it is estimated that ten campus audits will take place during calendar year 2004. This represents 97 staff weeks of audit effort, which is approximately 12 percent of the audit plan.

SUBJECT 3

To be determined by the Committee on Audit. If the subject matter lends itself to an audit of average length, it is estimated that ten campus audits will take place during calendar year 2004. This represents 97 staff weeks of audit effort, which is approximately 12 percent of the audit plan.

AUDITS OF AUXILIARY ORGANIZATIONS

In order to provide assurance to the Board that adequate oversight is being maintained over auxiliaries, the Office of the University Auditor administers an audit program covering internal compliance/internal controls. It is estimated that 27 auxiliary reviews will take place during calendar year 2004. This represents 243 staff weeks of audit effort, which is approximately 31 percent of the audit plan.

INFORMATION SYSTEMS

Information Systems areas of review will include systemwide projects such as: Disaster Recovery, Common Management Systems (CMS), and Web Security. In addition, support will be provided in the area of financial internal controls for both campus (FISMA) and auxiliary organization audits. Forty-three staff weeks are planned during calendar year 2003. This represents approximately 5 percent of the audit plan.
FOLLOW-UPS

The purpose of this category is to follow-up on prior audit recommendations. The Office of the University Auditor reviews the responsiveness of the corrective action taken for each recommendation and determines whether additional action may be required. In certain instances, it may be necessary to revisit the campus to ascertain whether the corrective action taken is achieving the desired results. All recommendations are tracked until each is satisfactorily addressed. Reports of follow-up activity are made at each meeting of the Committee on Audit. Thirty staff weeks have been set aside for this purpose, representing approximately 4 percent of the audit plan.

CONSULTATION AND INVESTIGATIONS

The Office of the University Auditor is periodically called upon to provide consultation to the campuses and/or to perform special audit requests made by the Chancellor. Typically, the special requests are investigative in nature and often are the result of alleged defalcations or conflicts of interest. Forty-three staff weeks have been set aside for this purpose, representing approximately 5 percent of the audit plan.

CONSTRUCTION

In addition to the above, construction auditing will be a continuing focus of the Office of the University Auditor. For the 2003/04 fiscal year, six construction projects are being reviewed by KPMG with coordination from the Office of the University Auditor. Areas under review include construction bid process, change orders, project management services, contractor compliance, liquidated damages, and cost verification of major equipment and construction components. Five staff weeks have been set aside for this purpose, representing approximately 1 percent of the audit plan.

TRAINING

Training in control self-assessment will continue to be available in 2004. The program consists of a two-day workshop where risk assessment/mitigation and internal control training will be provided and a targeted risk assessment profile will be developed. In addition, the Office of the University Auditor is planning two, one-day workshops on various aspects of audit coordination and process. Ten staff weeks have been set aside for this purpose, representing approximately 1 percent of the audit plan.
The following resolution is recommended for approval:

RESOLVED, By the Committee on Audit of the Board of Trustees of The California State University, that the 2004 internal audit plan, including FISMA, Information Systems, Auxiliary Organizations, Construction, _______, and _______ (to be determined by the committee) be approved.

*FISMA = Financial Integrity and State Manager's Accountability Act of 1983 which requires financial internal control reviews of all campuses once every two years. Items 4, 5, 12, 13, 17, 19, and 27 are covered within the FISMA audit cycle.

Items 2, 3, 8, 18, 20, 25, and 29 were recent audit subjects. Item 28 is covered during auxiliary organization reviews.
OFFICE OF THE UNIVERSITY AUDITOR
SELECTION OF AUDIT TOPICS FOR 2004

The purpose of this attachment is to present additional information to assist the Committee on Audit in deciding the audit assignments for the Office of the University Auditor for 2004. The list below reflects the topics developed by the 2002 risk assessment process exclusive of priorities that are addressed by recent assignments and/or mandatory audits, e.g., Financial Integrity and State Manager’s Accountability Act (FISMA), Delegations of Authority (Purchasing/Contracting, Leasing, Motor Vehicles - Education Code Section 89045(d)), and Auxiliary Organization Reviews.

7. Admissions and Evaluations 22. Student Activities/Organizations
11. Environmental Management 24. Housing/Residential Services
16. Intercollegiate Athletics

The following information is not necessarily complete. A complete survey of risks, controls, and associated audit procedures can only be compiled through the audit process. Accordingly, the descriptions should be read with the understanding that they are preliminary and presented for discussion purposes, and may change after audit survey/work commences.
6. Financial Reporting

Financial reporting includes all forms of financial reports and the systems and procedures in use to provide constituent groups with accurate, timely, and useful financial information.

Potential impacts include:
- excessive costs incurred in reporting of financial information;
- inaccurate and/or untimely financial reports;
- unauthorized access to financial data;
- reporting of financial data that does not meet user needs; and
- publication of misleading financial statements.

Proposed audit procedures would include review of existing financial reporting procedures and processes for: compliance with state law, Trustee policy and Chancellor’s Office directives; establishment and maintenance of a financial reporting system commensurate with user needs; efficiency and effectiveness of operations; and attainment of objectives and goals.

7. Admissions and Evaluations

Admissions and evaluations includes outreach activities to prospective students, processing of applications for admission, and evaluations of student records.

Potential impacts include:
- admission of ineligible students;
- inequity in admission decisions;
- incorrect residency determinations;
- inadequate evaluations;
- misuse/distribution of confidential admission and evaluation data;
- lack of control over application fees.

Proposed audit procedures would include review of federal and state laws, Trustee policy and Chancellor’s Office directives on admissions and evaluations, testing of residency determinations, and review of controls and systems to assure appropriate use of regular and supplementary admission criteria and effective use of resources.
9. Continuing Education/Extended Learning

Continuing education/extended learning includes special sessions, extension programs, and other self-supporting instructional programs and operation of the Continuing Education Revenue Fund (CERF) and related trust accounts.

Potential impacts include:
- loss of budgetary control;
- inappropriate subsidies;
- inaccurate reporting; and
- increased exposure to enforcement actions by regulatory agencies.

Proposed audit scope would include review of: the processes for administration of continuing education and extended learning operations as self-supporting entities; budgeting procedures, fee authorizations, and selection and management of courses; faculty workloads and payments to faculty and other instructors; enrollment procedures and maintenance of student records; and reporting of continuing education activity and maintenance of CERF contingency reserves.

11. Environmental Management

Environmental management includes activities of the CSU in complying with federal and state environmental regulations.

Potential impacts include:
- degradation of the environment;
- excessive costs;
- increased exposure to enforcement actions by regulatory agencies; and
- inability to meet program needs.

Proposed audit scope would include review of compliance with federal and state environmental laws and regulations.
15. Human Relations/Personnel Services

Human relations/personnel services include the CSU activities in recruiting, hiring, and retaining employees.

Potential impacts include:
- unnecessary costs;
- unequal employment opportunities;
- inappropriate disclosure of confidential employee data;
- inadequate benefit programs;
- excessive employee turnover; and
- inability to hire and retain best employees.

Proposed audit scope would include review of: compliance with employment laws and regulations; position classification/compensation; advertising for prospective employees; employee training; and programs for employee benefit administration.

16. Intercollegiate Athletics

Intercollegiate athletics involves all activities pertaining to the sports programs administered in accordance with the rules and regulations of the National Collegiate Athletic Association.

Potential impacts include:
- admission of student athletes who do not show reasonable promise of being successful in a course of study leading to an academic degree;
- continuing eligibility of student athletes to participate in intercollegiate athletics based on academic progress that will not assure graduation within a specific time frame;
- infractions of National Collegiate Athletic Association (NCAA) rules and regulations that significantly impact the university in terms of lost revenues, adverse publicity, and NCAA sanctions;
- inequities in funding and participation opportunities between the men's and women's athletic programs;
- inappropriate use of funds raised and spent in intercollegiate athletics; and
- inappropriate use of state resources or funds budgeted for instructionally related activities in intercollegiate athletics.

Proposed Audit Scope

Based on a study commissioned by the Association of College and University Auditors (ACUA), 75 percent of survey respondents (196 institutions - 71 percent of which participated at the NCAA Division I level) performed annual internal audits of the athletic department in addition to
whatever work was being done under the NCAA mandate with independent CPAs. In priority order, this internal audit work covered:

- compliance audits of internal controls;
- financial audits;
- audits of compliance with NCAA rules and regulations; and
- operational testing for efficient and effective use of resources.

21. Student Records and Registration

Student records and registration includes database integrity, security and confidentiality, and the enrollment process.

Potential impacts include:

- adverse publicity;
- excessive costs;
- erroneous records;
- release of inappropriate information; and
- low customer service.

Proposed audit scope would include review of: database recordkeeping and registration systems, procedures for creating and changing records, and security measures protecting against unauthorized or inadvertent modification, removal, or destruction of records.

22. Student Activities/Organizations

Student activities/organizations include the CSU activities relating to social and co-curricular programs, recreational sports, clubs, and organizations, and student judicial review.

Potential impacts include:

- inappropriate activities;
- personal injury;
- litigation

Proposed audit scope would include review of systems and procedures for controlling and monitoring student activities and organizations.
23. Occupational Health and Safety

Occupational health includes required employee health examinations, evaluation of job and workplace conditions, safety training, and programs for complying with federal and state occupational regulations.

Potential impacts include:
- personal injury; and
- increased exposure to enforcement actions by regulatory agencies.

Proposed audit scope would include review of the controls which relate to employee safety and mitigation of imperiling job-related conditions or potential hazards in the workplace.

24. Housing/Residential Services

Housing/residential services includes the support activities afforded students in locating suitable housing, operation of the on-campus residence halls, and programming of activities for residential students.

Potential impacts include:
- noncompliance with bond requirements;
- unaffordable, unattractive and unsafe residence halls;
- low occupancy and loss of revenue; and
- excessive costs and property damage.

Proposed audit scope would include review of Dormitory Revenue Fund operations, residence hall costs, processes for establishing housing fees, maintenance of residence halls, and activity programs.

26. Parking

Parking includes activities of the CSU in providing parking facilities including establishing parking fees, issuance of parking permits, making parking arrangements for guests and visitors, operating parking facilities, collecting parking funds, and enforcing parking regulations.

Potential impacts include:
- inadequate parking accessibility and spaces;
- excessive costs;
- constituent complaints and service problems; and
- loss of parking revenue.

Proposed audit scope would include review of: compliance with rules and regulations; parking fees and the permit process; and enforcement activities.

COMMITTEE ON AUDIT

Presentation By

Larry Mandel
University Auditor

Mark Thomas
Systemwide Coordinating Partner, KPMG

Summary

For the 2002/03 fiscal year, construction auditing was performed for the CSU under a contract with KPMG. The contract called for six construction projects to be reviewed with coordination from the Office of the University Auditor. Areas under review included construction bid process, change orders, project management services, contractor compliance, liquidated damages, and cost verification of major equipment and construction components. Representatives from KPMG, the external audit firm hired by the California State University to conduct the audit, will make a presentation and respond to questions.
COMMITTEE ON AUDIT

Report of the Systemwide Audit in Accordance with Generally Accepted Accounting Principles Including the Report to Management

Presentation By:

Dennis Hordyk
Assistant Vice Chancellor
Financial Services

Summary

The systemwide audit in accordance with generally accepted accounting principles and the report to management will be discussed. Representatives from KPMG Peat Marwick, the external audit firm hired by the California State University to conduct the audit, will be available to respond to questions.
COMMITTEE ON AUDIT

Single Audit Report of Federal Funds

Presentation By:

Dennis Hordyk
Assistant Vice Chancellor
Financial Services

Summary

The single audit report of federal funds and the related management letter for all campuses and the Chancellor’s Office will be reviewed and discussed at the meeting. Representatives from KPMG Peat Marwick, the external audit firm hired by the California State University to conduct the audit, will be available to respond to questions.
