5. CMS

FAC is considering a resolution on CMS (attached). We should discuss.

6. Election Issues

There has been some controversy on a few campuses over the rights of faculty and other university employees during elections. The CSU Handbook of Election Issues has, apparently, been used on some campuses to discourage faculty participation in nonpartisan Get Out the Vote and even voter registration efforts. The Handbook is attached. Concerns have been raised that the Handbook is too conservative and out of date. This will be discussed in the Executive Committee, but it is on our agenda too.

7. Plans for Year

- a. Budget issues – what do we want to focus on?
- b. Legislative/political issues – what should our lobby program look like?
