DISCOVER YOUR ELEMENT

The Warriors Chemistry Club went to New Orleans, where they presented their research and took home an Outstanding Chapter Award from the American Chemical Society.

The Commons is a study space and resource center for students in math and science. It's staffed by faculty and top students for tutoring and mentoring.

We provide course sequences to prepare students for professional health career programs and the tools to study for pre-professional tests.

Our nursing graduates had a 97% pass rate for the NCLEX in the 2017-2018 academic year.
Transferring to Stan State

Of our majors have similar California Community College ADT pathways.

Warriors on the Way

Three partnerships with local community colleges that provide a seamless transfer experience.

Transfers wanting to declare majors in Biological Sciences or Kinesiology must complete the prerequisites with a grade of C- or better.
