The California State University is the nation’s largest, most diverse and most impactful public university system. It is a model for inclusive excellence, social mobility and educational equity. By transforming the lives of its students, elevating families and communities, and preparing the dynamically diverse educated workforce of today and tomorrow, the CSU is driving California’s social and economic prosperity.

Mildred García
Chancellor, The California State University
MORE THAN 450,000 students
NATION’S LARGEST four-year public university system
23 UNIVERSITIES and eight off-campus centers

INTRODUCTION
The California State University is the country’s largest four-year public university system, providing opportunities for upward mobility to a broadly diverse student body and empowering those students to become leaders in the changing workforce.
THE CSU

- educates one of the most ethnically, economically and academically diverse student bodies in the country.
- is consistently recognized for providing opportunities for social mobility.
- provides degree opportunities at one of the most affordable rates nationwide.
- enrolls more than 450,000 students.
- employs more than 63,000 faculty and staff.
- serves each of California’s regions, from Humboldt to San Diego.
- offers more than 4,000 degree programs that align with workforce demands.
- has a robust and supportive community of more than 4 million alumni.

Awards NEARLY HALF of the state’s bachelor’s degrees

Confers nearly 127,000 degrees annually

Returns nearly $7 FOR EVERY $1 invested by CA

Stretches 800 MILES from Humboldt to San Diego

Helps create 209,400 jobs annually

Generates $26.9 BILLION in industry activity
MASTER PLAN FOR HIGHER EDUCATION

The CSU was created in 1960 under the California Master Plan for Higher Education. The university system draws its students from the top third of the state’s high school graduates and is California’s primary undergraduate teaching institution. In continuing to expand its educational scope and help meet the state’s workforce demands for skilled professionals, the CSU offers independent doctorates in audiology, education, nursing practice, occupational therapy, physical therapy and public health.

THE VALUE OF A CSU DEGREE

The California State University offers a life-changing education at one of the most affordable tuition rates in the country. Students learn from world-class faculty, gain valuable hands-on experiences and receive strong career advisory support to ensure they graduate job-ready.

The CSU plays a critical role in providing future leaders with the skills and knowledge they will need to thrive in the workforce and help drive California’s economy. More than 4,000 degree programs align with the state’s workforce demands in fields such as business management, engineering and health care.

At $6,084 per academic year for full-time undergraduates, the CSU’s tuition is among the lowest in the country. In 2023, all 23 campuses ranked among the top 100 “Best Bang for the Buck” universities in the West, according to Washington Monthly magazine.

To help students turn their dream of college into reality, the university offers a variety of financial aid options including grants, loans, scholarships, fellowships, veterans aid and work study. During the 2022-23 school year, 78% of students received some form of aid, and more than half of the CSU’s bachelor’s degree recipients graduated with zero student debt.

INCLUSIVE EXCELLENCE

The CSU strives to create a welcoming and supportive environment for all members of its campus communities. The CSU provides more than half of all undergraduate degrees earned by California’s Latinx, African American and Native American students combined. Twenty-one CSU campuses are currently recognized by the U.S. Department of Education as Hispanic-Serving Institutions (HSIs), colleges and universities with a Latinx student enrollment of at least 25%.

SOCIAL MOBILITY

Earning a CSU degree can change the trajectory of students’ lives, as well as the lives of their family members, by opening doors to opportunities for social mobility. CSU universities have garnered multiple Top 10 spots in a wide range of national social mobility rankings for colleges and universities. These recognitions demonstrate the CSU’s focus on educating, graduating and elevating all students regardless of their economic or family situations; and on dismantling systemic barriers that students from under-resourced communities often face. In doing so, the CSU enriches the state’s economy by graduating students who represent diverse perspectives and lived experiences that reflect our new majority.
STUDENT-FOCUSED INITIATIVES

The CSU’s student-focused initiatives aim to ensure that all students regardless of racial, ethnic or financial background have the same opportunities to benefit from the transformative power of a CSU degree. Those initiatives include both Graduation Initiative 2025, a long-term plan to increase graduation rates, and the Black Student Success Initiative, an effort to stem statewide declines in Black student enrollment through bolstered outreach and support.
GRADUATION INITIATIVE 2025

Graduation Initiative 2025 aims to increase graduation rates for all CSU students while eliminating opportunity and achievement gaps. Since its launch in 2015, the initiative has brought completion rates to all-time highs and continues to focus on narrowing equity gaps between underserved students and their peers.

The CSU has redoubled efforts to eliminate equity gaps by launching an action plan that includes implementing reenrollment campaigns, expanding credit opportunities and providing digital degree planners for all students.

BLACK STUDENT SUCCESS INITIATIVE

Reflecting national trends, the CSU has experienced a decline in Black student enrollment as well as retention. In response, the CSU formed a strategic workgroup within Graduation Initiative 2025 to redouble its efforts in supporting and advancing Black student success. The workgroup developed a series of 13 systemwide recommendations designed to serve as an action-oriented path forward with multiple ongoing outreach efforts and on-campus programs.

**According to federal reporting standards.
GRADUATE STUDIES

• In fall 2023, the CSU enrolled 52,355 postbaccalaureate/graduate students.
• 20,405 master’s degrees were awarded in 2022-23.
• Doctor of Audiology, Doctor of Education, Doctor of Nursing Practice, Doctor of Occupational Therapy, Doctor of Physical Therapy, Doctor of Public Health programs and other doctoral programs serve 2,500 students from diverse backgrounds, preparing them for top leadership roles.

APPLYING

With 23 universities and thousands of degrees to choose from, the CSU offers more choices and connections than any other public higher education institution in the nation. Students planning to enter the CSU can apply through the online application tool, Cal State Apply, at calstate.edu/apply.

Due to the large number of applicants, some universities have additional admissions criteria for particular majors or for students who live outside the local campus area. Universities utilize local admission guarantee policies for students who graduate or transfer from high schools and community colleges that are historically served by a CSU in that region.

ADMISSION REQUIREMENTS

Freshmen Applicants

First-time freshmen applicants must meet the standards in each of the following areas:

• Graduate from high school or equivalent
• Complete required college preparatory coursework
• Earn suitable grades in college preparatory coursework
• Achieve a qualifying GPA

Transfer Applicants

There are many paths to attending the CSU, including the guaranteed Transfer Success Pathway program for recent high school graduates seeking to continue their education after no more than three years at a community college. Many transfer students enter as upper-division transfers and must complete at least 60 semester or 90 quarter units and required general education (GE) before transferring.

Students who have earned an Associate Degree for Transfer (ADT) and are accepted to a similar degree program will be admitted to the CSU with junior status. Students can explore and plan for a successful transfer to any of the 23 California State Universities using the free online CSU Transfer Planner tool.

Graduate Applicants

To apply for admission to graduate or postbaccalaureate studies, a student must:

• Earn a baccalaureate degree from an accredited institution with at least a 2.5 GPA.
• Be in good academic standing while satisfactorily meeting the professional, personal, scholastic and other standards for graduate study.

CSU TUITION AND FEES—2024-25*

- Undergraduate: $6,084
- Credential: $7,062
- Graduate/Postbaccalaureate: $7,608
- Audiology Doctorate: $15,624
- Education Doctorate: $12,546
- Nursing Practice Doctorate: $18,188
- Occupational Therapy Doctorate: $18,228
- Physical Therapy Doctorate: $18,228
- Public Health Doctorate: $18,900

(Campus mandatory fees add an average of $1,880 to student costs.)

Graduate Business Professional Fee
State university tuition fee plus $285 per semester unit or $190 per quarter unit.

Non-Resident Tuition
State university tuition fee plus $420 per semester unit or $280 per quarter unit.

*Rates are for the 2024-25 academic year.

FINANCIAL AID
In 2022-23, nearly $4.7 billion was distributed to more than 379,000 students, with an average aid award of $12,300. Presidential Scholars programs, which provide full scholarships to National Merit scholars and high school valedictorians, are also available at many CSU campuses. CSU students apply the knowledge gained in the classroom to find solutions to real-world problems through involvement in applied research and service learning. Under the guidance of world-renowned faculty who are experts in their fields, students develop leadership skills while benefiting their communities.
RESEARCH, SCHOLARSHIP AND CREATIVE ACTIVITY

A hallmark of CSU research is immersive student learning and discovery that addresses California’s most urgent challenges, including those in agriculture, water, fire prevention and cybersecurity. Undergraduate students who participate in faculty-mentored research are better prepared for future careers, graduate education and leadership roles that contribute to their respective communities.

CSU and Climate Action

The CSU seeks to create lasting partnerships with California communities, government agencies, nonprofit organizations, the private sector and philanthropists to enhance the application of climate change adaptation and climate action research and education.

The California Climate Action Seed Grants and Matching Grants, for example, is administered by the University of California system with $22 million in competitive funding going to 11 CSU campuses in 2023-24: Chico, East Bay, Humboldt, Long Beach, Monterey Bay, Northridge, Sacramento, San Diego, San Francisco, San José and San Luis Obispo.

Student-Led Projects

Undergraduate and graduate students compete on their campuses and systemwide with presentations of their research, scholarship and creative activity at the CSU Student Research Competition. Additionally, graduate students present three-minute pitches of their theses at CSU Grad Slam, and student entrepreneurs participate in the Sunstone CSU Startup Launch Competition.

Multi-Campus Research Consortia

The CSU has 10 multi-campus research consortia that provide experiential learning opportunities for students, prepare them for the workforce and address California’s vital needs. They conduct research on a breadth of topics including agriculture, biotechnology, desert studies, and water resources and policy.

The CSU’s Agricultural Research Institute, for example, supports students and faculty who are adapting cropping systems to climate change by utilizing remote sensing to manage water and fertilizers, detect disease and insect damage, and breed crops to withstand heat and use less water and fertilizers.

Another CSU consortium, STEM-NET, has supported faculty throughout the system by hosting webcasts on topics such as climate change, inquiry-based learning, virtual and augmented reality, makerspaces, and the diversification of the professoriate. Over the last four years, STEM-NET has catalyzed and facilitated the development of projects generating over $50 million in extramural funding to support research at 17 CSU campuses.

COMMUNITY ENGAGEMENT AT THE CSU
For 26 years, the CSU Center for Community Engagement has amplified campus efforts to immerse students in a range of community-based learning and service experiences that foster belonging, civic commitment and academic knowledge.

During the 2022-23 academic year, campus centers for community engagement and service, in partnership with 1,100 faculty and 3,700 community organizations, have:

• Offered more than 2,700 service-learning sections to nearly 34,000 students who contributed more than 650,000 hours of service connected to their coursework.

• Engaged nearly 20,000 students to provide an additional 1.6 million hours of direct service through a range of programs like AmeriCorps, days of service, alternative breaks and other civic engagement opportunities.

• Raised a groundbreaking $30 million to support community engagement, a return of $30 for every dollar invested by the state.

Learn more at calstate.edu/cce
The CSU’s operating budget has two main funding sources: the state General Fund and student tuition and fees. State funding covers 60% of the CSU’s operating costs, with tuition and fees making up the remainder. Auxiliaries and philanthropic support generate additional revenue needed for essential services that supplement state-supported activities.
CSU 2023-24 STATE SUPPORT

- **General Fund Appropriations**: $4,988,674,000
- **Gross Tuition Fees and Other Fee Revenue**: $3,166,827,000
- **Total General Fund and Student Fees**: $8,155,501,000
- **Support to CSU Dominguez Hills**: $15,000,000
- **CA Council on Science and Technology**: $10,000,000
- **CSUN Basic Needs Suite**: $6,000,000
- **CalFresh Outreach Resource Hub at the Center for Healthy Communities at Chico State**: $3,000,000
- **Title IX and Discrimination, Harassment and Retaliation (DHR) programs at CSU**: $1,000,000
- **CSU Dominguez Hills Mervyn M. Dymally African American Political & Economic Institute**: $500,000
- **Total State Support**: $8,191,001,000

AUXILIARY ORGANIZATIONS

Auxiliary organizations provide a wide array of support services, programs and facilities that further the educational mission of the CSU. Funds are used to facilitate students’ cocurricular activities, administer research programs, operate student unions, support recreational programs, coordinate commercial enterprises and develop public-private partnerships on behalf of the university. The 93 self-supporting auxiliary organizations operate without state General Fund money and are organized on each campus as separate legal entities.

In 2022-23:
- The CSU’s auxiliary organizations reported $6.86 billion in aggregate assets—24% of the CSU’s total combined assets. Most of these assets were held by philanthropic foundations with $4.48 billion of total assets mainly from endowment investments.
- Auxiliary organizations’ net position (i.e., equity) was $4.69 billion, of which $3.29 billion is restricted by external parties (i.e., donor endowments). This represents 96% of CSU’s combined restricted net position.
- The aggregate revenue from grants, contracts and gifts was $1.05 billion, which represents 27% of CSU’s combined total grant, contract and gift revenues.

37
PHILANTHROPIC SUPPORT
The CSU is grateful for the philanthropic support of its donors. Their support underscores their enduring confidence in the university’s ability to elevate the lives of students, families and communities through the transformative power of higher education.

In 2022-23, the university received more than $557 million in gift commitments and almost $466 million in gift receipts. This support enriches campus communities and allows the CSU to remain a leader in creating social mobility.

Highlights of giving in 2022-23:
- Gifts from 230,246 individual donors totaled more than $222 million.
- Gifts from alumni accounted for 38% of individual giving, with $84 million in contributions.
- Gifts from organizations totaled $243 million, including $75 million from foundations and more than $93 million from corporations.
- The total endowment market value hit an all-time high at $2.5 billion systemwide, providing support for programs and students in perpetuity.

Learn more at calstate.edu/donorsupport
Responsibility for the CSU is vested in a 25-member Board of Trustees, the majority of whom are appointed by the governor to eight-year terms. Faculty, alumni and two student trustees serve two-year terms. The trustees appoint the chancellor, who is the university’s chief executive officer, and the presidents, who are the chief executive officers of their respective campuses and report to the chancellor. The trustees, chancellor and presidents develop systemwide policies.
