   A Seismic Peer Review is a required review for CSU major capital projects. It is elective by the campus for CSU minor capital projects. The primary purpose of the seismic peer review is to offer a knowledgeable professional ‘second opinion’ and strategic insights on the functionality and efficacy of the project’s structural/seismic system. Although code compliance is to be considered as a part of this review, the review is not intended as a substitute for the independent code compliance check that the campus will be undertaking separately and in parallel to this work.

   While the peer review process supports design development of the project, the Project Architect/Engineer of Record retains full responsibility for the design documents including their completeness and function.

   A. The Service Provider is authorized to begin the peer review upon receipt of a Service Order Authorization. Before considering a project in full, assess if the project warrants seismic peer review. If it does not, provide a brief letter noticing this instead of the peer review.
   B. For each project accepted and appropriate for peer review, provide a Seismic Peer Review of the project. Ideally the peer review will begin at the inception of the project. Where the Service Order is issued prior to the start of the design efforts, review for appropriate RFP reference to CSU Seismic Guidelines and for particular project, program, or site considerations of note.
   C. Service Provider may suggest potential design options, analysis perspectives, and relay CSU Systemwide experience in materials performance, location, and configuration considerations that the design team can build upon in the development of the project.
   D. Service Provider may offer recommendations of possible methods for the resolution of technical issues encountered in the design and construction. The responsibility for implementing peer review comments rests completely with the Architect/Engineer of Record.
E. If timely response resolution of peer review comments cannot be reached at the campus level (differing professional opinions are perfectly reasonable), bring such issues to the attention of CPDC. CPDC will seek to achieve a broader secondary SRB (Seismic Review Board) consensus as needed and then CPDC will issue a timely resolution determination on the respective issue(s).

F. Provide peer review comments in Word (readable) format.

G. During the construction phase of a project, the Service Provider shall be available as a part of this work as a resource to the trustees for review and assessment of technical issues that may be encountered.

H. Submittal materials for a peer review will vary by phase but need to be sufficiently complete to perform a meaningful peer review. If the submittal is incomplete contact the campus for guidance. Contact CPDC if this cannot be readily or timely resolved at the campus level.

I. Each peer review shall be tailored to the submittal phase, with concept development comments at Schematics. The review shall seek to verify sensible development of the schematic plan in later phases.

J. Peer reviews are encouraged to be supplemented by a phone conversation or in-person discussion with the Engineer of Record. This may be particularly beneficial at the onset of the project to clarify requirements and at the schematic phase where submittals are narrative. By the construction document phase, submittals should include comprehensive and complete plans, specifications, engineering calculations, and soils investigation reports.

K. For each seismic peer review consider each of the following aspects:
   (1) General compliance with the structural and seismic provisions of the California Building Standards Code (CBC) in Title 24 of the California Code of Regulations, as adopted and published by the California Building Standards Commission;
   (2) Compliance with the current edition of the CSU Seismic Requirements posted online, (CPDC Website)
   (3) Compliance with good professional practice including completeness of submittals and cooperation of the Engineer of Record with the peer review process;
   (4) Local site conditions, exposure to seismic ground motion and seismic failure, and vulnerability of the structural system;
   (5) Compatibility of proposed building assemblies to sustain deformation without destructive interference;
   (6) In the case of existing structures, the condition of building assemblies;
   (7) Configuration of building plan and elevations;
   (8) Continuity of load path of structural elements and connections to carry gravity loads to the foundations and from foundations into the ground;
   (9) Continuity of load path of structural elements and connections to carry seismic inertial loads from diaphragms to lateral-load resting shear elements to foundations and from foundations into ground;
   (10) Redundancy of lateral load resisting elements;
   (11) Behavior of the elements and connections of the design under reversing lateral loads, and the post-yielding behavior (ductility) of the element, if it should occur, and its impact on system performance and reliability;
   (12) The anticipated seismic performance of significant non-structural architectural elements and equipment;
   (13) Provide copies of the project seismic peer reviews to the campus-assigned plan check review firm that is separately providing review work on this project so that plan check and seismic peer review comments are shared and mutually considered in the development in each respective review. It is not necessary to incorporate the plan check comments or to delay the seismic peer review pending the plan check review. Coordinate with the campus for plan review firm contact information. While the seismic peer review process will have started from project inception, typically the plan check review process will engage at the later part of the Construction Document phase. Sharing the seismic peer reviews from earlier phases will help inform the plan check team;
4. Timing of Reviews:
The Service Provider shall provide a peer review letter at each of the following points in the project development:
- Schematic Phase
- Preliminary Phase
- Construction Document Phase
- Construction Phase deferred submittals and advisory as may be called upon.

At approximately 75% schematic phase in anticipation of a CPDC project review, provide a letter stating concurrence (or not) with the proposed design approach of the structural systems.

5. Distribution of Peer Review Letters:
   A. Provide a PDF copy via email.
   B. Provide PDF copies of all peer reviews and correspondence via email to each of the following:
   C. Campus-assigned independent plan check firm, project architect, project engineer and CPDC.
   D. Marked up drawings are not required or desired.

6. Response Time for Reviews:
   Provide timely reviews. Review durations of seven (7) to twenty-one (21) days are acceptable in general. Keep the campus advised of projected review times and work to recognize and accommodate campus schedule concerns. Keep both the campus and CPDC informed as needed should coordination between any party become untimely or under-responsive. CPDC needs to be aware of architecture and engineering performance trends.

7. Back-Check Reviews:
   A. Provide timely back-check review(s) of resubmitted plans during the course of the project. This back-check shall include an assessment whether comments made in the prior reviews have been addressed and identify any prior comments that have not been satisfactorily addressed and their impact on the project if constructed as presented.
   B. Issue back-check comments to campus, design team and CPDC.
   C. At the completion of the design review provide a PDF letter to the campus and CPDC that the peer review phase comments have been resolved to the satisfaction of the reviewing board member.
   D. Provide a log of the closed items and outstanding items as a companion document to the PDF letter above.

8. Deferred Submittals:
   A. Confirm acceptance of proposed structurally related deferred items with the campus as a part of the review and require that deferred submittals be listed in Division One of the project specifications and plans cover sheet as a peer review comment. Deferred structural submittals shall be identified in the final peer review concurrence letter.
   B. Review of individual deferred submittal items shall be provided as a part of the peer review.
   C. Advise campus and CPDC if it appears deferred submittals identified in the final concurrence letter are not being submitted during the construction phase.

9. Phased Construction:
   Phased construction of infrastructure, foundation, shell, tenant improvements, and other increments of construction are common to contemporary CSU construction. As part of peer review, assess the impact and timing of the campus phased construction plan relative to scheduling for peer review of deferred submittal and phased construction document packages. Timing in this regard is critical and requires
interaction and coordination by all team members. Advise campus and CPDC if untimely or under-responsive actions occur.

10. Extra Services:
   A. Extra Services are not anticipated to be needed in the typical course of providing these reviews. The following would be examples of potential Extra Service work:
      (1) Pre-design project studies.
      (2) Participation in campus design development beyond peer review, such as attendance at project design meetings or project site visits.
      (3) Substantial stop/restart or re-characterization of original peer review scope.
   B. Extra Services require pre-authorization in writing by the project manager.

11. Reimbursable Expenses:
   A. The fee for the seismic peer review is inclusive of expenses incidental to this work. Reimbursable expenses are not anticipated in the typical course of providing a seismic peer review.
   B. Reasonable travel expenses when requested by the campus will be reimbursable as part of an Extra Service Authorization.

12. Project Administration:

    The master agreement and scope for this project is managed centrally by the Office of the Chancellor. Individual campuses are authorized to secure (and pay for) services under this agreement.

    Direct inquiries for process, review challenges and general contract questions to:

WHO IS AN INSURED** is amended to include as an additional insured any person or organization that you agree in a contract or agreement requiring insurance to include as an additional insured on this policy, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused in whole or in part by you or those acting on your behalf:
   
a. In the performance of your ongoing operations;
   
b. In connection with premises owned by or rented to you; or
   
c. In connection with "your work" and included within the "product-completed operations hazard".

2. The insurance provided to the additional insured by this endorsement is limited as follows:

   a. This insurance does not apply on any basis to any person or organization for which coverage as an additional insured specifically is added by another endorsement to this policy.

   b. This insurance does not apply to the rendering of or failure to render any "professional services".

   c. This endorsement does not increase any of the limits of insurance stated in D. Liability And Medical Expenses Limits of Insurance.

3. The following is added to SECTION III H.2. Other Insurance – COMMON POLICY CONDITIONS (BUT APPLICABLE ONLY TO SECTION II – LIABILITY)

   However, if you specifically agree in a contract or agreement that the insurance provided to an additional insured under this policy must apply on a primary basis, or a primary and non-contributory basis, this insurance is primary to other insurance that is available to such additional insured which covers such additional insured as a named insured, and we will not share with that other insurance, provided that:

   a. The "bodily injury" or "property damage" for which coverage is sought occurs after you have entered into that contract or agreement; or

   b. The "personal and advertising injury" for which coverage is sought arises out of an offense committed after you have entered into that contract or agreement.

4. The following is added to SECTION III K. 2. Transfer of Rights of Recovery Against Others to Us – COMMON POLICY CONDITIONS (BUT APPLICABLE TO ONLY TO SECTION II – LIABILITY)

   We waive any rights of recovery we may have against any person or organization because of payments we make for "bodily injury", "property damage" or "personal and advertising injury" arising out of "your work" performed by you, or on your behalf, under a contract or agreement with that person or organization. We waive these rights only where you have agreed to do so as part of a contract or agreement with such person or organization entered into by you before the "bodily injury" or "property damage" occurs, or the "personal and advertising injury" offense is committed.

ALL OTHER TERMS AND CONDITIONS OF THIS POLICY REMAIN UNCHANGED.
BUSINESS AUTO COVERAGE FORM

A. Broad Form Named Insured

The following is added to the SECTION II – LIABILITY Coverage, Paragraph A.1. Who Is An Insured Provision:

Any business entity newly acquired or formed by you during the policy period, provided you own fifty percent (50%) or more of the business entity and the business entity is not separately insured for Business Auto Coverage. Coverage is extended up to a maximum of one hundred eighty (180) days following the acquisition or formation of the business entity.

This provision does not apply to any person or organization for which coverage is excluded by endorsement.

B. Employees As Insureds

The following is added to the SECTION II – LIABILITY COVERAGE, Paragraph A.1. Who Is An Insured Provision:

Any "employee" of yours is an "insured" while using a covered "auto" you don't own, hire or borrow in your business or your personal affairs.

C. Blanket Additional Insured

The following is added to the SECTION II – LIABILITY COVERAGE, Paragraph A.1. Who Is An Insured Provision:

Any person or organization that you are required to include as an additional insured on this coverage form in a contract or agreement that is executed by you before the "bodily injury" or "property damage" occurs is an "insured" for liability coverage, but only for damages to which this insurance applies and only to the extent that person or organization qualifies as an "insured" under the Who Is An Insured provision contained in SECTION II – LIABILITY COVERAGE.

The insurance provided to the additional insured will be on a primary and non-contributory basis to the additional insured's own business auto coverage if you are required to do so in a contract or agreement that is executed by you before the "bodily injury" or "property damage" occurs.

D. Blanket Waiver Of Subrogation

The following is added to the SECTION IV – BUSINESS AUTO CONDITIONS, A. Loss Conditions, 5. Transfer Of Rights Of Recovery Against Others To Us:

We waive any right of recovery we may have against any person or organization to the extent required of you by a contract executed prior to any "accident" or "loss", provided that the "accident" or "loss" arises out of the operations contemplated by such contract. The waiver applies only to the person or organization designated in such contract.

E. Employee Hired Autos

1. The following is added to the SECTION II – LIABILITY COVERAGE, Paragraph A.1. Who Is An Insured Provision:

An "employee" of yours is an "insured" while operating an "auto" hired or rented under a contract or agreement in that "employee's" name, with your permission, while performing duties related to the conduct of your business.

2. Changes in General Conditions:

Paragraph 5.b. of the Other Insurance Condition in the BUSINESS AUTO CONDITIONS is deleted and replaced with the following:

b. For Hired Auto Physical Damage Coverage, the following are deemed to be covered "autos" you own:
