

## **COMMUNIQUÉ**

FEBRUARY 20, 2023

### **CSU BEGINS NEGOTIATIONS WITH CSUEU**

On February 3, 2023, the California State University (CSU) met with the California State University Employees Union (CSUEU) to begin negotiations over salary and benefits for the 2023-24 fiscal year. At that meeting, CSUEU made a proposal for a salary step structure.

The parties met again on February 17, 2023 where the CSU presented an alternative framework for an affordable salary step structure.

The CSU will continue to negotiate in hopes of reaching an agreement that provides our valued employees fair and appropriate compensation within the available funding provided by the budget compact agreement with the governor, while advancing the university system's additional student success and equity-centered priorities.
