

# Math 115 A/B College Algebra Guided Notes

---

Math 115 A/B College Algebra Guided Notes .....	1
Chapter 1 Prerequisites .....	4
Section 1: Use the Language of Algebra .....	4
Section 2: Fractions.....	5
Section 3: Properties of Real Numbers.....	6
Section 4: Add and Subtract Polynomials .....	7
Section 5: Properties of Exponents and Scientific Notation.....	8
Section 6: Multiply Polynomials.....	9
Section 7: Factoring Polynomials .....	10
Section 8: Factoring Polynomials .....	11
Section 9: Factoring Polynomials .....	12
Section 10: Factoring Polynomials .....	13
Chapter 2 Equations.....	14
Section 1: Graph Linear Equations in Two Variables .....	14
Section 2: Slope of a Line .....	15
Section 3: Find the Equation of a Line .....	16
Section 4: Use a General Strategy to Solve Linear Equations.....	17
Section 5: Solve a Formula for a Specific Variable.....	18
Section 6: Solve Mixture and Uniform Motion Applications .....	19
Chapter 3 Introduction to Functions .....	20
Section 1: Relations and Functions .....	20
Section 2: Graphs of Functions .....	21
Section 3: Finding Composite and Inverse Functions .....	22
Section 4: Rates of Change and Behavior of Graphs .....	23
Chapter 4 Linear Functions .....	24
Section 1: Linear Functions.....	24
Section 2: Modeling with Linear Functions.....	25
Section 3: Systems of Linear Equations: Two variables .....	26
Section 4: Solve Applications with Systems of Equations.....	27
Section 5: Solve Mixture Applications with Systems of Equations .....	28
Chapter 5 Quadratic Functions.....	29
Section 1: Solve Quadratic Equations Using the Square Root Property.....	29
Section 2: Solve Quadratic Equations by Completing the Square .....	30

Section 3: Solve Quadratic Equations Using the Quadratic Formula.....	31
Section 4: Solve Quadratic Equations in Quadratic Form.....	32
Section 5: Solve Applications of Quadratic Equations.....	33
Section 6: Graph Quadratic Functions Using Properties.....	34
Section 7: Graph Quadratic Functions Using Transformations.....	35
Chapter 6 Prerequisites (Semester 2).....	36
Section 1: Real Numbers: Algebra Essentials.....	36
Section 2: Exponents and Scientific Notation.....	37
Section 3: Simplify Expressions with Roots.....	38
Section 4: Simplify Radical Expressions.....	39
Section 5: Simplify Rational Exponents.....	40
Section 6: Add, Subtract, and Multiply Radical Expressions.....	41
Section 7: Divide Radical Expressions.....	42
Section 8: Multiply and Divide Rational Expressions.....	43
Section 9: Add and Subtract Rational Expressions.....	44
Section 10: Simplify Complex Rational Expressions.....	45
Chapter 7 Deeper Look at Functions.....	46
Section 1: Functions and Function Notation.....	46
Section 2: Domain and Range.....	47
Section 3: Composition of Functions.....	48
Section 4: Transformation of Functions.....	49
Section 5: Absolute Value Functions.....	50
Section 6: Linear Inequalities and Absolute Value Inequalities.....	51
Section 7: Inverse Functions.....	52
Chapter 8 Polynomial and Rational Functions.....	53
Section 1: Power Functions and Polynomial Functions.....	53
Section 2: Graphs of Polynomial Functions.....	54
Section 3: Solving Polynomial Functions.....	55
Section 4: Rational Functions.....	56
Section 5: Solving Rational Functions.....	57
Section 6: Use Radicals in Functions.....	58
Section 7: Solve Radical Equations.....	59
Section 8: Modeling Using Variation.....	60
Chapter 9 Exponential and Logarithmic Functions.....	61
Section 1: Exponential Functions.....	61

Section 2: Graphs of Exponential Functions .....	62
Section 3: Logarithmic Functions .....	63
Section 4: Graphs of Logarithmic Functions .....	64
Section 5: Logarithmic Properties.....	65
Section 6: Exponential and Logarithmic Equations .....	66
Section 7: Exponential and Logarithmic Models .....	67
