RE: Student Admissions and Impaction Policies

The Budget Act of 2017 (AB 97) required the California State University (CSU) Board of Trustees to adopt new policies by May 2018. These policies were designed to mitigate the effects of impaction by: (i) requiring campuses to give priority to local CSU-eligible applicants seeking to enroll in impacted programs and (ii) automatically redirecting all eligible applicants to non-impacted programs or campuses. The CSU Board of Trustees approved these policies in March 2018 and implementation commenced with the 2019-2020 academic year. The full policies can be found at: <https://www2.calstate.edu/csusystem/board-of-trustees/past-meetings/2018/Documents/march-19-21-2018-ed-pol.pdf>

This report is in compliance with Section 89290.5 of the Education Code, which provides that the Office of the Chancellor of the CSU shall prepare an annual systemwide report

CSU Report: Student Admissions and Impaction Policies

May 5, 2021

Page 2

on student admissions and impaction policies. The full report has been posted to <https://www.calstate.edu/legislative-reports/>.

As shown in the report, impacted campuses are admitting local area students at a significantly higher rate than non-local students. Also, despite the disruption of COVID-19 over the past year, both transfer and freshman students are enrolling at campuses to which they were redirected under the CSU's 2018 policy.

Should you have any questions about this report, please contact Nichole Muñoz-Murillo, Assistant Vice Chancellor, Advocacy and State Relations at (916) 445-5983.

Sincerely,

Steven Relyea (May 5, 2021 13:58 PDT)

California State University
Student Admissions and Impaction Policies
A Report Pursuant to the Budget Act of 2017 (AB 97)
May 3, 2021

Background

This report is in compliance with Section 89290.5 of the Education Code, which provides that the Office of the Chancellor of the California State University (CSU) shall prepare an annual systemwide report on student admissions and impaction policies.

The new policies adopted by the Board of Trustees in March 2018, were drafted through the CSU Admissions Advisory Council. The council meets regularly and advises the chancellor about admissions issues and reviews systemwide admission policy and practices to ensure compliance with Board of Trustees policy and state statute. The council membership consists of:

- Two campus presidents
- One provost/vice president for Academic Affairs
- One vice president for Student Affairs
- One assistant vice president for Enrollment Management
- Five faculty members (including three representatives from the Academic Senate CSU, one from the CSU Math Council and one representative from the CSU English Council)
- Two representatives from the Office of the Chancellor
- One representative from the California State Student Association (CSSA).

While developing the policy proposals, the CSU Admissions Advisory Council sought to accomplish three main goals:

- Meet the requirements set forth by the statute;
- Develop proposals that account for the unique differences between the CSU's 23 campuses and provide the necessary flexibility; and
- Ensure individual students have a voice in the admissions process.

Below is a high-level summary of the policies passed by the CSU Board of Trustees.

Local Admission Priority Policy

The local admission priority policy required that every impacted program to all CSU campuses provide first priority to local applicants. *First priority* is defined as a finite admission advantage of local applicants. The advantage is provided to all CSU-eligible undergraduate applicants over non-local applicants. Local is defined based on the Local Admission Area for each campus. If a campus is non-impacted, their local area is defined as the campus Service Area. Local Admission and Services Area information by campus can be found at: <https://www2.calstate.edu/apply/freshman/documents/csulocaladmission-serviceareas.pdf>. Consistent with CSU Enrollment Management Policy and Practices, if a major or program is not offered as part of the curriculum at an applicant's local impacted CSU campus, CSU-eligible students would

California State University
Student Admissions and Impaction Policies
A Report Pursuant to the Budget Act of 2017 (AB 97)
May 3, 2021

be treated as coming from the local area by the adjacent campus that offers the specific program to which the applicant is applying.

Redirection Policy

The redirection policy applies to all CSU-eligible undergraduate applicants who are not admitted to any CSU campus. Applicants who are admitted to at least one CSU campus are not eligible for redirection. To provide organization to the process and best support applicants and their families, a set of systemwide timelines and deadlines were implemented for all admission decisions to be completed and communicated to all undergraduate applicants. CSU eligible applicants who are waitlisted or denied admission to either a campus or program due to impaction are notified of the opportunity to be redirected to a campus with capacity. Applicants are sent emails and text messages over the course of 35 days. Applicants who respond and select a campus are redirected to their first or second choice campus. Applicants who do not respond after the 35 days are redirected to a non-impacted campus that still has capacity.

Change to Campus Policies for Local Admission Priority

In accordance with the CSU Enrollment Management Policy and Practices, CSU campuses provided local admission priority to impacted campuses, but not necessarily to impacted majors/programs. The new policy required each campus to provide local applicants an admission advantage to impacted programs over non-local applicants. The local admission priority applies to first-time freshman, upper-division transfer and Associate Degree for Transfer (ADT) applicants.

CSU campuses are using several methods to provide local applicants admissions preference, including:

- First-time Freshman
 - Eligibility Index¹ bump
 - Eligibility Index for local applicants that is lower than non-local applicants
 - A-G GPA bump
- Upper-Division Transfer and Associate Degree for Transfer
 - Transferable GPA bump
 - Transferable GPA for local applicants that is lower than non-local applicants

Nursing Programs

Most CSU nursing programs have used a supplemental criterion point system to evaluate nursing applicants. The point system was updated to include additional points

¹ The CSU [Eligibility Index](#) is calculated using the GPA and ACT or SAT score.

California State University
Student Admissions and Impaction Policies
A Report Pursuant to the Budget Act of 2017 (AB 97)
May 3, 2021

for local applicants. For example, CSU Channel Island's [supplemental criteria](#) provides additional points for applicants who are within Ventura, Santa Barbara, San Luis Obispo, Southern Monterey and Western Los Angeles (Malibu) counties. This includes the Channel Islands local service area and Cal Poly San Luis Obispo's local area since Cal Poly does not offer a nursing program.

Below is a summary for fall 2020 of campus impacted programs, policies and website links regarding impaction and local admission priority. Please note websites have been updated to provide information to incoming fall 2021 applicants.

- Bakersfield
 - Program: Nursing
 - Local applicants were provided additional points in the nursing programs scoring.

In response to the COVID-19 pandemic, the CSU suspended the use of standardized test scores (ACT and SAT) for the 2021-22 and 2022-23 academic years. This required the CSU to adjust its first-time freshman admission process. Campus websites may not reflect the local advantage provided in fall 2020.

Communication to Prospective Students

The local area admission preference and redirection policies have been communicated to prospective applicants and counselors in a variety of ways. CSU campuses have updated their respective admission websites. In addition, both the Office of the Chancellor and campuses have communicated these changes statewide and locally to high school and community college counselors.

Annually, CSU campuses hold local counselor conferences, and the Office of the Chancellor holds statewide counselor conferences. These conferences provide campuses and the Office of the Chancellor an opportunity to provide updates to counselors. The Office of the Chancellor has included presentations on both the Local Area priority and redirection policy in the 2018, 2019 and 2020 CSU Counselor Conferences.

In addition, the CSU has used email communications to share this information with the more than 13,000 counselors who receive ongoing CSU communications and updates.

The Cal State Apply website, provides robust information about impaction and redirection. The impaction site is linked from the Cal State Apply (Calstate.edu/apply) site that receives more than 1.2 million visits per year.

The Office of the Chancellor continues to refine the impaction and Cal State Apply websites, and campuses continue to update their campus admission content.

Analysis of Impacted Admission for Local Students

The data provided in this report compares Fall 2019 to Fall 2020 data. The tables below show the number of CSU eligible applicants (e.g., applications coded as admitted and denied eligible) disaggregated by local area status. This is reported separately by campus, county of residence, and race/ethnicity as requested, and each of these areas is reported separately for first-time freshmen and transfer. The CSU implemented additional reporting elements for campuses effective in fall 2019 to track local area admission. For this year's report, information for impacted campuses are reported based on these new campus-reported elements, which may differ from the estimates in

California State University
Student Admissions and Impaction Policies
A Report Pursuant to the Budget Act of 2017 (AB 97)
May 3, 2021

the prior year report. For non-impacted campuses, a combination of campus reported data and CO estimates were used to provide the most accurate reflection of local status for each application. Based on early fall 2021 applicant data, we expect that the uncertainty caused by the COVID-19 pandemic will continue to influence these outcomes in the near future. However, as the CSU continues to track these data, the trend of the data will be more apparent.

It is also important to acknowledge that a variety of issues impact admissions outcomes and trends, at each CSU campus. These issues include the number of continuing students, number of graduating students, applications received, the specific programs to which applicants apply, and available funding for academic programs. Application and enrollment patterns in the CSU and elsewhere in the state and country occurred under very different circumstances due to the COVID-19 pandemic.

In sum, as shown in the following tables each campus with impacted programs or levels has admitted local area applicants at a significantly higher rate than non-local applicants. In addition, despite the disruption of the COVID -19 pandemic, both freshman and transfer students are utilizing the redirection policy adopted in 2018.
