RE: Student Admissions and Impaction Policies

The Budget Act of 2017 (AB 97) required the California State University (CSU) Board of Trustees to adopt policies by May 2018 regarding student admissions and impaction policies. These policies were designed to mitigate the effects of impaction by: (i) requiring campuses to give priority to local CSU-eligible applicants seeking to enroll in impacted programs and (ii) automatically redirecting all eligible applicants to non-impacted programs or campuses. The CSU Board of Trustees approved these policies in March 2018 and implementation commenced with the 2019-20 academic year. The full policies can be found at: <https://www2.calstate.edu/csu-system/board-of-trustees/past-meetings/2018/Documents/march-19-21-2018-ed-pol.pdf>

This report is in compliance with Section 89290.5 of the Education Code, which provides that the Office of the Chancellor of the CSU shall prepare an annual systemwide report on student admissions and impaction policies. The full report has been posted to <https://www.calstate.edu/legislativereports/>.

CSU Report: Admission and Impaction Policies

September 14, 2023

Page 2

This report is submitted for the fall 2022 application and admission cycle. The impact of the COVID-19 pandemic is still impacting the CSU and enrollment. Data shows that an increasing number of students have chosen to not move outside of their home area to attend college and there was a continued decrease in California Community College transfer students. The data in this report regarding redirection reflects this decrease in interest.

Assembly Bill 2973, the postsecondary education omnibus bill approved by Governor Newsom and filed with the Secretary of State on September 22, 2022, amended California Education Code Section 89030.5 regarding the process required to enact a change in the criteria for admission to the CSU. This amendment modifies the requirements needed to discontinue campus or program admission impaction, eliminating the need to go through a lengthy process. Due to increased graduation rates, expanded state funding for enrollment and a decrease in the California Community College transfer population, many CSUs have discontinued impaction at the freshman and transfer level and for specific academic programs.

Should you have any questions about this report, please contact Nathan Dietrich, Assistant Vice Chancellor, Advocacy and State Relations at (916) 445-5983.

Sincerely,

Steve Relyea (Sep 14, 2023 17:18 PDT)

California State University
Student Admissions and Impaction Policies
A Report Pursuant to the Budget Act of 2017 (AB 97)
July 23, 2023

Background

This report is in compliance with Section 89290.5 of the Education Code, which provides that the Office of the Chancellor of the California State University (CSU) shall prepare an annual systemwide report on student admissions and impaction policies.

Assembly Bill 2973, the postsecondary education omnibus bill approved by Governor Newsom and filed with the Secretary of State on September 22, 2022, amended California Education Code Section 89030.5 regarding the process required to enact a change in the criteria for admission to the CSU. This amendment modifies the requirements needed to discontinue campus or program admission impaction, eliminating the need to go through a full public process. The full bill language is [available online](#). Due to increased graduation rates, expanded state funding for enrollment and a decrease in the California Community College transfer population, many CSUs have discontinued impaction at the freshman and transfer level and for specific academic programs.

The policies, adopted by the Board of Trustees in March 2018, were drafted through the CSU Admissions Advisory Council. The council meets regularly and advises the chancellor about admissions issues and reviews systemwide admission policy and practices to ensure compliance with Board of Trustees policy and state statute. The council membership consists of:

- Two university presidents
- One provost/vice president for Academic Affairs
- One vice president for Student Affairs
- One assistant vice president for Enrollment Management
- Five faculty members (including three representatives from the Academic Senate CSU, one from the CSU Math Council and one representative from the CSU English Council)
- Two representatives from the Office of the Chancellor
- One representative from the California State Student Association (CSSA)

While developing the policy proposals, the CSU Admissions Advisory Council sought to accomplish three main goals:

- Meet the requirements set forth by the legislature;
- Develop proposals that account for the unique differences between the CSU's 23 universities and provide the necessary flexibility; and
- Ensure individual students have a voice in the admissions process.

Below is a high-level summary of the policies passed by the CSU Board of Trustees.

California State University
Student Admissions and Impaction Policies
A Report Pursuant to the Budget Act of 2017 (AB 97)
July 23, 2023

Local Admission Priority Policy

The local admission priority policy required that every impacted program to all CSU campuses provide first priority to local applicants. *First priority* is defined as a finite admission advantage of local applicants. The advantage is provided to all CSU-eligible undergraduate applicants over non-local applicants. Local is defined based on the Local Admission Area for each campus. If a campus is non-impacted, their local area is defined as the campus Service Area. Local Admission and Services Area information by campus can be found at:

<https://www2.calstate.edu/apply/freshman/documents/csulocaladmission-serviceareas.pdf>.

Consistent with CSU Enrollment Management Policy and Practices, if a major or program is not offered as part of the curriculum at an applicant's local impacted CSU campus, CSU-eligible students would be treated as coming from the local area by the adjacent campus that offers the specific program to which the applicant is applying.

Redirection Policy

The redirection policy applies to all CSU-eligible undergraduate applicants who are not admitted to any CSU campus. Applicants who are admitted to at least one CSU campus are not eligible for redirection. To provide organization to the process and best support applicants and their families, a set of systemwide timelines and deadlines were implemented for all admission decisions to be completed and communicated to all undergraduate applicants. CSU eligible applicants who are waitlisted or denied admission to either a campus or program due to impaction are notified of the opportunity to be redirected to a campus with capacity. Applicants are sent emails and text messages over the course of 35 days. Applicants who respond and select a campus are redirected to their first or second choice campus. Applicants who do not respond after the 35 days are redirected to a non-impacted campus that still has capacity.

Change to Campus Policies for Local Admission Priority

In accordance with the CSU Enrollment Management Policy and Practices, CSU campuses provided local admission priority to impacted campuses, but not necessarily to impacted majors/programs. The new policy required each campus to provide local applicants an admission advantage to impacted programs over non-local applicants. The local admission priority applies to first-time freshman, upper-division transfer and Associate Degree for Transfer (ADT) applicants.

Impacted CSU campuses are using several methods to provide local applicants admissions preference, including:

- First-time Freshman
 - A-G GPA advantage

California State University
Student Admissions and Impaction Policies
A Report Pursuant to the Budget Act of 2017 (AB 97)
July 23, 2023

- Additional points in their Multi-Factor Admission Score¹
- Upper-Division Transfer and Associate Degree for Transfer
 - Transferable GPA advantage
 - Transferable GPA for local applicants that is lower than non-local applicants

Nursing Programs

Most CSU nursing programs have used a supplemental criterion point system to evaluate nursing applicants. The point system was updated to include additional points for local applicants. For example, CSU Channel Island's [supplemental criteria](#) provides additional points for applicants who are within Ventura, Santa Barbara, San Luis Obispo, Southern Monterey and Malibu counties. This includes the Channel Islands local service area and Cal Poly San Luis Obispo's local area since Cal Poly does not offer a nursing program.

2022 CSU Campus Impacted Programs

Below is a summary of fall 2022 campus impacted programs, policies and website links regarding impaction and local admission priority. Please note websites have been updated to provide information to incoming fall 2023 applicants.

- Bakersfield
 - Program: Nursing
 - Local applicants were provided additional points in the nursing programs scoring.
 - Website [link](#)
- Channel Islands
 - Program: Mechatronics Engineering (freshman admission only)
 - *Impaction was discontinued effective spring 2023.*
 - Program: Nursing
 - Local applicants were provided additional points in the nursing programs scoring.
 - Website [link](#)
- Chico
 - Program: Music - Recording Arts
 - Campus uses a points-based system and additional points were awarded to individuals from the local admission area.

Discontinuation of Standardized Test Scores in Admission Criteria

In March 2022, the CSU Board of Trustees approved the permanent discontinuation of ACT and SAT scores as criteria for undergraduate admission. First-time freshmen must meet the following eligibility requirements: be a high school graduate or equivalent; complete the 15-unit comprehensive A-G pattern of college preparatory course; and earn a qualifying A-G GPA as described below.

- California residents and graduates of California high schools will be eligible for admission by earning a 2.50 or greater A-G GPA.

California State University
Student Admissions and Impaction Policies
A Report Pursuant to the Budget Act of 2017 (AB 97)
July 23, 2023

- Any California high school graduate or resident of California earning a GPA between 2.00 and 2.49 may be evaluated for admission based upon supplemental factors.
- Non-California residents may be eligible for admission to the CSU by earning a 3.00 or greater A-G GPA along with other supplemental factors utilized by the individual campus, including those outlined by impacted campuses and programs.
- Any non-California high school graduate earning a GPA between 2.47 and 2.99 may be evaluated for admission based upon supplemental factors.

Communication to Prospective Students

The local area admission preference and redirection policies have been communicated to prospective applicants and counselors in a variety of ways. CSU campuses have updated their respective admission websites. In addition, both the Office of the Chancellor and universities have communicated these changes statewide and locally to high school and community college counselors.

Annually, CSU campuses hold local counselor conferences and the Office of the Chancellor holds statewide counselor conferences. These conferences provide universities and the Office of the Chancellor an opportunity to provide updates to counselors. The Office of the Chancellor has included presentations on both the Local Area priority and redirection policy in the annual CSU Counselor Conferences.

In addition, the CSU has used email communications to share this information with the more than 13,000 counselors who receive ongoing CSU communications and updates.

The Cal State Apply website provides robust information about impaction and redirection. The impaction site is linked from the Cal State Apply (Calstate.edu/apply) site that receives more than 1.2 million visits per year.

The Office of the Chancellor continues to refine the impaction and Cal State Apply websites, and universities continue to update their campus admission content.

Analysis of Impacted Admission for Local Students

The data provided in this report compares fall 2021 to fall 2022 data. The following tables show the number of CSU eligible applicants (e.g. applications coded as admitted and denied eligible) disaggregated by local area status. This is reported separately by campus, county of residence, and race/ethnicity as requested, and each of these areas is reported separately for first-time freshmen and transfer. The CSU implemented additional reporting elements for campuses effective in fall 2019 to track local area admission. Information for impacted campuses is reported based on these new campus-reported elements. For non-impacted campuses, a combination of campus reported data and Office of the Chancellor estimates were used to provide the most accurate reflection of local status for each application.

It is also important to acknowledge that a variety of issues impact admissions outcomes and trends at each CSU. These issues include the number of continuing students, the number of

California State University
Student Admissions and Impaction Policies
A Report Pursuant to the Budget Act of 2017 (AB 97)
July 23, 2023

graduating students, the applications received, the specific programs to which applicants apply and available funding for academic programs. Application and enrollment patterns in the CSU and elsewhere in the state and country occurred under very different circumstances due to the COVID-19 pandemic.

As shown in the data provided, each campus with impacted programs or levels has admitted local area applicants at a significantly higher rate than non-local applicants.
