MODIFY AN EXISTING PROGRAM
Converting a Self-Support Program to a State-Support Program (Bachelor's and Master's)

Self-support and state-support programs both have to be proposed to Academic Programs, as do proposals to convert an authorized self-support degree program to state-support. While Chancellor's Office review is required, the proposal will not need to duplicate the information submitted in the original self-support proposal. The proposal should include the following information:

1. Evidence of campus approval of the conversion;
2. Program description;
3. Rationale for making the change;
4. Term and academic year of intended implementation (e.g., fall 2024) including the teach-out plan for students enrolled in the self-support version of the program; and
5. Documentation of resources and faculty support, enrollment, need, and the anticipated impact on the community.

Proposals should be submitted to degrees@calstate.edu.
