INFORMATIVE DIGEST

In accordance with Education Code Section 68040 et seq., a California State University campus determines each student's California residency status for tuition purposes at the time of admission. A student is designated either a resident or nonresident for tuition purposes. The initial classification of residency requires that a student meet the requirements of physical presence in California and an intent to remain in California. A student who fails to demonstrate physical presence and intent to remain is classified as a nonresident.

Education Code section 68044 requires the CSU to adopt rules and regulations for determining a student's residency classification or reclassification as a California resident. The proposed amendment establishes the circumstances where financial independence shall not be considered in a reclassification analysis.

COST TO STATE AND LOCAL AGENCIES AND SCHOOL DISTRICTS

The adoption of the proposed amendment will not impose a cost or savings on any state agency; will not impose a cost or savings on any local agency or school district that is required to be reimbursed under Section 17561 of the Government Code; will not result in any nondiscretionary cost or savings to local agencies; will not result in any cost or savings in federal funding to the state; and will not impose a mandate on local agencies or school districts.

AUTHORITY

The regulations are being amended pursuant to Sections 68044 and 89030 of the Education Code.
