Establishment

Education Code Section 89045, enacted by Chapter 1406 of the Statutes of 1969, provides for the establishment of an internal auditing function reporting directly to the Trustees of the California State University.

Nature

Internal auditing is an independent, objective assurance and consulting activity designed to add value and improve operations.

Mission Statement

The mission of the Office of the University Auditor is to assist university management and the Trustees in the effective discharge of their fiduciary and administrative responsibilities by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes. This assistance is provided through a series of independent and objective operational and compliance audits, internal control reviews, investigation services, and consulting.

Scope of Work

The Office of the University Auditor provides university management and the Trustees with analyses, appraisals, recommendations, counsel, and information concerning the activities reviewed. Major objectives include evaluating risk exposures relating to governance, operations, and information systems; monitoring the effectiveness and efficiency of controls; and adding value by promoting continuous improvement and effective control at reasonable costs.

The scope of internal auditing includes:

1. Reviewing the reliability and integrity of financial and operating information and the means used to identify, measure, classify, and report such information.
2. Reviewing the systems established to ensure compliance with those policies, plans, procedures, laws, and regulations, which could have a significant impact on operations and reports, and determining whether the university is in compliance.
3. Reviewing the means of safeguarding assets and verifying the existence of such assets, as appropriate.
4. Appraising the economy and efficiency with which resources are employed.

5. Reviewing operations and programs to ascertain whether results are consistent with established objectives and goals and whether the operations or programs are being carried out as planned.
6. Reviewing the governance process to ensure effective organizational performance management accountability and promotion of appropriate ethics and values.

Responsibility and Authority

The Office of the University Auditor functions under the policies established by the Trustees of the California State University and university management. Additionally, the Office of the University Auditor serves the university in a manner that is consistent with the *International Standards for the Professional Practice of Internal Auditing* and the *Code of Ethics* as promulgated by the Institute of Internal Auditors. In this context, the University Auditor is responsible for:

1. All administrative duties and requirements pertaining to the operation of the Office of the University Auditor, including the establishment of policies for auditing and direction of the Office of the University Auditor's technical and administrative functions, and represents the California State University system in all relationships with external audit agencies.
2. Developing and executing a comprehensive audit program for the evaluation of management controls provided over all university and auxiliary organization activities, although the Board of Trustees reserves the right to assign the Office of the University Auditor to review any area within its jurisdiction.

4. Recommending improvement of management controls designed to safeguard university and auxiliary organization resources and to ensure compliance with government laws and regulations.
5. Reviewing procedures and records for their adequacy to accomplish intended objectives, and appraising policies and plans relating to the activity or function under audit review.
6. Conducting investigations of alleged incidences of fraud, waste and abuse, and improper governmental activities.

7. Authorizing the publication of reports on the results of accepted audit examinations, including recommendations for improvement.
8. Appraising the adequacy of the action taken by operating management to correct reported deficient conditions; accepting adequate corrective action.
9. Conducting special examinations and providing consulting services at the request of management.

The Office of the University Auditor has full, free and unrestricted access to all records (manual and electronic), property, and personnel of the university and recognized auxiliary organizations. The Office of the University Auditor is free to review and appraise all policies, plans, and procedures.

Internal auditing is a staff function and, as such, has no authority to make operating decisions, to direct anyone in operations, or to take action or implement any of its recommendations. These tasks are the responsibility of the university and auxiliary management.

Independence

To permit the rendering of impartial and unbiased judgments essential to the proper conduct of audits, internal auditors will be independent of the activities they audit.

Policies and Procedures

The following general operating statement for direction of all activities of the Office of the University Auditor is adopted consistent with the provisions of Government Code Sections 1236 and 13400 et seq., Education Code Sections 89045 and 89761.

2. An audit plan will be prepared annually by the University Auditor and submitted to the Executive Audit Committee for review. Composition of the membership of the Executive Audit Committee shall be determined by the Chancellor. After review by the Executive Audit Committee, the audit plan shall be submitted for approval by the Board through the Committee on Audit. Audit topics will be selected based upon: a detailed risk assessment that is performed triennially; legislatively mandated reviews noted in Education Code §89045 and Government Code §13400 et seq.; and in the action taken

by the Trustees' Committee on Audit in agenda item 2 at the January 1999 meeting (currently reflected in the Chancellor's Executive Order 698).

Copies of all audit reports will be made available electronically to the Joint Legislative Audit Committee, the Joint Legislative Budget Committee, the Department of Finance, the Legislative Analyst, and the library of each campus of the university. The Trustees, each campus of the California State University, and the State Auditor shall receive a hard copy of the audit reports.
2. The President or Chancellor will communicate to the University Auditor in writing the progress made towards implementing the plan of corrective action noted in the response to the audit. The University Auditor will review the responsiveness of the corrective action taken and determine whether additional action may be required. In certain instances, it may be necessary to revisit the campus to ascertain whether the corrective action taken is achieving the desired results. All findings will be tracked until corrective action is taken. Reports of follow-up activity will be made at each meeting of the Committee on Audit.
3. At each meeting of the Committee on Audit, the University Auditor will report the assignment workload showing the status of audits in progress, workload backlog, and disposition taken on completed audit assignments.
4. An external assessment, such as a quality assurance review, will be conducted at least once every five years by a qualified, independent reviewer or review team from outside the California State University. Results of the review will be communicated to the Board through the Committee on Audit.

Coordination of Work

1. The University Auditor is the point of contact for all entrance and exit conferences held with the Office of the Chancellor by external audit agencies.

The consultant will solicit the opinions of Trustees, and system and campus personnel necessary to evaluate performance. The Committee on Audit will discuss performance expectations and the results of the appraisal with the University Auditor in closed session.
