The Final Initial Study/Mitigated Negative Declaration has addressed any potentially significant environmental impacts, mitigation measures, comments and responses associated with approval of the San Diego State University Engineering and Interdisciplinary Sciences Complex Master Plan Revision and all discretionary actions related.

The Final Initial Study/Mitigated Negative Declaration was prepared pursuant to the California Environmental Quality Act and State CEQA Guidelines.

This resolution is adopted pursuant to the requirements of Section 21081 of Public Resources Code and Section 15091 of the State CEQA Guidelines which require that the Board of Trustees make findings prior to the approval of a project that the mitigated project, as approved, will not have a significant impact on the environment, that the project will be constructed with the recommended mitigation measures as identified in the mitigation monitoring program, and that the project will benefit the California State University. The Board of Trustees makes such findings with regard to this project.

The chancellor is requested under Delegation of Authority granted by the Board of Trustees to file the Notice of Determination for the San Diego State University Engineering and Interdisciplinary Sciences Complex Master Plan Revision and all discretionary actions related thereto as identified in the Final Initial Study/Mitigated Negative Declaration for this project.

**Certify the Final Environmental Impact Report and Approve the Campus Master Plan 2015 for California State University, Sacramento (RCPBG 05-15-10)**

**RESOLVED**, by the Board of Trustees of the California State University, that:

The Final Environmental Impact Report (FEIR) for the California State University, Sacramento Campus Master Plan 2015 has addressed any potentially significant environmental impacts, mitigation measures, and project alternatives, comments and responses to comments associated with approval of the proposed campus master plan revision pursuant to the requirements of the California Environmental Quality Act and State CEQA Guidelines.

The Final EIR addresses the proposed campus master plan revision.

This resolution is adopted pursuant to the requirements of Section 21081 of Public Resources Code and Section 15091 of the State CEQA Guidelines which require that the Board of Trustees make findings prior to the approval of a project.

The board hereby adopts the Findings of Fact and Mitigation Monitoring and Reporting Program, including all mitigation measures identified therein, for Agenda Item 4 of the May 19-20, 2015 meeting of the Board of Trustees' Committee on Campus Planning, Buildings and Grounds, which identifies the specific impacts of the proposed campus master plan and related mitigation measures, which are hereby incorporated by reference.

The board has adopted the Findings of Fact and Statement of Overriding Considerations that outweigh certain remaining significant and unavoidable short-term air quality impacts and temporary and intermittent noise impacts from construction of future facilities.

The Final EIR has identified potentially significant impacts that may result from implementation of the proposed campus master plan revision. However, the Board of Trustees, by adopting the Findings of Fact, finds that the inclusion of certain mitigation measures as part of the project approval will reduce most, but not all, of those effects to less than significant levels. Those impacts which are not reduced to less than significant levels are identified as significant and unavoidable and are overridden due to specific project benefits to the CSU identified in the Findings of Fact and Statement of Overriding Considerations.

Prior to the certification of the Final EIR, the Board of Trustees reviewed and considered the above-mentioned Final EIR, and finds that the Final EIR reflects the independent judgment of the Board of Trustees. The board hereby certifies the Final EIR for the project as complete and adequate in that the Final EIR addresses all potentially significant environmental impacts of the project and fully complies with the requirements of CEQA and the CEQA Guidelines. For the purpose of CEQA and

the CEQA Guidelines, the administrative record of proceedings for the project includes the following:

- a. The 2015 Draft EIR for the California State University, Sacramento Campus Master Plan;
- b. The Final EIR, including comments received on the Draft EIR, and responses to comments;
- c. The proceedings before the Board of Trustees relating to the subject master plan revision, including testimony and documentary evidence introduced at such proceedings; and
- d. All attachments, documents incorporated, and references made in the documents as specified in items (a) through (c) above.

The Board of Trustees hereby certifies the Final EIR for the California State University, Sacramento Campus Master Plan dated May 2015 as complete and in compliance with CEQA.

The California State University, Sacramento Campus Master Plan Revision dated May 2015 is approved.

The chancellor or his designee is requested under Delegation of Authority granted by the Board of Trustees to file the Notice of Determination for the Final Environmental Impact Report for the California State University, Sacramento Campus Master Plan 2015.
