3.41	Lead inspection/risk assessment records		X		X			CCR, Title 17, 36000 (b)	Required: 3 years Recommended: Life of the building.

Additional Citation(s)
While no new citation exist, EPA Publication Number: 305-K-17-001 provides additional information for maintaining reports concerning inspections.

Additional Citation(s)

The regulation requires three years but multiple instances of historical records clearing the CSU name of liability related to cleanups have shown the importance of these records.

CA_HSC 117943

Though the regulations requires 10 years, remediation demonstrates to future land developers (internal or external) that we have cleaned up sites to at least the minimum environmental regulations and often to ND. These records will also prove we have not exposed someone if accused.
