WHAT IS STUDENT SUCCESS?

Data Sources

- Institutional Level Data
- College Level Data
- Student Affairs Data
- Department Level Data
- Course Level Data
- Individual Student Data
- Project Level Data

Metrics for Success in the First Year

- Credit Accumulation
- Credit Completion Ratio
- Gateway Course Completion
- Persistence
- Major or Program Selection

WHAT OTHER KINDS OF
INSTITUTIONAL LEVEL DATA ARE
IMPORTANT TO TRACK AT YOUR
INSTITUTION?

Disaggregating Data

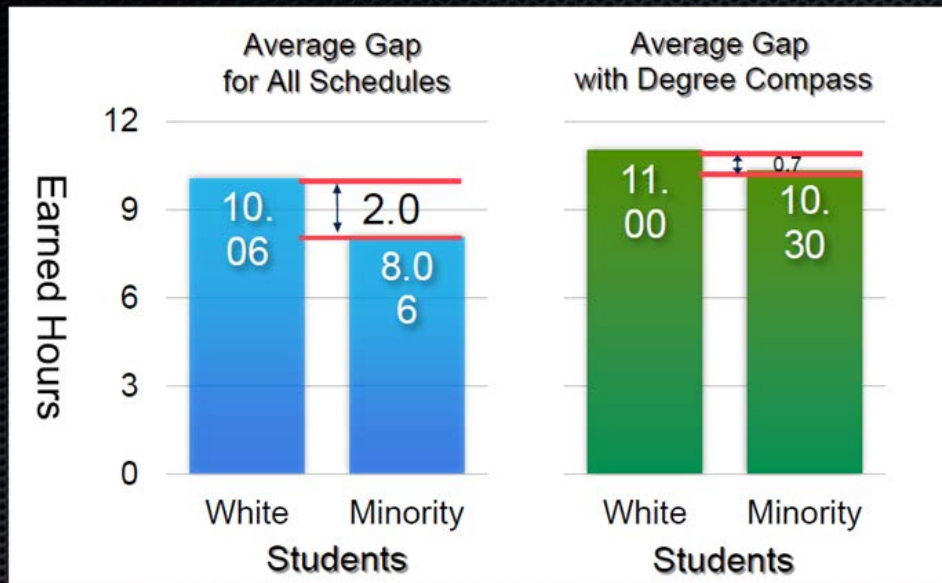

- First Year Students
- Transfer Students
- Student Athletes
- Gender
- Race/Ethnicity
- First Generation
- FT/PT Status
- Employed Students
- Former Military
- Placement Level Exams
- Financial Aid Recipients
- Residential/Commuter
- International Students
- Out of State Students

WHAT KIND OF DISAGGREGATED DATA IS RELEVANT FOR YOUR INSTITUTION?

Student Analytics

- Predictive Analytics
- Early Alert Systems

The Power of Predictive Analytics

- **Achievement gap almost removed** when students take recommended schedules

Source: Tristan Denley, Tennessee Board of Regents

What other sources of data are important for your institution?

- College Level Data
- Student Affairs Data
- Department Level Data
- Course Level Data
- Individual Student Data
- Project Level Data
