Active Bystander Intervention Workshop

October 22, 2021

Who's attending today's workshop?

CSU faculty members, staff, students and administrators from 17 different campuses

- Biology, chemistry and biochemistry, civil engineering, continuing education, ecology, economics, environmental science, fisheries, geography, geology, health sciences, history, kinesiology, management and organization, marine science, natural resources, oceanography, political science, public health, theater and dance, urban and regional planning

Friends from CA Ocean Science Trust, NOAA and LA County Sanitation

Why Active Bystander Intervention training?

Because sexual harassment, bullying, and other hostile behaviors are not ok.

Netflix

Why do you want to be here today?

- I want to be better informed how I can make a safe and impactful difference during a bad situation
- I need to do my duty and be more aware of when others are feeling uncomfortable so that I can make a better contribution as a bystander.
- I want to learn about this topic and how I can use it to have a more inclusive classroom for teaching.
- To develop a research lab that is clearly just, inclusive, and equitable.
- To listen, learn, and develop as a faculty member committed to values of inclusion and acting on those values consistently.
- I am a new chair and I will be able to serve my department far more effectively with this training!
- **Responding in the moment to hostile behaviors is not an easy skill** so this seems very useful!

COAST Anti-Racism and Inclusive Diversity Resources

https://www.calstate.edu/impact-of-the-csu/research/coast/Pages/Anti-Racism_Inclusive_Diversity_Resources.aspx

Curated and dynamic list of books, articles, podcasts, websites and other media to help understand systemic racism in the US and what we can do about it.

ICYMI: COAST-ADVANCEGeo Implicit Bias and Microaggression Workshop 9/17/2021
